Rethinking Confucianism Benjamin A. Elman, John B. Duncan, Herman Ooms, 2002 **Rethinking East Asian Languages, Vernaculars, and Literacies, 1000-1919**, 2014-08-21 The authors consider new views of the classical versus vernacular dichotomy that are especially central to the new historiography of China and East Asian languages Based on recent debates initiated by Sheldon Pollock's findings for South Asia we examine alternative frameworks for understanding East Asian languages between 1000 and 1919 Using new sources making new connections and re-examining old assumptions we have asked whether and why East and SE Asian languages e.g. Chinese Manchu Mongolian Jurchen Korean Japanese and Vietnamese should be analysed in light of a Eurocentric dichotomy of Latin versus vernaculars This discussion has encouraged us to explore whether European modernity is an appropriate standard at all for East Asia Individually and collectively we have sought to establish linkages between societies without making a priori assumptions about the countries' internal structures or the genealogy of their connections Contributors include Benjamin Elman Peter Kornicki John Phan Wei Shang Haruo Shirane Marten S. derblom Saarela Daniel Trambaiolo Atsuko Ueda Sixiang Wang *The Oxford Handbook of Confucianism* Jennifer Oldstone-Moore, 2023 Comprised of thirty-eight original essays by experts from a wide range of disciplines the Oxford Handbook of Confucianism covers the Confucian tradition chronologically geographically and topically through textured and innovative examinations of foundational subjects and emerging topics in Confucian studies

Languages, scripts, and Chinese texts in East Asia Peter Francis Kornicki,2018-01-19 Chinese Writing and the Rise of the Vernacular in East Asia is a wide ranging study of vernacularization in East Asia not only China Japan Korea and Vietnam but also societies that no longer exist such as the Tangut and Khitan empires Peter Kornicki

takes the reader from the early centuries of the common era when the Chinese script was the only form of writing and Chinese Buddhist Confucian and medical texts spread throughout East Asia through the centuries when vernacular scripts evolved right up to the end of the nineteenth century when nationalism created new roles for vernacular languages and vernacular scripts Through an examination of oral approaches to Chinese texts it shows how highly valued Chinese texts came to be read through the prism of the vernaculars and ultimately to be translated This long process has some parallels with vernacularization in Europe but a crucial difference is that literary Chinese was unlike Latin not a spoken language As a consequence people who spoke different East Asian vernaculars had no means of communicating in speech but they could communicate silently by means of written conversation in literary Chinese a further consequence is that within each society Chinese texts assumed vernacular garb in classes and lectures Chinese texts were read and declaimed in the vernaculars What happened in the nineteenth century and why are there still so many different scripts in East Asia How and why were Chinese texts dethroned and what replaced them These are some of the questions addressed in Chinese Writing and the Rise of the Vernacular in East Asia

Park Chung Hee and Modern Korea Carter J. Eckert, 2016-11-07 This first volume in a two part study examines the origins of South Korean authoritarianism as personified by the militant political leader For South Koreans the twenty years from the early 1960s to

late 1970s were the best and worst of times a period of unprecedented economic growth and of political oppression that deepened as prosperity spread In this masterly account Carter J Eckert finds the roots of South Korea s dramatic socioeconomic transformation in the country s long history of militarization a history personified in South Korea s paramount leader Park Chung Hee In *Park Chung Hee and Modern Korea* Eckert reveals how the foundations of Park s leadership were established during the period of Japanese occupation As a cadet in the Manchurian Military Academy Park and his fellow officers absorbed the Imperial Japanese Army s ethos of victory at all costs and absolute obedience to authority When Park seized power in 1961 he applied this ethos to the project of Korean modernization Korean society under Park exuded a distinctively martial character Eckert shows Its hallmarks included the belief that the army should intervene in politics in times of crisis that a central authority should manage the country s economic system and that the state should maintain a strong disciplinary presence in society reserving the right to use violence to maintain order A milestone in the literature of modern East Asia Bruce Cumings author of *Korea s Place in the Sun* *The East Asian Challenge for Democracy* Daniel A. Bell,Chenyang Li,2013-08-12 The rise of China along with problems of governance in democratic countries has reinvigorated the theory of political meritocracy But what is the theory of political meritocracy and how can it set standards for evaluating political progress and regress To help answer these questions this volume gathers a series of commissioned research papers from an interdisciplinary group of leading philosophers historians and social scientists The result is the first book in decades to examine the rise or revival of political meritocracy and what it will mean for political developments in China and the rest of the world Despite its limitations meritocracy has contributed much to human flourishing in East Asia and beyond and will continue to do so in the future This book is essential reading for those who wish to further the debate and perhaps even help to implement desirable forms of political change **Japanese Journal of Religious Studies** ,2004
