Rethinking Evil Contemporary Perspectives:

Rethinking Evil, 2001 This innovative volume will be welcomed by moral and political philosophers social scientists and anyone who reflects seriously on the twentieth century's heavy burden of war genocide ethnic cleansing and other evidence of people's desire to harm one another *Rethinking Evil* María Pía Lara, 2001-11-30 This text examines evil in the context of a post metaphysical world a world that no longer believes in a God The question of how and why God permits evil events to occur is replaced by the question of how and why humans perform evil acts *Horrorism* Adriana Cavarero, 2009 Words like terrorism and war are no longer capable of encompassing the scope of contemporary violence With this book Cavarero effectively renders such terms obsolete She introduces a new word horrorism to capture the experience of violence *The Emerald International Handbook of Feminist Perspectives on Women's Acts of Violence* Stacy Banwell, Lynsey Black, Dawn K. Cecil, Yanyi K. Djamba, Sitawa R. Kimuna, Emma Milne, Lizzie Seal, Eric Y. Tenkorang, 2023-08-02 Grounded in feminist scholarship this book upends normative accounts of femme fatale violence to focus beyond the misogyny and the sensationalism and unearth the motivation behind women's roles in homicide terrorism combat and even nationalist movements **The Lyre of Orpheus** Christopher Partridge, 2014 The study of religion and popular culture is an increasingly significant area of scholarly inquiry Surprisingly however Christopher Partridge's *The Lyre of Orpheus* is the first general introduction to the subject of religion and popular music His aim in this book is to introduce a range of theoretical and methodological perspectives to be used in the study of religion and popular music and popular music subcultures He addresses a range of issues from postcolonialism to postmodernism from sex to drugs from violence to the demonic and from misogyny to misanthropy Part One provides a general overview of the history of popular music scholarship and the key approaches that have been taken Part Two looks at approaches from the perspectives of theology and religious studies examining key themes relating to particular genres and subcultures Part Three narrows the focus and examines key artists and bands mentioned in Part Two including Elvis Bob Dylan Madonna and Björk Written to be accessible to the undergraduate *The Lyre of Orpheus* will also appeal to general readers interested in the role of religion in our culture

Camus, Philosophe Matthew Sharpe, 2015-08-25 *Camus Philosophe To Return to our Beginnings* is the first book on Camus to read Camus in light of and critical dialogue with subsequent French and European philosophy It argues that while not an academic philosopher Albert Camus was a philosophe in more profound senses looking back to classical precedents and the engaged French *lumières* of the 18th century Aiming his essays and literary writings at the wider reading public Camus' criticism of the forms of political theology enshrined in fascist and Stalinist regimes singles him out markedly from more recent theological and messianic turns in French thought His defense of classical thought turning around the notions of natural beauty a limit and measure makes him a singularly relevant figure given today's continuing debates about climate change as well as the way forward for the post Marxian Left *The Dark Side of Modernity* Jeffrey C. Alexander, 2013-04-25

In this book one of the world's leading social theorists presents a critical alarmed but also nuanced understanding of the post traditional world we inhabit today Jeffrey Alexander writes about modernity as historical time and social condition but also as ideology and utopia The idea of modernity embodies the Enlightenment's noble hopes for progress and rationality but its reality brings great suffering and exposes the destructive impulses that continue to motivate humankind Alexander examines how twentieth century theorists struggled to comprehend the Janus faced character of modernity which looks backward and forward at the same time Weber linked the triumph of worldly asceticism to liberating autonomy but also ruthless domination describing flights from rationalization as systemic and dangerous Simmel pointed to the otherness haunting modernity even as he normalized the stranger Eisenstadt celebrated Axial Age transcendence but acknowledged its increasing capacity for barbarity Parsons heralded American community but ignored modernity's fragmentations Rather than seeking to resolve modernity's contradictions Alexander argues that social theory should accept its Janus faced character It is a dangerous delusion to think that modernity can eliminate evil Civil inclusion and anti civil exclusion are intertwined Alexander enumerates dangerous frictions endemic to modernity but he also suggests new lines of social amelioration and emotional repair

