PEOPLE.

Resurgence Of The States

**Raymond Rastegar, Freya Higgins-
Desbiolles, Lisa Ruhanen**

Resurgence Of The States:

The Resurgence of the States Ann O'M. Bowman, Richard C. Kearney, 1986 How states can be responsive responsible and progressive political actors in government relations **The Resurgence of the State** Myriam Dunn Cavelty, Sai Felicia Krishna-Hensel, Victor Mauer, 2007 Do information and communication technologies networks really lead to a weakening of the nation state This volume revisits the retreat of the state thesis and tests its validity in the 21st century It will intrigue the reader with expert level analysis providing historical context and conceptualizing trends and social dynamics

Governance And The Changing American States David Hedge, 2018-02-12 This book chronicles the kinds of changes that have occurred on the demand and supply sides of American state government It assesses the consequences of those developments for the quality of statehouse democracy and the ability of state governments to govern responsibly and effectively *Understanding State Constitutions* G. Alan Tarr, 2018-06-05 For many Americans the word constitution means just one thing the national Constitution According to a recent survey almost half do not know that individual states also have constitutions Scholars have also paid little attention to state constitutions favoring the apparently more dynamic and significant federal scene G Alan Tarr seeks to change that in this landmark book A leading authority on state legal issues he combines history law and political science to present a thorough and long needed account of the distinct and important role of state constitutions in American life Tarr shows that state constitutional politics are dominated by three crucial issues with little salience at the national level the distribution of power among groups and regions within states the scope of state and local governmental authority and the relation of the state to economic activity He explains how state constitutions differ from the national Constitution in treating not only matters of high principle but also such mundane subjects as ski trails and motor vehicle revenues He also explores why state constitutions unlike their federal counterpart have been so frequently amended and replaced Tarr concludes that the United States not only has a system of dual constitutionalism but also has dual constitutional cultures Powerfully argued and meticulously researched the book fills an important gap in political and legal studies and finally gives state constitutions the scholarly attention they richly deserve *The Next Frontier* David T Johnson, Franklin E Zimring, 2009-02-02 Today two thirds of the world s nations have abolished the death penalty either officially or in practice due mainly to the campaign to end state executions led by Western European nations Will this success spread to Asia where over 95 percent of executions now occur Do Asian values and traditions support capital punishment or will development and democratization end executions in the world s most rapidly developing region David T Johnson an expert on law and society in Asia and Franklin E Zimring a senior authority on capital punishment combine detailed case studies of the death penalty in Asian nations with cross national comparisons to identify the critical factors for the future of Asian death penalty policy The clear trend is away from reliance on state execution and many nations with death penalties in their criminal codes rarely use it Only the hard line authoritarian regimes of China Vietnam Singapore and North Korea

execute with any frequency and when authoritarian states experience democratic reforms the rate of executions drops sharply as in Taiwan and South Korea Debunking the myth of Asian values Johnson and Zimring demonstrate that politics rather than culture or tradition is the major obstacle to the end of executions Carefully researched and full of valuable lessons The Next Frontier is the authoritative resource on the death penalty in Asia for scholars policymakers and advocates around the world

Recognizing The Latino Resurgence In U.S. Religion Ana Maria Diaz-stevens, 2018-02-12 This book delivers a knockout blow to the old notion that Latinos and Latinas are just another immigrant group waiting to be assimilated Taking as analogy the scriptural episode of Emmaus in which Jesus walked unrecognized alongside his disciples the authors detail how after nearly a century of unrecognized presence the nations more than 25 million Latinos and Latinas began in 1967 to use religion as a major source of the social and symbolic capital to fortify their identity in American society Ana Mara Daz Stevens and Anthony M Stevens Arroyo describe how this Latino Religious Resurgence has created a church based model of multicultural pluralism that challenges the current trend of U S politics Emmaus is the biblical episode that recounts how the disciples who had been unable to recognize the resurrected Jesus even as he traveled with them finally come to know him as their Lord through his inspirational conversation In this major new work exploring Latino religion Ana Mara Daz Stevens and Anthony M Stevens Arroyo compare a century old presence of Latinos and Latinas under the U S flag to the Emmaus account They convincingly argue for a new paradigm that breaks with the conventional view of Latinos and Latinas as just another immigrant group waiting to be assimilated into the U S The authors suggest instead the concept of a colonized people who now are prepared to contribute their cultural and linguistic heritage to a multicultural and multilingual America The first chapter provides an overview of the religious and demographic dynamics that have contributed a specifically Latino character to the practice of religion among the 25 million plus members of what will become the largest minority group in the U S in the twenty first century The next two chapters offer challenging new interpretations of tradition and colonialism blending theory with multiple examples from historical and anthropological studies on Latinos and Latinas The heart of the book is dedicated to exploring what the authors call the Latino Religious Resurgence which took place between 1967 and 1982 Comparing this period to the Great Awakenings of Colonial America and the Risorgimento of nineteenth century Italy the authors describe a unique combination of social and political forces that stirred Latinos and Latinas nationally Utilizing social science theories of social movement symbolic capital generational change a new mentalit and structuration the authors explain why Latinos and Latinas who had been in the U S all along have only recently come to be recognized as major contributors to American religion The final chapter paints an optimistic role for religion casting it as a binding force in urban life and an important conduit for injecting moral values into the public realm Offering an extensive bibliography of major works on Latino religion and contemporary social science theory Recognizing the Latino Resurgence in U S Religion makes an important new contribution to the fields of sociology religious studies American history and ethnic and

