Restructuring Territoriality Europe And The United States Compared:

Restructuring Territoriality Christopher K. Ansell, Giuseppe Di Palma, 2004-07-12 The bundling of political authority into mutually exclusive territorial boundaries territoriality is a fundamental principle of modern political organization Indeed it provides the foundation for other cherished institutions national sovereignty citizenship the modern welfare state and democracy Are globalization internationalization and Europeanization conspiring to unbundle territoriality If so are sovereignty citizenship the welfare state and democracy unravelling as well Is a new post national non territorial form of political organization heralded by the European Union being born With a focus on Europe this volume explores these issues from various substantive and theoretical perspectives The authors find evidence of the diffusion of authority both within and beyond the state producing novel institutional arrangements and new modes of governance But the United States may provide more useful insights into the new dispensation than the idea of a post national non territorial politics Interest in contemporary challenges to democracy run throughout this volume

Comparative Federalism Anand Menon, Martin Schain, 2006-11-16 Comparative federalism is an important topic with scholarly work comparing the US EU proliferating rapidly This volume seeks to build on contribute to this literature by developing a systematic comparison of the institutions policies developmental patterns of the European Union the United States

State Territoriality and European Integration Michael Burgess, Hans Vollaard, 2006 The European nation state is now placed between the interconnected processes of globalization and European integration This new book examines these evolving relationships showing how the conventional territorial basis of the state is being reappraised Bringing together leading thinkers on the nation state this volume tackles key questions about how we should conceptualize and discuss the political significance of territory in today's world For example does the era of Europeanization and globalization herald the end of citizens traditional attachment to their national territories Do our conceptions of the state no longer correspond to contemporary political realities These questions are approached from a range of positions that illuminate the debates now taking place across the world This book delivers a clear set of key concepts indicators and theoretical notions to carry out a historically and empirically grounded examination Drawing upon case studies from across Europe the lessons and conclusions detailed have a fascinating international scope and can be applied to our understanding of globalization which is intimately connected with European integration This is an invaluable book for all students of European integration political science and international relations

Europe, Like America Josep M. Colomer, 2010 *Rethinking European Spatial Policy as a Hologram* Valeria Fedeli, 2017-03-02 Bringing together case studies from several European countries this book provides an in depth examination of the evolution of European spatial policy Contributors focus on changes to the design and implementation of European policies at both national and local levels and examine institutional change particularly Europeanization European governance and EU enlargement Rhetorical discursive and representational dimensions are also interlinked to explore synergies and conflicts

The volume offers an experimentation of new interpretative approaches to spatial planning which will prove essential to the international debate

Compound Democracies Sergio Fabbrini, 2010-08-19 This is a major new comparison of the American and European political systems By deploying a powerful new model to analyse the two systems it draws some challenging conclusions about their increasing similarity Professor Fabbrini argues that the process of regional integration in Europe over the last 60 years has significantly reduced the historical differences between the democracies on either side of the Atlantic The EU and the US are now similar because they represent two different species of the same political genus the compound democracy The defining feature of compound democracy is the union of states and their citizens Through such union the states agree to pool their sovereignty within a larger integrated supra state or supranational framework They do so because these unions are primarily pacts for avoiding war Because the states which made those unions were and continue to be asymmetrically correlated any attempt to create a unified polity that is a political system where the decision making power is monopolized by only one institution is likely to fail He goes on to argue that the US and the EU are based on a multiple diffusion of powers which guarantees that any interest can have a voice in the decision making process and no majority will be able to control all the institutional levels of the polity This type of system allows an inter states organization to operate as a supra state polity but it does so at the expense of decision making capacity and accountability

Europeanization P. Graziano, M. Vink, 2006-11-28 This cutting edge handbook written by foremost authoritative scholars presents the main theoretical and empirical issues involved in current Europeanization research It evaluates the achievements and shortcomings of the growing literature As an advanced reference book it also sets the parameters for Europeanization research in the coming years

