**Rethinking European Union Foreign Policy** Ben Tonra, Thomas Christiansen, 2004 This text reviews a variety of approaches to the study of the European Union's foreign policy Much analysis of EU foreign policy contains implicit theoretical assumptions about the nature of the EU and its member states their inter relationships the international system in which they operate and the nature and direction of European integration In many instances such assumptions given that they are not discussed openly curtail rather than facilitate debate The purpose of this book is to open up this field of enquiry so that students observers and analysts of EU foreign policy can review a broad range of tools and theoretical templates from which the development and the trajectory of the EU's foreign policy can be studied

**Issues in EU and US Foreign Policy** Münevver Cebeci, 2011-01-06 Issues in E U and U S Foreign Policy edited by M nevver Cebeci aims at analyzing the perceptions interests and policies of the EU and the US on various international issues It portrays their convergences and divergences and reflects on their interplay The book has a geographical focus rather than a thematic one however some themes such as weapons of mass destruction dual use technology transfer energy security and democratization are unavoidable within their respective geographical contexts For example the authors inquire into the case of Iran with a special focus on nuclear proliferation they investigate Russia with a significant emphasis on energy security Iraq is examined with a discussion on the withdrawal of occupation troops and finally the authors address the case of China with a debate on dual use technology transfer Issues in European Union and U S Foreign Policy is composed of two parts The first involves an inventive theoretical framework for understanding EU and US foreign policy The analysis extends beyond traditional approaches that seek to explain US and EU foreign policy through various dichotomies such as soft power versus hard power without overlooking the significance of such dichotomies This section further discusses how European and American scholars approach transatlantic relations in different ways The second section covers an intensive comparative analysis of EU and US foreign policy on specific issue areas Some chapters also deal with the impact of their policy divergences and convergences on transatlantic

relations and NATO Nevertheless the book aims to go beyond the parochial debates of burden sharing or division of labor in transatlantic relations It focuses on and actually proposes a broader framework of cooperation and coordination for the EU and the US *The European Union in the Asia-Pacific* Weiying Song,Jianwei Wang,2019-02-20 Since the mid 1990s the European Union has defined the Asia Pacific as one of its key strategic targets on its ambitious road towards a global power Over the past decades big changes have taken place on both sides and the wider world It s high time to evaluate the EU s performance in its Asian policy In fact the EU is at crossroads with its Asia Pacific policy On several aspects the EU is compelled to redefine its interests and roles and rethink its strategies and policies towards the dynamic and ever important Asia Pacific region This volume addresses this theme by elaborating the general context major issues and countries in the EU s Asia Pacific policy It covers issue areas of traditional security economy and trade public diplomacy and human security and focuses on the EU s relations with China Japan the ASEAN countries and Australasia **The European Union's Foreign**

*The European Union's Influence in Central Asia* Olga Alinda Spaiser, 2018-03-12 Unknown yet highly strategic Central Asia attracts the interest of major global powers due to its vast energy resources and crucial geographic position Russia China and the European Union view this region as an indispensable springboard to enhance their political and economic influence on the Eurasian landmass Thus facing strong competition and working on low budget the EU is attempting to establish itself as a relevant and influential actor in an environment in which its leadership role is far from certain Unlike in other post communist regions the EU is not able to rely on the attractiveness of its political models and risks being marginalized by

other global powers The crucial question then is How does the EU exert influence in such a challenging geopolitical context Which strategies does the EU apply to be an actor who counts Through an analysis of the EU s discourse instruments and the reception of its policies in Central Asia this study argues that the EU consciously takes the position of a second tier actor who acts as a consultant and projects a picture of itself as an honest broker with no geopolitical agenda The EU s influence is confined to niche domains in the security sphere that are nevertheless important for the regional security The EU is not a great power in the region nor is it willing to become one It does however have comparative advantages in being perceived as inoffensive and for occupying areas that are neglected by the other actors such as governance and water security

EU Foreign and Interior Policies Stephen Stetter, 2007-01-24 This book offers an innovative theoretical and empirical analysis of integration in EU foreign and interior policies across the three pillars from the Maastricht Treaty to the Treaty of Nice The establishment of the three pillar structure with the Maastricht Treaty has been one of the key transformations of European governance This divided EU policies into three main areas European Community Common Foreign and Security Policy CFSP and Justice and Home Affairs JHA and for the first time the two sovereignty related areas of foreign and interior policies became part of the formal governance structure of the EU This is the first volume to present a comparative perspective on how integration in both areas across the three pillars has contributed to the construction of a distinct sovereignty dimension of the EU Drawing from sociological institutionalism and on the basis of the two case studies of EU Middle East and migration policies it offers a comprehensive empirical analysis of cross pillar policy making dynamics in foreign and interior policies in the EU EU Foreign and Interior Policies will appeal to scholars and researchers interested in international relations European Union politics and Middle East studies

