Rethinking Development In Latin America:

Rethinking Development in Latin America Charles H. Wood, Bryan R. Roberts, 2005-01-01 Understanding development in Latin America today requires both an awareness of the major political and economic changes that have produced a new agenda for social policy in the region and an appreciation of the need to devise better conceptual and methodological tools for analyzing the social impact of these changes Using as a reference point the issues and theories that dominated social science research on Latin America in the period 1960 and Urban Settlements Marginality and Social Exclusion Contributors besides the editors are Marina Ariza and Orlandina de Oliveira Diane Davis Vilmar Faria Joe Foweraker Elizabeth Jelin Alejandro Portes Joe Potter and Rudolfo Tuir n Juan Pablo Pérez S inz Osvaldo Sunkel and Peter Ward **Rethinking Development Theories in Latin America** Eduardo Feldman, Mary Alice McCarthy, 1993 [Rethinking Development in East Asia and Latin America](#) James William McGuire, 1997 **Rethinking Development Theory** Gary Gereffi, 1989

Rethinking Development Geographies Marcus Power, 2004-08-02 Development as a concept is notoriously imprecise vague and presumptuous Struggles over the meaning of this fiercely contested term have had profound implications on the destinies of people and places across the globe *Rethinking Development Geographies* offers a stimulating and critical introduction to the study of geography and development In doing so it sets out to explore the spatiality of development thinking and practices The book highlights the geopolitical nature of development and its origins in Empire and the Cold War It also reflects critically on the historical engagement of geographers with the Tropics the Third World and the South The dominant economic and political philosophies that shape the policies and perspectives of major institutions are discussed The interconnections between globalization and development are highlighted through an examination of local national and transnational resistance to various forms of development The text provides an accessible introduction to the complex and confusing world of contemporary global development Informative diagrams cartoons and case studies are used throughout While exploring global geographies of economic and political change *Rethinking Development Geographies* is also grounded in a concern with people and places the view from below the views of women and the view from the South **Rethinking Latin America** R. Munck, 2015-12-24 In a subtle but powerful reading of the shifting relationships between development hegemony and social transformation in post independence Latin America Ronaldo Munck argues that Latin American subaltern knowledge makes a genuine contribution to the current search for a social order which is sustainable and equitable

[Development in Latin America](#) Víctor Ramiro Fernández, Gabriel Brondino, 2018-07-27 This edited volume discusses the development theory advanced by the Economic Commission for Latin America and the Caribbean ECLAC in the 1940s and its transformations through the second half of the twentieth century In this time frame the authors identify two approaches structuralism 1950 1980 and neo structuralism 1980 onwards The contributors describe the transition in terms of economic theory and policy the conceptualization of the State and the consideration of space on regional and global scales They argue

that structuralism is still relevant for understanding the current problems of development if a careful and appropriate recovery and update of its main ideas and concepts is made in relation to the current context of globalization and internationalization of production and finance **The United Nations in Latin America** Francis Adams, 2010-01-26

Francis Adams examines the United Nations efforts to promote sustainable in Latin America Adams analyzes the development work of various UN institutions and agencies that sponsor economic and social programs in the developing world as well as the UN's various funding initiatives global conferences and institutional goals **Comparative National Development** A. Douglas Kincaid, Alejandro Portes, 1994 What does it mean to speak of national development in the 1990s As a result of the tumultuous changes in global economic and political structures scholars and policymakers specializing in the study of national development must reassess the interpretive models they have relied upon in the past This book brings together essays by a distinguished group of social scientists that address the dilemmas facing development theory today These essays grounded in sociological research reclaim the important role once played by sociological theory in development studies The collection provides an overview of traditional theories of development assessing their strengths and weaknesses and identifies the new actors issues and processes that future analysis must address The essays discuss the impact of technological innovations in production and commerce the changing relations of states and markets regional development inequalities and the emergence of new social groups as participants in development processes from the book Contents Sociology and Development in the 1990s Critical Challenges and Empirical Trends by A Douglas Kincaid and Alejandro Portes Rethinking Development Theory Insights from East Asia and Latin America by Gary Gereffi The New Dependency Technological Change and Socioeconomic Restructuring in Latin America by Manuel Castells and Roberto Laserna Predatory Developmental and Other Apparatuses A Comparative Political Economy Perspective on the Third World State by Peter B Evans Regional Development Theory and the Subordination of Extractive Peripheries by Stephen G Bunker Broadening the Scope Gender and International Economic Development by M Patricia Fernndez Kelly Path Dependence and Privatization Strategies in East Central Europe by David Stark Urbanization Development and the Household by Bryan R Roberts