Latino studies The Resurgence of Religion David S. Zeidan, 2018-11-13 This book is a comparative study of basic themes in Christian and Islamic fundamentalist discourses analyzing and comparing texts from a wide variety of fundamentalist leaders and movements looking for family resemblances and significant differences in order to better understand the contemporary phenomenon of religious resurgence After placing fundamentalisms in a theoretical framework the study looks at selected themes important to fundamentalists noting resemblances and differences These themes include their anti secularist stance their theocentric worldviews their reliance on inerrant sacred scriptures and their attitudes to politics government state and democracy The study also looks at the fundamentalist view of the world as a perennial battlefield between the forces of good and those of evil in the realm of ideologies as well as politics and the legitimation of violence

The Re-Emergence of the Single State Solution in Palestine/Israel Cherine Hussein, 2015-02-11 Providing the first in depth intellectual and organizational mapping of the single state idea s recent resurgence in Palestine Israel this book enquires into its nature as a phenomenon of resistance as well as into its potential as a counterhegemonic force in the making against the processes of Zionism Reconstructing this moment of re emergence through primary material and interviews with diverse influential intellectuals its analysis highlights their self understandings worldviews strategies and perceptions of the phenomenon in which they are involved while questioning whether the single state idea has the potential to become a Gramscian inspired movement of resistance against Zionism In presenting this rare insight into a resistance movement in the making this book resurrects an empowering image of Antonio Gramsci infused with the writings of Edward Said This it does in an effort to both problematize the dominant interpretations of Gramsci s writings in International Relations and to decolonise the abstract way in which resistance and counter hegemony are often studied in the discipline Contributing a mapping of a silenced alternative and hopeful way forward in the context of escalating violence this book is essential reading for those studying the Arab Israeli conflict Middle East Politics and International Relations **A People's**

History of the United States: Moments That Defined a Nation Pasquale De Marco, 2025-08-14 In the vast panorama of world history few nations have captured the imagination and stirred the soul like the United States of America A nation born from the dreams of pioneers the sacrifices of soldiers and the tireless labor of countless immigrants America stands as a beacon of hope and opportunity for people around the world This book is a journey through the annals of American history a chronicle of the events people and ideas that have shaped this great nation From the founding fathers who penned the Declaration of Independence to the civil rights leaders who fought for equality from the soldiers who stormed the beaches of Normandy to the scientists who unlocked the secrets of the atom Americans have always risen to meet the challenges of their time Within these pages you ll witness the triumphs and the tragedies the victories and the defeats that have made America what it is today You ll explore the birth of a nation the expansion of its borders the struggles for civil rights the rise and fall of empires and the ongoing pursuit of a more perfect union Through the eyes of the men and women who shaped America s

destiny you'll learn about the wars they fought the laws they passed the speeches they gave and the songs they sang You'll discover the values they held dear the dreams they dared to dream and the sacrifices they made to build a better future for themselves and their children America's story is one of resilience innovation and optimism It's a story of people from all walks of life coming together to build a nation where anything is possible It's a story that continues to unfold a story that we are all a part of Join us on this journey through time as we explore the rich and complex history of the United States of America Discover the stories of the people who shaped this great nation and gain a deeper understanding of the events that have made America what it is today If you like this book write a review

Altered States Andrew P. Cortell, Susan Peterson, 2003-01-01 Challenging dominant assumptions in international relations *Altered States* demonstrates that national political institutions change more frequently and less dramatically than is commonly thought and with important consequences for the political landscape Combining theory with solid empirical research including archival evidence and interviews the contributors explore the causes and consequences of institutional transformation in the United States Western and Eastern Europe Russia and the former Soviet Republics and Cuba *Altered States* highlights the dynamic and interactive relationship between national political institutions and reform minded policy entrepreneurs a perspective that will interest scholars and policy makers alike

