Governments in
a Changing World

Rethinking Federalism

Edward Schneier

Rethinking Federalism:

Rethinking Federalism Karen Knop, Sylvia Ostry, Richard Simeon, Katherine Swinton, 2011-11-01 Federalism is at once a set of institutions the division of public authority between two or more constitutionally defined orders of government and a set of ideas which underpin such institutions As an idea federalism points us to issues such as shared and divided sovereignty multiple loyalties and identities and governance through multi level institutions Seen in this more complex way federalism is deeply relevant to a wide range of issues facing contemporary societies Global forces economic and social are forcing a rethinking of the role of the central state with power and authority diffusing both downwards to local and state institutions and upwards to supranational bodies Economic restructuring is altering relationships within countries as well as the relationships of countries with each other At a societal level the recent growth of ethnic and regional nationalisms most dramatically in Eastern Europe and the former Soviet Union but also in many other countries in western Europe and North America is forcing a rethinking of the relationship between state and nation and of the meaning and content of citizenship Rethinking Federalism explores the power and relevance of federalism in the contemporary world and provides a wide ranging assessment of its strengths weaknesses and potential in a variety of contexts Interdisciplinary in its approach it brings together leading scholars from law economics sociology and political science many of whom draw on their own extensive involvement in the public policy process Among the contributors each writing with the authority of experience are Tommaso Padoa Schioppa and Jacques Pelkmans on the European Union Paul Chartrand on Aboriginal rights Samuel Beer on North American federalism Alan Cairns on identity and Vsevolod Vasiliev on citizenship after the breakup of the Soviet Union The themes refracted through these different disciplines and political perspectives include nationalism minority protection representation and economic integration The message throughout this volume is that federalism is not enough rights protection and representation are also of fundamental importance in designing multi level governments **Rethinking**

Federalism Studies Carol S. Weissert, 2023-08-14 In this timely book Carol S Weissert proves that federalism is highly relevant to the modern world and worthy of deeper academic study Highlighting the dynamic nature of federalism this book focuses on linking scholarship to the policy and politics of federalism in the US and across the world Rethinking

Federalism ,1995 **Rethinking Federalism** Claude E. Barfield, Theories of Federalism D. Karmis, W.

Norman, 2016-04-30 This project pulls together classic and modern readings and essays that explore theories of federalism Spanning the Seventeenth through Twenty first centuries of European U S and Canadian thinkers this attempts to be a comprehensive reader for students in political theory The emphasis throughout is on the normative argument the advantages or disadvantages of federal and confederal arrangements compared to unitary states and on the relative merits of various proposals to improve particular federations or confederations These also draw on the full range of political science subfields from political sociology political economy and constitutional studies to comparative politics and international relations There

are also readings both contemporary and historical that attempt to clarify conceptual issues *Canada in the World* Richard Albert,David R. Cameron,2017-11-02 In this volume marking the Sesquicentennial of Confederation in Canada leading scholars and jurists discuss the evolution of the Canadian Constitution since the British North America Act 1867 the role of the Supreme Court in interpreting the Constitution as a living tree capable of application to new legal issues and the growing influence of both the Constitution with its entrenched Charter of Rights and Freedoms and the decisions of the Court on other constitutional courts dealing with a wide range of issues pertaining to human rights and democratic government The contributors assess how the Canadian Constitution accommodates the cultural diversity of the country s territories and peoples while ensuring the universal applicability of its provisions the role of the Court in interpreting and applying the Constitution and the growing global influence of the Constitution and decisions of the Court on legislatures and courts in other countries *Beyond Privatization* Lester M. Salamon,1989 IBSS: Political Science: 2002 Vol.51 Compiled by the British Library of Political and Economic Science,2004-03-01 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage the IBSS reviews scholarship published in over 30 languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French Place your standing order now for the 2002 volumes of the the IBSS Anthropology 2002 Vol 48 December 2002 234x156 0 415 32634 6 u195 00 Economics 2002 Vol 51 December 2002 234x156 0 415 32635 4 u195 0 0 Political Science 2002 Vol 51 December 2002 234x156 0 415 32636 2 u195 00 Sociology 2002 Vol 52 December 2002 234x156 0 415 32637 0 u195 00 *Market Process and Market Order* Rosolino A. Candela,Kristen R. Collins,Christopher J. Coyne,2024-04-08 This volume explores and engages with the key thinkers and ideas of the Austrian School of economics to better understand how individuals coordinate their separate interests in a peaceful and productive manner by unintentionally forming not only market prices but also rules customs cultural norms and other institutional arrangements that allow specialization and trade Together these dynamics generate a market order by ameliorating the potential for social conflict and in turn facilitate the conditions for social cooperation and specialization under the division of labor The diversity in topics and approaches will make the volume of interest to readers in a variety of fields including anthropology economics entrepreneurship history philosophy political science and public policy **Market Rules** Douglas Brown,2003 Federalism is about dividing and sharing government often in complex ways that involve some tasks being done