Challenging Neoliberalism in Latin America Eduardo Silva, 2009-08-31 At the turn of the twentieth century a concatenation of diverse social movements arose unexpectedly in Latin America culminating in massive anti free market demonstrations These events ushered in governments in Argentina Bolivia Ecuador and Venezuela that advocated socialization and planning challenging the consensus over neoliberal hegemony and the weakness of movements to oppose it Eduardo Silva offers the first comprehensive comparative account of these extraordinary events arguing that the shift was influenced by favorable political associational space a reformist orientation to demands economic crisis and mechanisms that facilitated horizontal linkages among a wide variety of social movement organizations His analysis applies Karl Polanyi's theory of the double movement of market society to these events predicting the dawning of an era more supportive of

government intervention in the economy and society Indigenous Cultures and Sustainable Development in Latin America Timothy MacNeill, 2020-04-24 This open access book outlines development theory and practice overtime as well as critically interrogates the cultural turn in development policy in Latin American indigenous communities specifically in Guatemala Honduras Ecuador and Bolivia It becomes apparent that culturally sustainable development is both a new and old idea which is simultaneously traditional and modern and that it is a necessary iteration in thinking on development This new strain of thought could inform not only the work of development practitioners graduate students and theorists working in the Global South but in the Global North as well **The State and the Private Sector in Latin America** M. Font, 2015-06-16 This book follows ten political economic histories since the 1970s showing how different forms of partnership have developed flourished or declined over the time The author s argument is supported by rich empirical material It places partnership schemes in a broader social context and provides a deep insight into the phenomenon Housing and Belonging in Latin America Christien Klaufus, Arij Ouweneel, 2015-05-01 The intricacies of living in contemporary Latin American cities include cases of both empowerment and restriction In Lima residents built their own homes and formed community organizations while in Rio de Janeiro inhabitants of the favelas needed to be pacified in anticipation of international sporting events Aspirations to get ahead in life abound in the region but so do multiple limitations to realizing the dream of upward mobility This volume captures the paradoxical histories and experiences of urban life in Latin America offering new empirical and theoretical insights to scholars Political Conflict and Development in East Asia and Latin America Richard Boyd, Galjart Benno, Tak-Wing Ngo, 2007-01-24 Long run processes of socio economic change generate prodigious problems of social conflict and social control and governments responsible for these processes must therefore manage the resultant conflict Consequently the success or failure of a government s management of such conflicts is a crucial factor in development outcomes This volume investigates the political struggle for development specifically in two vital regions East Asia and Latin America This analysis calls into question the dominant emphasis on institutional and cultural bases for stable growth A careful historical account of the two regions is presented which permits the rigorous testing of conventional wisdoms regarding development Of importance to a broad range of academics in the spheres of development studies politics political economy and sociology this book will also make an interesting read for those with a general interest in these areas

Frontiers of Development Economics Gerald M. Meier, Joseph E. Stiglitz, 2001 With contributions from 35 leading economists this forward looking book explores the future of development economics against the background of the past half century of development thought and practice Outstanding representatives of the past two generations of development economists assess development thinking at the turn of the century and look to the unsettled questions confronting the next generation The volume offers a thorough analysis of the broad range of issues involved in development economics and it is especially timely in its critique of what is needed in development theory and policy to reduce poverty An overriding issue is

whether in the future development economics is to be regarded simply as applied economics or whether the nature and scope of development economics will constitute a need for a special development theory to supplement general economic theory *Frontiers of Development Economics* is an ideal reference for all those working in the international development community

Latin American Economic Outlook 2019 Development in Transition OECD, Economic Commission for Latin America and the Caribbean, CAF Development Bank of Latin America, European Union, 2019-09-27 The Latin American Economic Outlook 2019 Development in Transition LEO 2019 presents a fresh analytical approach in the region It assesses four development traps relating to productivity social vulnerability institutions and the environment **The Globalization and Development**