The Force of the Example Alessandro Ferrara, 2008-06-12 During the twentieth century the view that assertions and norms are valid insofar as they respond to principles independent

of all local and temporal contexts came under attack from two perspectives the partiality of translation and the intersubjective constitution of the self understood as responsive to recognition Defenses of universalism have by and large taken the form of a thinning out of substantive universalism into various forms of proceduralism Alessandro Ferrara instead launches an entirely different strategy for transcending the particularity of context without contradicting our pluralistic intuitions a strategy centered on the exemplary universalism of judgment Whereas exemplarity has long been thought to belong to the domain of aesthetics this book explores the other uses to which it can be put in our philosophical predicament especially in the field of politics After defining exemplarity and describing how something unique can possess universal significance Ferrara addresses the force exerted by exemplarity the nature of the judgment that discloses exemplarity and the way in which the force of the example can bridge the difference between various contexts Drawing not only on Kant's Critique of the Power of Judgment but also on the work of Hannah Arendt John Rawls Ronald Dworkin and Jürgen Habermas Ferrara outlines a view of exemplary validity that is applicable to today's central philosophical issues including public reason human rights radical evil sovereignty republicanism and liberalism and religion in the public sphere *Candide* Voltaire, 2009-08-14 The philosophical problem of evil that a supposedly good God could allow terrible human suffering troubled the minds of eighteenth century thinkers as it troubles us today Voltaire's classic novel *Candide* relates the misadventures of a young optimist who leaves his sheltered childhood to find his way in a cruel and irrational world Fast paced and full of dark humor the novel mocks the suggestion that all is well and challenges us to create a better world This Broadview Edition follows the text of a 1759 English translation that was released concurrently with Voltaire's first French edition *Candide* is supplemented by Voltaire's most important poetic and humanistic writings on God and evil the Poem upon the Destruction of Lisbon and We Must Take Sides The editor's introduction situates the novel in its philosophical and intellectual setting the appendices include other writings by Voltaire as well as related writings by Bayle Leibniz Pope Rousseau and others that place the work in its poetic philosophical and humanistic contexts Thomas Aquinas on Moral Wrongdoing Colleen McCluskey, 2017 A comprehensive examination of the moral psychology of wrongdoing from a major historical figure Thomas Aquinas **Essays on Diverse Topics** Kalman Dubov, 2021-12-23 This revised and updated volume includes twenty two essays on timely topics The volume begins with topics on Judaism and Jewish Ideology the book reviews the multiplicity of languages Jewish people used throughout their history At last count these number 55 an amazing way to create a localized language for daily interaction rather than use Hebrew the sacred language reserved for prayer and study The brief review of Lurianic Kabbalah follows together with a discussion of human suffering The mystery of Ashkenazic Jewry follows offering a serious question to this dilemma What follows is an exposition on the Jewish law of *mosur* the informer and the many issues affecting sexual predation in ultra Orthodox Judaism both in the United States and Australia as in Israel The Cairo Genizah reviews how two Scottish sisters brought the Book of Ecclesiasticus to Cambridge and the vast treasure of