jointly Are federal systems capable of effective joint policy making Is this possible in the fast moving context of globalization In Market Rules Douglas Brown examines these questions through a comparative study of Australia and Canada looking at recent major reforms to the economic union in the two federations and comparing them with the evolving European Union EU Brown argues that internal barriers to trade and competition in these countries were significant obstacles to competition in the global economy and shows that the old market rules were rooted in longstanding political and regional compromises He describes the process of detailed and difficult intergovernmental collaboration required for the EU and now Canada and Australia to produce new market rules The resulting reforms created new regimes that provide deeper and broader national economic integration in Canada and Australia than in the EU The new rules entrench neo liberal values retaining some room for diversity and flexibility for equity goals Built on a careful analysis of the differences and similarities in political economy constitutional design federal culture and history of intergovernmental relations in Canada and Australia Market Rules provides fresh evidence that federal states can be strong and autonomous in the global society while underscoring the conditions for effective collaboration that make this sustainable Rich in detail broad in scope Market Rules makes a significant contribution to knowledge about federalism and economic policy making in the era of globalization **Why**

States Matter Gary F. Moncrief, Peverill Squire, 2020-02-17 When it comes to voting taxes environmental regulations social services education criminal justice political parties property rights gun control marriage and a whole host of other modern American issues the state in which a citizen resides makes a difference That idea that the political decisions made by those in state level offices are of tremendous importance to the lives of people whose states they govern is the fundamental concept explored in this book Gary F Moncrief and Peverill Squire introduce students to the very tangible and constantly evolving implications limitations and foundations of America s state political institutions and accessibly explain the ways that the political powers of the states manifest themselves in the cultures economies and lives of everyday Americans and always will

Constitutionalising Secession David Haljan, 2014-11-01 Constitutionalising Secession proceeds from the question What if anything does the law have to say about a secession crisis But rather than approaching secession through the optic of political or nationalist institutional accommodation this book focuses on the underpinnings to a constitutional order as a law making community underpinnings laid bare by secession pressures Relying on the corrosive effects of secession it explores the deep structure of a constitutional order and the motive forces creating and sustaining that order A core idea is that the normativity of law is best understood through a constitutional optic as an integrative associative force Constitutionalising Secession critically analyses conceptions of constitutional order implicit in the leading models of secession and takes as a leading case study the judicial and legislative response to secession in Canada The book therefore develops a concept of constitutionalism and law making associative constitutionalism to describe their deep structure as a continuing integrative process of association This model of a dynamic process of value formation can address both the association and the

disassociation of constitutional systems **Crafting Constitutional Democracies** Edward Schneier, 2006-05-12 By examining the institutions of government through the lens of constitution making *Crafting Constitutional Democracies* provides a broad and insightful introduction to comparative politics Drawn from a series of lectures given in Jakarta Indonesia on the drafting of the U S constitution the book illustrates the problems faced by generations of founders through numerous historic and contemporary examples Both Indonesia in 1999 and the United States in 1789 faced the same basic issue how to construct a central government for a large and diverse nation that allowed the majority of the people to govern themselves without intruding on the rights of minorities What kinds of institutions make for good government What factors need to be considered in designing a government Author Edward Schneier explores these questions through a rich variety of examples from both recent and historic transitions to democracy Drawing frequently upon the arguments of the American Federalist Papers and more contemporary theories of democratization *Crafting Constitutional Democracies* lucidly explores the key questions of how and why democracies succeed and fail A concluding chapter on constitutional change and decline raises provocative and important questions about the lessons that citizens of the world's older democracies might take from the struggles of the new **Multi-level Governance** Katherine A. Daniell, Adrian Kay, 2017-11-24 Important policy problems rarely fit neatly within existing territorial boundaries More difficult still individual governments or government departments rarely enjoy the power resources and governance structures required to respond effectively to policy challenges under their responsibility These dilemmas impose the requirement to work with others from the public private non governmental organisation NGO or community spheres and across a range of administrative levels and sectors But how This book investigates the challenges both conceptual and practical of multi level governance processes It draws on a range of cases from Australian public policy with comparisons to multi level governance systems abroad to understand factors behind the effective coordination and management of multi level governance processes in different policy areas over the short and longer term Issues such as accountability politics and cultures of governance are investigated through policy areas including social environmental and spatial planning policy The authors of the volume are a range of academics and past public servants from different jurisdictions which allows previously hidden stories and processes of multi level governance in Australia across different periods of government to be revealed and analysed for the first time **Reconceptualising European Equality Law** Johanna Croon-Gestefeld, 2017-02-23 This important new book seeks to widen the understanding of the principle of equality within European law Firstly it deconstructs the European Court of Justice's adjudication of cases in the field It then explores how the Member States courts decide on the question of equality This detailed rigorous research allows the author to argue for a reconceptualised equality doctrine Such an adaptation the author argues will provide judges practitioners and academics with the tools to balance institutional considerations against substantive interpretation Theoretically ambitious while grounded in practical application this is a significant restatement of one of the key principles of European law the

