Schouten, Wilhelmus Josephus Petrus Alphonsus Beers, 2010 Obtaining maximum results by ensuring clear agreements
between managers and employees This is what result oriented management ROM is about It is a management style that is
particularly successful ROM is based on the fact that people get more enjoyment from their work and obtain better results if
they know clearly what is expected of them if they are involved in defining targets have sufficient room to decide how they
can meet them and are given feedback about their performance Managers define the goals and set priorities and make the
resources available that are needed time money and capacity The employees give their time knowledge and skills and define
the conditions needed for producing the targeted results They then take personal responsibility for achieving these results