The Cosmopolitan State H Patrick Glenn, 2013-05-23 For more than two centuries the idea of the nation state has been widespread The expression is now widely used and is even to be unavoidable The nation state implies that the population of a state should be homogenous in terms of language religion and ethnicity the nation and the state should coincide However history demonstrates that there never has been and there never will be a nation state Human diversity is manifest in states of all sizes locations and origins This wide ranging book argues that there should be no regret in the recognition of this empirical reality since the notion of a nation state has been the justification for some of the worst atrocities in human history Since the nation state is impossible all states are cosmopolitan in character They are cosmopolitan regardless of the language of their constitutions or official teaching and regardless of the extent to which they officially recognize their own diversity The most successful states are those which are most successful in their own forms of cosmopolitanism Cosmopolitan ways are infinitely varied however and must be sought in the intricate workings of individual states The cosmopolitan character of states is necessarily reflected in their law The main instruments of legal cosmopolitanism have been those of common laws constitutionalism and what is best described as institutional cosmopolitanism The relative importance of these legal instruments has changed over time but all three have been constantly operative even in times of attempted national and territorial closure All three remain present in the contemporary cosmopolitan state understood in terms of cosmopolitan citizens cosmopolitan sources and cosmopolitan thought The cosmopolitan state is moreover the only appropriate conceptualization of the state in a time of globalization This book outlines the subtlety of the law of cosmopolitan states law which has survived through periods of nationalism and which

provides the working methods for the reconciliation of diverse populations Combining law history political science political philosophy international relations and the new logics it demonstrates that the idea of the nation state has failed and should yield to an understanding of the state as necessarily cosmopolitan in character This will be invaluable reading to all those interested in constitutional law international law and political theory **Contender States and Modern Chinese**

International Thought Ferran Perez Mena,2024-05-17 This book contends that the development of modern Chinese international thought has been profoundly shaped by the distinctive nature of the Chinese state as a contender state and its global positioning since 1912 The argument posited demonstrates that notwithstanding the varied perspectives on the international held by Chinese intellectuals throughout the 20th century there exist commonalities across the periods analyzed in this book In essence the book emphasizes that the shared elements influencing the production of modern Chinese international thought do not derive from a unified cultural Chinese identity but rather stem from China's evolving geopolitical position in the modern world **Tourism, Global Crises and Justice**

Raymond Rastegar,Freya Higgins-Desbiolles,Lisa Ruhanen,2024-09-27 This book gathers theoretical and empirical studies exploring the link between global crises sustainable tourism and the justice challenges being faced by vulnerable groups individuals and society While any crisis may exacerbate existing inequalities the crises of the 21st century are compounding and complicating the ways the impacts unfold and engulf individuals communities and indeed the global community Recent crises revealed how dependent our economies and societies are on the tourism and hospitality industries While studies of crises in tourism have proliferated with concerns for risk management recovery and resilience COVID 19 has exposed the need to think more profoundly on this topic In such circumstances therefore tourism actors must respond to the sustainability and justice challenges resulting from current and future crises by rethinking redefining and reorienting tourism The chapters in this edited volume present a discussion of pertinent themes that consider just transformations issues of climate justice diverse worldviews and knowledges possibilities for solidarity through tourism and concerns with power and decolonisation This book will be of great interest to upper level students researchers and academic of tourism development studies and sustainability as well as professionals in the field of tourism management The chapters in this book were originally published in the Journal of Sustainable Tourism **A New**

Approach to Global Studies from the Perspective of Small Nations Kiyonobu Date,Jean-François Laniel,2023-12-13

With emphasis on East Asian and North American examples notably Japan and Quebec Date Laniel and their contributors take a new approach to the understanding of small nations and their role in the international system Small nations by their very nature raise significant questions about what a nation is Some small nations are sovereign states with relatively small populations and limited territory others are nations within larger sovereign states with distinctive cultures governance structures or other features that differentiate them from their parent state By focussing on non European nations in particular the contributors to this volume challenge our conceptions of what a small nation is and how it operates within the

international system They focus in particular on the nation within a nation state of Quebec and on Japan supplemented by further examples from East Asia By interrogating what these examples have to show us about the typology and character of small nations they offer a critique of superpower and draw out the potential of small nation studies A valuable resource for students and scholars of international relations and theories of the nation and nation state The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Challenging the Secular State Arskal Salim, 2008-09-30