equality doctrine The Metropolitan Revolution Bruce Katz, Jennifer Bradley, 2013-06-19 Across the US cities and metropolitan areas are facing huge economic and competitive challenges that Washington won't or can't solve The good news is that networks of metropolitan leaders mayors business and labor leaders educators and philanthropists are stepping up and powering the nation forward These state and local leaders are doing the hard work to grow more jobs and make their communities more prosperous and they're investing in infrastructure making manufacturing a priority and equipping workers with the skills they need In The Metropolitan Revolution Bruce Katz and Jennifer Bradley highlight success stories and the people behind them New York City Efforts are under way to diversify the city's vast economy Portland Is selling the sustainability solutions it has perfected to other cities around the world Northeast Ohio Groups are using industrial age skills to invent new twenty first century materials tools and processes Houston Modern settlement house helps immigrants climb the employment ladder Miami Innovators are forging strong ties with Brazil and other nations Denver and Los Angeles Leaders are breaking political barriers and building world class metropolises Boston and Detroit Innovation districts are hatching ideas to power these economies for the next century The lessons in this book can help other cities meet their challenges Change is happening and every community in the country can benefit Change happens where we live and if leaders won't do it citizens should demand it The Metropolitan Revolution was the 2013 Foreword Reviews Bronze winner for Political Science **Public Debt and the Common Good** James Odom, 2018-07-18 The American national debt stands at 20 49 trillion as of January 2018 or roughly 63 000 for every person in the United States The national debt has grown six fold in the past 25 years and borrowing only has accelerated in recent administrations What are the factors driving such unrestrained borrowing Is American fiscal policy different now than in an earlier era Is there a moral dimension to public debt and if so how can that dimension be measured Public Debt and the Common Good addresses these and other questions by looking to the fiscal policy of the American states Drawing on classical themes and the longest quantitative review of state debt in the literature James Odom expertly integrates institutional analysis with dimensions of culture to define the parameters of political freedom in a theoretically coherent way In doing so Odom argues that centralization and injustice or the incapacity for the common good can help explain state indebtedness Contributing to ongoing scholarly debates on public debt theory this book will be of interest to students scholars and practitioners who work at the intersection of political philosophy and economics as well as those who specialize in state public policy state politics and federalism more generally Assessment and Measurement of Regional Integration Philippe De Lombaerde, 2006-09-27 The book fills a niche in the market for books on regional integration where most of the publications deal with theory or the analysis of specific cases almost no books can be found dealing with analytical methodology The book includes a combination of well known and expert scholars and up and coming young academics The book will appeal strongly to both economists and politics and while the authors present an interdisciplinary approach the economists and political scientists approaches are kept separate **The**

Robust Federation Jenna Bednar, 2008-12-01 The Robust Federation offers a comprehensive approach to the study of federalism Jenna Bednar demonstrates how complementary institutions maintain and adjust the distribution of authority between national and state governments These authority boundaries matter for defense economic growth and adequate political representation and must be defended from opportunistic transgression From Montesquieu to Madison the legacy of early institutional analysis focuses attention on the value of competition between institutions such as the policy moderation produced through separated powers Bednar offers a reciprocal theory in an effective constitutional system institutions complement one another each makes the others more powerful Diverse but complementary safeguards including the courts political parties and the people cover different transgressions punish to different extents and fail under different circumstances The analysis moves beyond equilibrium conceptions and explains how the rules that allocate authority are not fixed but shift gradually Bednar's rich theoretical characterization of complementary institutions provides the first holistic account of federal robustness

The American Political Process Alan Grant, 2019-07-23 First published in 1997 this edition of *The American Political Process* examines both the formal and informal institutions of government and analyses how these bodies interact in the making of public policy in the United States in order to provide an understanding of contemporary American politics This Sixth Edition has been thoroughly updated extended and substantially revised to take account of important events such as the Republicans winning control of Congress in 1994 and the 1996 Presidential and Congressional elections It looks at the political developments of the 1990s against the background of a long established constitutional structure and a distinctively American political culture Each chapter includes a variety of useful tables and diagrams as well as suggestions for further reading and there is an extensive glossary of terms in American politics which provides an easily accessible reference for the reader

Rethinking Federalism Introduction

In the digital age, access to information has become easier than ever before. The ability to download Rethinking Federalism has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Rethinking Federalism has opened up a world of possibilities. Downloading Rethinking Federalism provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Rethinking Federalism has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Rethinking Federalism. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Rethinking Federalism. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Rethinking Federalism, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Rethinking Federalism has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Rethinking Federalism Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks.