A 'Macro-regional' Europe in the Making Stefan Gänzle, Kristine Kern, 2015-10-19 Macro regional strategies seek to improve the interplay of the EU with existing regimes and institutions and foster coherence of transnational policies Drawing on macro regional governance and Europeanization this edited volume provides an overview of processes of macro regionalization in Europe displaying evidence of their significant impact

Comparative Federalism Thomas O. Hueglin, Alan Fenna, 2015-01-01 Comparative Federalism A Systematic Inquiry Second Edition is a uniquely comprehensive analytic and genuinely comparative introduction to the principles and practices as well as the institutional compromises of federalism Hueglin and Fenna draw from their diverse research on federal systems to focus on four main models America Canada Germany and the European Union but also to range widely over other cases At the heart of the book is careful analysis of the relationship between constitutional design and amendment fiscal relations institutional structures intergovernmental relations and judicial review Such analysis serves the dual role of helping the reader understand federalism and providing a comparative framework from which to assess the record of federal systems The second edition has been extensively revised and updated taking into account new developments in federal systems and incorporating insights from the growing body of literature in the field It includes two new chapters Fiscal Federalism and The

Limits of Federalism Geopolitics and International Relations ,2021-12-13 Although we live in a globalised world territorially embedded factors are highly relevant in such domains as security economy energy environment politics diplomacy Today s analysts of world affairs are often loosely referring to geopolitics but do not always clearly define it This book therefore offers a necessary framework an introduction into the main components of geopolitical analysis an overview of the main geopolitical schools of thought as well as reflections on how technology and geopolitics affect each other in economy energy and security In addition several empirical studies are showcased each developing innovative approaches Leading authors reflect upon containment analyse geopolitical myths research geoeconomic rivalries study mental maps analyse conflict through territorially embedded variables greed motivations and apply neo medievalism to study sub state diplomacy Contributors include David Crikemans Gyula Csurgai Luis da Vinha Manuel Duran Alexandre Lambert Antonios Nestoras and Steven Spittaels **Power and the State** Martin J. Smith,2009-08-14 In this important new text Martin Smith reassesses traditional debates about power and how they understand the nature and impact of the state He develops an analysis of the new forms of state power that have developed in response to the perceived challenges of globalization and governance **Does the Constitution Follow the Flag?** Kal Raustiala,2011 The Bush Administration has notoriously argued that detainees at Guantanamo do not enjoy constitutional rights because they are held outside American borders But where do rules about territorial legal limits such as this one come from Why does geography make a difference for what legal rules apply Most people intuitively understand that location affects constitutional rights but the legal and political basis for territorial jurisdiction is poorly understood In this novel and accessible treatment of territoriality in American law and foreign policy Kal Raustiala begins by tracing the history of the subject from its origins in post revolutionary America to the Indian wars and overseas imperialism of the 19th century He then takes the reader through the Cold War and the globalization era before closing with a powerful explanation of America s attempt to increase its extraterritorial power in the post 9 11 world As American power has grown our understanding of extraterritorial legal rights has expanded too and Raustiala illuminates why America s assumptions about sovereignty and territory have changed Throughout he focuses on how the legal limits of territorial sovereignty have diminished to accommodate the expanding American empire and addresses how such limits ought R to look in the wake of Iraq Afghanistan and the war on terror A timely and engaging narrative Does the Constitution Follow the Flag will change how we think about American territory American law and ultimately the changing nature of American power **Devolution and social citizenship in the UK** Greer, Scott L.,2009-01-21 Most of the expansive literature on social citizenship follows its leading thinker T H Marshall and talks only about the British state often referring only to England But social citizenship rights require taxation spending effective public services and politics committed to them They can only be as strong as politics makes them That means that the distinctive territorial politics of the UK are reshaping citizenship rights as they reshape policies obligations and finance across the UK This timely book explores how

changing territorial politics are impacting on social citizenship rights across the UK The contributors contend that whilst territorial politics have always been major influences in the meaning and scope of social citizenship rights devolved politics are now increasingly producing different social citizenship rights in different parts of the UK Moreover they are doing it in ways that few scholars or policymakers expect or can trace Drawing on extensive research over the last 10 years the book brings together leading scholars of devolution and citizenship to chart the connection between the politics of devolution and the meaning of social citizenship in the UK The first part of the book connects the large and largely distinct literatures on citizenship devolution and the welfare state The empirical second part identifies the different issues that will shape the future territorial politics of citizenship in the UK intergovernmental relations and finance policy divergence bureaucratic politics public opinion and the European Union It will be welcomed by academics and students in social policy public policy citizenship studies politics and political science

