People's Car Sarasij Majumder, 2018-11-20 India is witnessing a unique moment in populism with sentiments divided between economic reforms that promise fast industrialization and protests that thwart such industrialization This book offers an ethnographic study of divergent local responses to the proposed construction of a Tata Motors factory in eastern India that would have produced the Nano the so called people's car Initial excitement was followed by long protests among the villagers whose agricultural land was being acquired for the project After these protests secured the relocation of the factory further demonstrations followed sometimes involving the same participants seeking to bring the factory back People's Car explores this ambivalence concerning industrialization asking why long drawn resistances against corporate industrialization coexist with political rhetoric and slogans promoting fast paced industrialization Majumder argues that such contradictory rhetoric and promises target divided sentiments in rural India where land is incommensurable with money and a site specially marked by desire for middle caste small landowners aspiring to futures beyond agriculture Previous studies of industrialization have generally

focused on either demands for development or populist critiques Moving beyond romantic clichés about urban rural divisions
People's Car offers a single analytical and ethnographic framework demonstrating how pro and anti industrialization forces
feed off each other