Challenging the Secular State examines Muslim efforts to incorporate shari'a religious law into modern Indonesia's legal system from the time of independence in 1945 to the present The author argues that attempts to formally implement shari'a in Indonesia the world's most populous Muslim state have always been marked by tensions between the political aspirations of proponents and opponents of shari'a and by resistance from the national government As a result although pro shari'a movements have made significant progress in recent years shari'a remains tightly confined within Indonesia's secular legal system The author first places developments in Indonesia within a broad historical and geographic context offering a provocative analysis of the Ottoman empire's millet system and thoughtful comparisons of different approaches to pro shari'a movements in other Muslim countries Saudi Arabia Iran Pakistan He then describes early aspirations for the formal implementation of shari'a in Indonesia in the context of modern understandings of religious law as conflicting with the idea of the nation state Later chapters explore the efforts of Islamic parties in Indonesia to include shari'a in national law Salim offers a detailed analysis of debates over the constitution and possible amendments to it concerning the obligation of Indonesian Muslims to follow Islamic law A study of the Zakat Law illustrates the complicated relationship between the religious duties of Muslim citizens and the nonreligious character of the modern nation state Chapters look at how Islamization has deepened with the enactment of the Zakat Law and demonstrate the incongruities that have emerged from its implementation The efforts of local Muslims to apply shari'a in particular regions are also discussed Attempts at the Islamization of laws in Aceh are especially significant because it is the only province in Indonesia that has been allowed to move toward a shari'a based system The book concludes with a review of the profound conflicts and tensions found in the motivations behind Islamization

The Evangelical Revival G.M. Ditchfield, 2005-08-31

An introduction to the evangelical revival of the 18th and early 19th century important as a cultural force during that period The book is intended for A level and undergraduate courses on the 18th century

Decolonizing Freedom Allison Weir, 2024

Freedom is celebrated as the definitive ideal of modern western civilization Yet in western thought and practice the freedom of some has typically been defined through opposition to the unfreedom of others These exclusions are not secondary to a prior concept of freedom but are constitutive exclusions that have shaped the ways in which western theorists define what freedom is Allison Weir draws on Indigenous political philosophies and practices of decolonization grounded in conceptions of relationality and resurgence

in dialogue with western philosophies to reconstruct a tradition of relational freedom as a distinctive political conception of freedom a radically democratic mode of engagement and participation in social and political relations with an infinite range of strange and diverse beings perceived as free agents in interdependent relations in a shared world Through the work of Leanne Betasamosake Simpson John Borrows Glen Coulthard Audra Simpson Rauna Kuokkanen Joanne Barker Jodi Byrd James Tully and many others this book traces a tradition of colonial unknowing in western conceptions of freedom from Hobbes through republican and critical theories and explores a countertradition of relations between freedom and collective love exemplified in Leanne Betasamosake Simpson's love of land and Hannah Arendt's love of the world It considers Indigenous modes of world creation as performative affective embodied strategies of democratic life skilled modes of addressing diversity and conflict fear and hostility in practices of freedom that embrace polycentric knowledges and rooted dynamisms in contexts of complexity and constant change Weir argues that Indigenous women's struggles to belong to communities and participate in governance have engendered new theories of relational rights that combine politics of rights and resurgence and calls for a coalitional politics guided by queer and feminist Indigenous models of transformative resurgence Finally Weir proposes an approach to critical theory as a practice of self transformation through openness to the other oriented toward relational freedom

Dilemmas of Weak States Tatah Mentan, 2017-11-30 Given the dramatic changes that have taken place in global politics in recent years especially following September 11 2001 it is time to examine a series of critical issues confronting the global political economy One of the most important of these issues is terrorism and its relationship with weak states This book examines the weak state terrorism nexus with particular emphasis on Africa Specifically it provides an in depth analysis of state weakness poverty and the opportunities offered by the latter for the breeding of terrorism and terrorists It also looks at the part played by radical Islam in transnational terrorism in Africa Emerging from this study is recognition of a need for the international system to analyze a wide range of issues that contribute to the weakening of African states

The Department of State Bulletin ,1985 *China's Non-State Soft Power Actors* Xiaoling Zhang, Tony Hong, 2023-09-04 This book enriches the evolving concept of soft power and China's approach to soft power by considering how aspects of Chinese culture notably the traditional martial art and health promoting exercise Tai Chi Quan are being successfully promoted around the world by non state actors and how this fits alongside China's state sponsored soft power promotion The book contrasts growing soft power promotion by China with the corresponding decline in such activities by Western states outlines the growth of Tai Chi Quan societies worldwide and explores in detail why Tai Chi Quan appeals so strongly outside China It shows how Tai Chi Quan introduces many people around the world to Chinese culture and builds links between people inside China and elsewhere in the world It concludes that Tai Chi Quan achieves what soft power aims to achieve a good image and long term friendship

When somebody should go to the books stores, search creation by shop, shelf by shelf, it is in fact problematic. This is why we allow the book compilations in this website. It will agreed ease you to look guide **Resurgence Of The States** as you such as.

By searching the title, publisher, or authors of guide you truly want, you can discover them rapidly.