European societies Steffen Mau,Roland Verwiebe,2010-10-08 This comprehensive textbook provides a thorough analysis of the nature of European societies across the expanded EU member states Using a wealth of data the authors compare the different dimensions of the territorial and social order of Europe and address a range of issues relating to Europeanisation and key topics such as inequality migration poverty population and family the labour market and education Presented in a student friendly way this book also helps unravel people s attitudes towards Europe European integration and citizens of other European countries It will be an essential read for under and post graduate students and academics of sociology European studies social stratification social policy and political sciences

Fiscal Unions Tomasz P. Woźniakowski,2022-10-03 By building on a recent research comparing the EU and US and drawing on Riker s influential theory of federalism this books explores the origins of fiscal unions It investigates early American history and traces its constitutional debates to argue that an internal threat such as sovereign debt crisis leading to social unrest threatening the Union triggers emergence of federal taxing powers i e a federal fiscal union It then contrasts the American experience of fiscal integration with the European one and subsequently concludes with the insights for the EU It is a first monograph to compare the American and European models of fiscal integration making two original contributions to the theoretical and empirical literature In reference to the former it introduces the concept of fiscalization which defines the emergence of a fiscal union with federal tax powers Concerning the latter by analysing the Confederation period of the US and applying Riker s theory using mainly unexplored primary sources such as the protocols from state ratification conventions of 1787-88 this book adds to the US EU comparative federalism literature It shows that paradoxically by not agreeing to give the EU fiscal capacity so that they could protect their fiscal sovereignty member states gave up more of this very fiscal sovereignty to the central institutions than states in classical federations This research allows the reader to learn about the similarities and the differences between the pre Constitution US and the modern EU with regards to their fiscal arrangements a comparison of the arguments that were used while debating those arrangements and finally the conditions

under which central level of government in the systems of multi level government is likely to get a power to tax

Mediterranean Paradiplomacies Manuel Duran, 2015-03-10 In *Mediterranean Paradiplomacies The Dynamics of Diplomatic Reterritorialization* Manuel Duran presents a new view on the phenomenon of paradiplomacy by analyzing the diplomatic activities of a number of Mediterranean substate entities as a site of political territorialization The international agency of these substate entities is giving way to new patterns of territorialization as well as alternative forms of diplomacy Duran examines the diplomatic activities of two Spanish two French and two Italian regions The book poses the question of why and how these regions operate diplomatically in a given territorial milieu and convincingly elucidates the particular patterns of reterritorialization that result from these diplomatic activities

New Challenges for Stateless Nationalist and Regionalist Parties Eve Hepburn, 2013-10-18 Throughout Europe stateless nationalist and regionalist parties have moved from niche actors in party systems to mainstream political players No longer the outsider in party politics these parties have successfully entered government at the regional and state levels and many have been responsible for pushing the agenda for radical constitutional change in the United Kingdom Spain Italy Belgium Germany and France However the transformation of these parties from peripheral movements to established parties of government does not come without its problems Whilst these parties were once able to focus on the single issue of self determination they have been forced to change their strategies alter their behaviour and compromise on their principles in order to succeed in an era of electoral volatility partisan dealignment and multi level governance This book explores how stateless nationalist and regionalist parties across Western Europe have responded to the twin challenges of multi level politics i e operating at the regional state and European levels and a multi dimensional policy space whereby they must articulate policy proposals alongside their territorial demands Written by leading experts in the field this is a cutting edge collection of theoretical analytical and empirical work on the challenges currently facing nationalist and regionalist parties in Europe This book was previously published as a special issue of *Regional and Federal Studies*