**European Security in a Global Context** Thierry Tardy, 2010-06-09 This new edited volume examines contemporary European security from three different standpoints It explores security dynamics first within Europe second the interaction patterns between Europe and other parts of the world the United States Africa the Middle East China and India and finally the external perceptions of European security The first part of the book analyses the European security landscape The roles of EU NATO and the OSCE are given particular attention as is the impact of their evolution or enlargement on the European security architecture and European security dynamics In this context Russia s repositioning as a major power appears as a shaping factor of contemporary European geopolitics The second part presents European security from an external perspective and considers interactions between Europe and other states or regions Security trends and actors in Europe are examined from an American Chinese and Indian perspective while Europe Africa and Europe Middle East relations are also addressed This book will be of great interest to students of European Security European politics and IR in general

The European External Action Service and National Foreign Ministries Rosa Balfour, Caterina Carta, Kristi Raik, 2016-02-11 Based on extensive empirical work by a cross European group of researchers this book assesses the impact of the creation of the European External Action Service EEAS

on the national foreign policy making processes and institutions of the EU member states As such the contributions cover both the involvement of the national diplomatic and foreign policy actors in shaping the outlook of the EEAS and its mission as well as the changes or not it has produced for those actors of the member states The analysis draws in theoretical frameworks from Europeanization and socialization but also from intergovernmental frameworks of policy making within the European Union An introduction by the editors outlines the issues and trends examined in the book and establishes the theoretical and methodological framework Split into 2 sections Part I EEAS and national diplomacies as part of global and European structures has contributions by Richard Whitman Rosa Balfour Christian Lequesne Caterina Carta and Simon Duke Part II National diplomacies shaping and being shaped by the EEAS is covered by Daniel Fiott Fabien Terpan Cornelius Adebahr Andrea Frontini Ignacio Molina and Alicia Sorroza Laura C Ferreira Pereira Alena Vysotskaya G Vieira and Louise van Schaik Grzegorz Gromadzki Mark Rhinard Jakob Lewander and Sara Norrevik Sabina Kajnc Lange Ruby Gropas and George Tzogopoulos Vit Bene and Kristi Raik This book is much needed especially in an era when the EU is trying to pull its weight in the international sphere e g Syria Iran the Arab Spring Chinese relations and emerging powers but also at a time when the EU is trying to recalibrate its institutional structure in light of the current financial predicaments and questions on the democratic legitimacy of the European project     Human Rights and Democracy in EU Foreign Policy Rosa

Balfour, 2013-06-17 This book investigates the disparity between rhetoric and performance in the European Union response to abuses of human rights and transgression of democracy With the Arab spring putting the spotlight on the EU's self portrait as committed to promoting global human rights and democracy this book examines the paradoxes of its international posture and the inconsistencies and double standards of its policies With an informative and empirical approach examining EU relations since the end of the Cold War this book seeks to uncover the reasons behind the Union's actions and understand the foreign policy dilemmas and processes that guide its action Including detailed analysis of Ukraine and Egypt and the EU response to momentous changes for neighbouring nations the author draws upon thoroughly researched investigation into twenty years of EU foreign policy to create a framework using both EU Studies and International Relations Providing a deeper analysis than other dominant explanations this book presents new theories on the reasons behind the mismatch between words and deeds An invaluable and timely volume *Human Rights and Democracy in EU Foreign Policy* will be of interest to students and scholars of EU politics International Relations and human rights policy     *Europe in the World*

Luiza Bialasiewicz, 2016-04-22 This edited volume provides an innovative contribution to the debate on contemporary European geopolitics by tracing some of the new political geographies and geographical imaginations emergent within and made possible by the EU's actions in the international arena Drawing on case studies that range from the Arctic to East Africa the nine empirical chapters provide a critical geopolitical reading of the ways in which particular places countries and regions are brought into the EU's orbit and the ways in which they are made to work for EU rope The analyses look at how

the spaces of EU ropean power and actorness are narrated and created but also at how EU rope s discursive and material strategies of incorporation are differently appropriated by local and regional elites from the southern shores of the Mediterranean to Eastern Europe and the Balkans The question of EU border management is a particularly important concern of several contributions highlighting some of the ways in which the Union s border work is actively re making the European space
