Resurrection Of The Animals Poems:

Resurrection of the Animals Anita Skeen, 2002-02-28 The Resurrection of the Animals explores the trinity of the natural world the humans adrift in it and the animals that accompany them Although each of the five sections centers on a particular theme motifs of change loss cycles and transformation thread through the collection weaving the parts into a unified whole Individual sections focus on the seasons of the year and by extension people's lives the power of memory and its limitations the theory that what is magical often resides within and the mysteries of love The Resurrection of the Animals culminates in the title section revealing the lessons of kinship with animals and how epiphanies occur in the simplest actions taking a walk with dogs or catching sight of a bird on the wing These poems suggest that memory association and interaction with the tangible world can revive a part of the self that has slipped below the depths of consciousness *Animals in Classic American Poetry* John Cullen Gruesser, 2025-05-30 In this companion volume to *Animals in the American Classics* How Natural History Inspired Great Fiction John Cullen Gruesser brings together leading experts who explore the integral role animals play in American poetry The ten essays in *Animals in Classic American Poetry* How Natural History Inspired Great Verse showcase how the natural history of and imagery relating to animals have inspired some of America's best known and most beloved poets The book highlights exceptional literary verse from the first American to publish a book of poems Puritan Anne Bradstreet in the seventeenth century to the African American writer Yusef Komunyakaa and the Native American Joy Harjo a recent US poet laureate in the twenty first century Essays on the well known figures Edgar Allan Poe Walt Whitman Herman Melville Emily Dickinson Robert Frost Marianne Moore and Elizabeth Bishop round out this pathbreaking collection *Animals in Classic American Poetry* provides a glimpse into the brilliant burrowing and passionate minds of some of America's most revered poets Whether it is Poe's haunting hybrid description of a raven Emily Dickinson's nostalgic yet chilling observations about a garter snake or Robert Frost's unsettled and unsettling ruminations about a spider consuming a moth each poet reflects on what it means to be a nonhuman and a human animal Not just for students professors and scholars of literature this unique project will appeal to scientists and general readers because of the truly interdisciplinary way in which it examines our biodiverse natural world through the lens of unforgettable American poetry Creative Writing in the Community Terry Ann Thaxton, 2013-11-07 *Creative Writing in the Community* is the first book to focus on the practical side of creative writing Connecting classroom experiences to community based projects it prepares creative writing students for teaching in schools homeless centers youth clubs and care homes Each chapter is packed with easy to use resources including specific lesson plans case studies of students working with community groups lists of suitable writing examples how to sections examples and theoretical applications of creative writing pedagogy and techniques reflection questions writings by workshop participants Enhanced by contributions from directors students and teachers at successful public programs *Creative Writing in the Community* is more than an essential guide for students on creative writing courses and

Rethinking Empathy through Literature Meghan Marie Hammond, Sue J. Kim, 2014-07-11 In recent years a growing field of empathy studies has started to emerge from several academic disciplines including neuroscience social psychology and philosophy Because literature plays a central role in discussions of empathy across disciplines reconsidering how literature relates to feeling with others is key to rethinking empathy conceptually This collection challenges common understandings of empathy asking readers to question what it is how it works and who is capable of performing it The authors reveal the exciting research on empathy that is currently emerging from literary studies while also making productive connections to other areas of study such as psychology and neurobiology While literature has been central to discussions of empathy in divergent disciplines the ways in which literature is often thought to relate to empathy can be simplistic and or problematic The basic yet popular postulation that reading literature necessarily produces empathy and pro social moral behavior greatly underestimates the complexity of reading literature empathy morality and society Even if empathy were a simple neurological process we would still have to differentiate the many possible kinds of empathy in relation to different forms of art All the complexities of literary and cultural studies have still to be brought to bear to truly understand the dynamics of literature and empathy
