Frager, Carmela K. Patrias, 2006-12-15 The years between 1870 and 1939 were a crucial period in the growth of industrial capitalism in Canada as well as a time when many women joined the paid workforce Yet despite the increase in employment women faced a difficult struggle in gaining fair remuneration for their work and in gaining access to better jobs *Discounted Labour* analyses the historical roots of women s persistent inequality in the paid labour force Ruth A Frager and Carmela K Patrias analyse how and why women became confined to low wage jobs why their work was deemed less valuable than men s

work why many women lacked training job experience and union membership and under what circumstances women resisted their subordination Distinctive earning discrepancies and employment patterns have always characterized women's place in the workforce whether they have been in low status unskilled jobs or in higher positions For this reason Frager and Patrias focus not only on women wage earners but on women as salaried workers as well They also analyze the divisions among women examining how class and ethnic or racial differences have intersected with those of gender Discounted Labour is an essential new work for anyone interested in the historical struggle for gender equality in Canada Changing Women, Changing History Diana Lynn Pedersen, 1996 Changing Women Changing History is a bibliographic guide to the scholarship both English and French on Canadian's women's history Organized under broad subject headings and accompanied by author and subject indices it is accessible and comprehensive Canadian Methodist Women, 1766-1925 Marilyn Färdig Whiteley, 2006-01-01 Canadian Methodist women like women of all religious traditions have expressed their faith in accordance with their denominational heritage Canadian Methodist Women 1766 1925 Marys Marthas Mothers in Israel analyzes the spiritual life and the varied activities of women whose faith helped shape the life of the Methodist Church and of Canadian society from the latter half of the eighteenth century until church union in 1925 Based on extensive readings of periodicals biographies autobiographies and the records of many women's groups across Canada as well as early histories of Methodism Marilyn Färdig Whiteley tells the story of ordinary women who provided hospitality for itinerant preachers taught Sunday school played the melodeon selected and supported women missionaries and taught sewing to immigrant girls thus expressing their faith according to their opportunities In performing these tasks they sometimes expanded women's roles well beyond their initial boundaries Focusing on religious practices Canadian Methodist Women 1766 1925 provides a broad perspective on the Methodist movement that helped shape nineteenth and early twentieth century Canadian society The use and interpretation of many new or little used sources will interest those wishing to learn more about the history of women in religion and in Canadian society *The Oxford Encyclopedia of Women in World History* Bonnie G. Smith, 2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia

contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

Making a Modern U.S. West Sarah Deutsch,2022 To many Americans in the nineteenth and twentieth centuries the West was simultaneously the greatest symbol of American opportunity the greatest story of its history and the imagined blank slate on which the country s future would be written From the Spanish American War in 1898 to the Great Depression s end from the Mississippi to the Pacific policymakers at various levels and large scale corporate investors along with those living in the West and its borderlands struggled over who would define modernity who would participate in the modern American West and who would be excluded In *Making a Modern U S West* Sarah Deutsch surveys the history of the U S West from 1898 to 1940 Centering what is often relegated to the margins in histories of the region the flows of people capital and ideas across borders Deutsch attends to the region s role in constructing U S racial formations and argues that the West as a region was as important as the South in constructing the United States as a white man s country While this racial formation was linked to claims of modernity and progress by powerful players Deutsch shows that visions of what constituted modernity were deeply contested by others This expansive volume presents the most thorough examination to date of the American West from the late 1890s to the eve of World War II

Angels of the Workplace Mercedes Steedman, 1997-12-15 In this renowned 1997 study of the clothing industry in Canada Mercedes Steedman examines how the intricate weaving together of the meanings of class gender ethnicity family and the workplace created a job ghetto for women Although women comprised a significant majority of garment workers their roles were limited both in the workplace and in the trade union bureaucracy Detailing the disparities between men and women in terms of wages and representation *Angels of the Workplace* is the definitive history of discrimination against women in Canada's clothing industry Steedman shows the crucial role that women played at the front of the picket lines during labour strikes and reveals how they gained sympathy and favourable media coverage for the workers cause Tracing both the new hopes for more equitable work brought about by left wing unionism and the disappointments caused by the cooperation of labour and management in the new unionism of the 1930s *Angels of the Workplace* reveals how formalized workplace gender discrimination was formalized for the rest of the century

A Silent Revolution? Peter A. Baskerville, 2008 *A Silent Revolution* explores how urban women managed wealth at a time when they were thought to have little independence including economic and shows that women were in fact important players in the world of capital Peter Baskerville situates women in their immediate gendered and familial environments as well as within broader legal financial spatial temporal and historiographical contexts He analyses women's probates wills land ownership holdings of real and chattel mortgages investment in stocks and bonds and self employment revealing that women controlled wealth to an extent similar to that of most men and invested and managed wealth in increasingly similar and in some cases more aggressive ways Traditional historiography has highlighted women's fight to acquire cultural and political rights during this period but it is less well known that women acquired and exercised many economic rights as well In doing so they put pressure on men to reconceptualize the notion of middle class and women's proper place