Reconceptualizing Sovereignty in the Post-National State: Statehood Attributes in the International Order Flavio G. I. Inocencio, 2014-08-18 This book offers a multidisciplinary approach to the study of the concept of sovereignty This book outlines the origins context and evolution of the concept of sovereignty as an essential attribute of the modern territorial State since the Peace of Westphalia in 1648 The book identifies two competing traditions of the concept of sovereignty the tradition inaugurated by Jean Bodin in 1576 in his work *The Six Books of the Commonwealth* and another that started with Johannes Althusius in 1603 considered the father of federal theory in his less known work *Politica* In order to understand the concept of sovereignty it is necessary to understand the constitutional rules of each international system and the fact that the States are the primary polities in the international arena The rise of International Organizations and the increasing institutionalization of the international system challenges this state centric world considering their exercise of sovereign powers Following authors such as Daniel Elazar the book

discusses the importance of federalism as political theory which offers a different understanding of the concept of sovereignty The book discusses the European Union as a paradigmatic case of a postmodern confederation which challenges the notion of sovereignty as an absolute and exclusive statehood attribute Furthermore the reconceptualization of sovereignty in International Law should consider the rise of regional and functional legal orders the different understandings of sovereignty offered by the federalist tradition and the processes of deterritorialization and disaggregation of authority The book concludes with the idea that concept of sovereignty in International Law should be seen as a flexible concept which is not an exclusive attribute of the modern territorial state This book is required reading for all interested in the history and the evolution of the concept of sovereignty

The Party Politics of Territorial Reforms in Europe Emanuele

Masseti, Simon Toubeau, 2020-07-24 The book analyses how political parties compete and strategise on the issue of territorial reform using case studies that include countries from both Western Belgium Germany Italy and Spain and Central Eastern Europe Poland Slovakia and Romania Each case study considers different drivers of decentralization such as territorial identities and the demands of regionalist parties for territorial autonomy or independence efficiency concerns related to issues of uneven economic development and economic competitiveness the pressure from supra national organizations especially the EU as well as different combinations of these drivers They also consider how the ideology and organisation of state wide parties and the institutional context in which they compete shape their responses to these drivers and their strategy towards the question of territorial reform This collection investigates the logic of the actions that guide political parties strategy to highlight trends that are apparent across the case studies This book was originally published as a special issue of West European Politics

The Oxford Handbook of Political Institutions R. A. W. Rhodes, Sarah A.

Binder, Bert A. Rockman, 2008-06-12 The study of political institutions is among the founding pillars of political science With the rise of the new institutionalism the study of institutions has returned to its place in the sun This volume provides a comprehensive survey of where we are in the study of political institutions covering both the traditional concerns of political science with constitutions federalism and bureaucracy and more recent interest in theory and the constructed nature of institutions The Oxford Handbook of Political Institutions draws together a galaxy of distinguished contributors drawn from leading universities across the world Authoritative reviews of the literature and assessments of future research directions will help to set the research agenda for the next decade

Restructuring Territoriality Europe And The United States Compared Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become much more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is actually remarkable. This extraordinary book, aptly titled "**Restructuring Territoriality Europe And The United States Compared**," compiled by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound impact on our existence. Throughout this critique, we will delve to the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.

Restructuring Territoriality Europe And The United States Compared Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Restructuring Territoriality Europe And The United States Compared free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Restructuring Territoriality Europe And The United States Compared free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While

downloading Restructuring Territoriality Europe And The United States Compared free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Restructuring Territoriality Europe And The United States Compared. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Restructuring Territoriality Europe And The United States Compared any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Restructuring Territoriality Europe And The United States Compared Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Restructuring Territoriality Europe And The United States Compared is one of the best book in our library for free trial. We provide copy of Restructuring Territoriality Europe And The United States Compared in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Restructuring Territoriality Europe And The United States Compared. Where to download Restructuring Territoriality Europe And The United States Compared online for free? Are you looking for Restructuring Territoriality Europe And The United States Compared PDF? This is definitely going to save you time and cash in something you should think about.
