**Rethinking Quaker Principles** Rufus Matthew Jones, 1940-01-01 *Pendle Hill Pamphlets: Rethinking Quaker principles* , Contemplation and Freedom Benedict R. Shoup, Mary Frohlich, 2025-04-22 How does prayer shape action How does sustained engagement in deep prayer shape our very freedom to act This volume explores the relationship between Christian contemplative prayer and the exercise of freedom Over the past half century the desire for a better integration of spirituality and theology has emerged as a significant theme in theological writing While the question of freedom has not been absent from this discourse this volume highlights it by bringing it to the very center of the conversation Eleven theologians explore the dialectical relationship between contemplation and freedom by engaging with a wide array of sources ranging from Maximus the Confessor to Edith Stein from Howard Thurman to Bernard Lonergan from the Tiberian martyrs to M Shawn Copeland This symphony of voices unveils the methodological fruitfulness of placing contemplative prayer at the center of life theory and practice The Silent God and the Silenced Min-Ah Cho, 2025-02-01 A groundbreaking exploration of the transformative power of silence The Silent God and the Silenced Mysticism and Contemplation amid Suffering explores the theological and spiritual dimensions of silence challenging traditional speech silence dichotomies Cho investigates the silenced voices of the vulnerable interweaving Christian mysticism literature and art to reveal silence's subversive potential in unlearning dominant narratives The book advocates a theological approach that seriously considers silence and prioritizes attentive listening to promote genuine accountability By engaging with figures such as Evagrius Ponticus Hadewijch of Antwerp Michel de Certeau and Simone Weil alongside contemporary voices like Theresa Hak Kyung Cha and Arundhati Roy the book offers fresh perspectives on the transformative power of silence in today's turbulent world This interdisciplinary exploration will intrigue scholars and enthusiasts of theology literature and art Readers will discover how silence can serve as a counterpoint to the noise and violence of modern life providing avenues for resisting injustice and fostering contemplative transformative pathways to spiritual and intellectual growth Year with American Saints , Here in a single volume G Scott Cady and Christopher L Webber have profiled a broad and inclusive cross section of American pilgrims of the faith some very famous others less well known men and women from all periods of America's history and all major Christian faith traditions From the pre revolutionary era to the twentieth century their accomplishments and spiritual journeys are examples of perseverance courage and holiness From Robert Hunt first chaplain of the Jamestown colony in Virginia who gave pastoral care and support to settlers who were far from home and struggling with disease and hardship to Rosa Parks whose quiet dignified resistance to segregation signaled a dramatic change in the Civil Rights movement A Year with American Saints encompasses the joy and drama of the Christian story in America While entries have been arranged to provide historical and chronological variety a handy calendar guide allows the reader to remember individuals on their birthdays or death dates With one profile and related writing or saying for every day of the year A Year with American Saints

A Standard of Living Mildred Binns Young,1941      *Quakeriana Notes* ,1933      *Reconsidering Trenton* Steven M. Richman,2014-01-10 Trenton like the state of New Jersey is often maligned these days but there was a time when Trenton was the fiftieth largest city in the United States and boasted worldwide leaders in the iron and steel rubber and pottery industries Like many cities of its comparative size and prowess that came of age in the Industrial Revolution Trenton diminished in the aftermath of World War II and has become for many one of the lost cities a place of lessened population abandoned houses and shuttered factories Featuring a series of meditative explorations on the essence of the American post industrial city through the prism of Trenton this book explores the city s history architecture parks factories and neighborhoods through text and image highlighting the importance of such post industrial cities      **James Nayler and the Quest for Historic Quaker Identity** Euan David McArthur,2024-01-15 Scholars continue to dispute the foundations of Quakerism James Nayler his prophetic Bristol sign of 1656 and George Fox s relation to him have been of especial interest in defining the movement s identity Conventionally historians and theologians have taken either a traditional approach which assesses Nayler by the standards of orthodoxy or a revisionist one which absolves him by the standards of early Quaker relativism and Christology This study by Euan David McArthur mediates between these positions finding that Nayler and Fox developed an ambiguous theology but adopted a consistent approach to Quaker performances The latter dissuaded against performances such as Nayler s sign Nayler is argued instead to have diverged from other Quaker leaders following disputations between 1655 and 1656 The lessons his person and actions hold for us are concluded to be complex but worthy of study for a wide range of historians and thinkers      **Pamphlets on Pacifism** ,1929      *Church and Estate* Thomas F. Rzeznik,2013-06-20 In *Church and Estate* Thomas Rzeznik examines the lives and religious commitments of the Philadelphia elite during the period of industrial prosperity that extended from the late nineteenth century through the 1920s The book

demonstrates how their religious beliefs informed their actions and shaped their class identity while simultaneously revealing the ways in which financial influences shaped the character of American religious life In tracing those connections it shows how religion and wealth shared a fruitful yet ultimately tenuous relationship      **Research in Phenomenology** John Sallis,1973      Pendle Hill Essays Robert Barclay,Eleanore Price Mather,1942      **Rethinking Uncle Tom** William Barclay Allen,2009-01-01 Rethinking Uncle Tom thoroughly explains Uncle Tom s Cabin as an articulation of the conditions of democratic life and the nature of modern humanism The most mature elements of Stowe s political thought emerge from a close reading of Sunny Memories and of Oldtown Folks This book develops familiarity with the moral discourse of abolition and nineteenth century reformism and it offers a glimpse of an America envisioned as producing a nobility of soul represented in the human model of surpassing excellence      **A Religious Solution to the Social Problem** Howard Haines Brinton,1945      Values, Relationships and Engagement in Quaker Education Nigel Newton,2024-06-05 This book provides a unique critical perspective on the importance of values to school culture Drawing on research in Quaker schools in England and the perspectives of students it challenges the idea that school evaluation should be primarily based on measurable outcomes and argues that values matter more to learning than is often acknowledged Furthermore the book provides important insights on how to research schools that claim to hold similar values from multi academy chains to other so called faith schools Throughout the text the author underscores the importance of values to students dispositions in order to engage with the learning opportunities their schools provide He argues for seeing schools as places where equality inclusiveness and mutual respect should be central not only to help students understand our fragile multicultural democracy but also because these values open up the possibility of learners increased engagement with curriculum knowledge      Rethink Ric Merrifield,2009-03-06 It s a totally human condition a trap that ensnares virtually everyone Just as when we tie a route to a destination so much so that when someone else takes a different route why are we going this way it usually doesn t matter how you get there This how trap also takes place at work people intertwine how they do their job with the outcome of what they are doing that sometimes obvious decisions are masked and missed We know how to focus on process the how of business That s why this book shows that we re leaving so much value on the table and that s what this book exposes with vivid examples while at the same time offering guidance on ways you can take advantage of this new business lens Business architect Ric Merrifield shows how to rise above the clutter of your hows to expose what does and doesn t need attention You ll learn to identify the activities most critical to success and those that that are borderline redundant or even counterproductive Along the way Merrifield presents powerful case studies from companies as diverse as ING DIRECT and Eclipse Amazon com and Procter Gamble firms that have learned how to cut costs strengthen innovation and profit from change all at the same time      The Inward Journey of Isaac Penington Isaac Penington,1943