Reader J. Timmons Roberts, Amy Bellone Hite, Nitsan Chorev, 2014-10-13 This revised and updated second edition of *The Globalization and Development Reader* builds on the considerable success of a first edition that has been used around the world It combines selected readings and editorial material to provide a coherent text with global coverage reflecting new theoretical and empirical developments Main text and core reference for students and professionals studying the processes of social change and development in third world countries Carefully excerpted materials facilitate the understanding of classic and contemporary writings Second edition includes 33 essential readings including 21 new selections New pieces cover the impact of the recession in the global North global inequality and uneven development gender international migration the role of cities agriculture and on the governance of pharmaceuticals and climate change politics Increased coverage of China and India help to provide genuinely global coverage and for a student readership the materials have been subject to a higher degree of editing in the new edition Includes a general introduction to the field and short insightful section introductions to each reading New readings include selections by Alexander Gershenkron Alice Amsden Amartya Sen Anne Marie Slaughter Cecile Jackson Dani Rodrik David Harvey Greta Krippner Kathryn Sikkink Leslie Sklair Margaret E Keck Michael Burawoy Nitsan Chorev Oscar Lewis Patrick Bond Peter Evans Philip McMichael Pranab Bardhan Ruth Pearson Sarah Babb Saskia Sassen and Steve Radelet The Essential Guide to Critical Development Studies Henry Veltmeyer, Paul Bowles, 2017-07-20 In recent years much mainstream development discourse has sought to co opt and neutralize key concepts relating to empowerment participation gender sustainability and inclusivity in order to serve a market driven neoliberal agenda Critical development studies now play a crucial role in combatting this by analyzing the systemic changes needed to transform the current world to one where economic and social justice and environmental integrity prevail The Essential Guide to Critical Development Studies takes as its starting point the multiple crises economic political social and environmental of the dominant current global capitalist system The chapters collectively document and analyze these crises and the need to find alternatives to the system s that generate them To do so analyses of class gender and empire are placed at the centre of discussion in contrast to markets liberalization and convergence which characterize mainstream development discourse Each contributor supplements their overview with a guide to the critical development studies

literature on the topic thereby providing scholars and students not only with a precis of the key issues but also a signpost to further readings This is an important resource for academics researchers policymakers and professionals in the areas of development studies political science sociology economics gender studies history anthropology agrarian studies international relations and international political economy Why Latin American Nations Fail Esteban Pérez Caldentey, Matías Vernengo, 2017-10-03 The question of development is a major topic in courses across the social sciences and history particularly those focused on Latin America Many scholars and instructors have tried to pinpoint explain and define the problem of underdevelopment in the region With new ideas have come new strategies that by and large have failed to explain or reduce income disparity and relieve poverty in the region Why Latin American Nations Fail brings together leading Latin Americanists from several disciplines to address the topic of how and why contemporary development strategies have failed to curb rampant poverty and underdevelopment throughout the region Given the dramatic political turns in contemporary Latin America this book offers a much needed explanation and analysis of the factors that are key to making sense of development today *Sustaining Civil Society* Philip Oxhorn, 2015-08-21 South America is not the poorest continent in the world but it may very well be the most unjust This statement by Ricardo Lagos then president of Chile at the Summit of the Americas in January 2004 captures nicely the dilemma that faces Latin American countries in the wake of the transition to democracy that swept across the continent in the last two decades of the twentieth century While political rights are now available to citizens at unprecedented levels social and economic rights lag far behind and the fledgling democracies struggle with long legacies of poverty inequality and corruption Key to understanding what is happening in Latin America today is the relationship between the state and civil society In this ambitious book Philip Oxhorn sets forth a theory of civil society adequate for explaining current developments in a way that such controversial neoconservative theories as Francis Fukuyama's liberal triumphalism or Samuel Huntington's clash of civilizations cannot Inspired by the rich political sociology of an earlier era and the classic work of T H Marshall on citizenship Oxhorn studies the process by which social groups are incorporated or not into national socioeconomic and political development through an approach that focuses on the social construction of citizenship