Cairo brought to Cambridge and other universities to examine this ancient repository The issue of Apostate Rabbis follows discussing several rabbis who converted to Christianity I then discuss the Radhanites the mysterious group of super merchants who traveled from France to China and back for about 500 years centuries before Marco Polo I then discuss Chabad Messianism a topic of interest as Chabad expands its message across the globe Several topics follow Medieval Blood Libel the mystery of Jews in Sri Lanka today a minimal number but in earlier centuries numbering several thousand I then discuss several topics on the human condition essays designed to reflect on Man's ethical dilemma of life in the post World War Two era I then discuss the two original ideas regarding religion One of these is attributed to the Patriarch Abraham whose reflection on Deity and how to relate to spirituality predominates in the three great Western religions The other original thought is found in Hinduism reflecting an entirely different way to relate to Deity Because Hinduism is a Far Eastern phenomenon not readily accessible in the West I've included an overview of Hinduism so that the Western and Jewish views can be appreciated A new topic reflect on the Atrocity Soul and its counterpart reflecting of the Son of Darkness and the Son of Light each bringing messages one of despair and darkness and the other of hope and redemption While these persons may be religious it is not a primary matter to the Son of Light but their message of hope predominates I conclude the book with a discussion on Calculating Zero an advancement only made twice in human history in the New World by the Maya and by the ancient Mesopotamians Each of the essays and reviews reflects my understanding of these and other diverse topics Each essay provides grist for discussion and reflection

Kant's Anatomy of Evil Sharon Anderson-Gold, Pablo Muchnik, 2010 Leading scholars of Kant examine and elucidate his views on evil and how they can be extended to contemporary questions

The Politics of Imagination Chiara Bottici, Benoît Challand, 2011-06-06 Bringing together scholars from different disciplines and theoretical outlooks this text examines how the power of imagination reverberates in the various ambits of social and political life in law history art gender economy religion and the natural sciences

The Sacred in the Modern World Gordon Lynch, 2012-02-16 Re interpreting Durkheim's theory of the sacred this book sets out a theory of the sacred for use across a range of humanities and social science disciplines and draws on contemporary case study material to show how sacred forms whether in religious or secular guise continue to shape social life in the modern world

Defrocking the Devil Thomas J. Boynton, 2011-03-29 Defrocking the Devil Theology of Fear is a brief history of the last 2 500 years of monotheism using the actual words of the men who claimed to know the devil figure most intimately From Peter to Constantine to Martin Luther to our present day theologians these men and hundreds more included in this book supported the early Church fathers arguments for the inclusion of Satan into Christian polemics A dualism appeared in the story of Jesus immediately after his crucifixion Instead of tirelessly promoting the Christian message of love thy neighbor as thyself a new spiritual equation of hate torture and murder entered the theological landscape Defrocking the Devil is an attempt to puncture the myths surrounding the words evil devil and hell Two thousand years after the birth of Christianity

and fourteen hundred years after the start of Islam hundreds of millions of people currently living on this planet are in real fear of one day ending up down in the devil's lair How did Christian belief in Jesus become conditional upon the existence of fictional beings and wicked subterranean places Defrocking the Devil seeks to illuminate the darkness and empower all people of faith to move beyond theologies that advocate violence into the spiritual equation There have been many books written about this dark side of Western theology but few historians do much more than recount its bloody genocidal history Defrocking the Devil actively seeks to tear down such religious dogmas by using the very words of those who extolled such a hurtful anti Christian philosophy *The 21st Century Superhero* Richard J. Gray II, Betty Kaklamanidou, 2011-09-07

Superhero films are one of the most enduring genres of cinema and their popularity is only increasing in the 21st century These ten critical essays explore the phenomenon through the lenses of numerous academic disciplines and cover topics such as the role of globalization in the formation of superhero narratives the shifting nature of masculinity and femininity in the superhero world and the state of the genre today Of particular interest is the way these narratives however fantastic abstract futuristic or simplistic resonate with specific events in the world and function as starting points for discussion of contemporary sociopolitical conflicts **Legitimization in World Society** Aldo Mascareño, Kathya Araujo, 2016-04-22

Emerging traits of late global modernity such as transnationalism multiculturalism individualization and supranational contexts of action raise the question of what holds society together Responses have typically made reference to legitimization but the modern world presents challenges to such responses for in such a differentiated globalized setting legitimization can no longer appeal to the previous national ideological or religious foundations of early modernity From a variety of theoretical and empirical perspectives this book explores the manner in which legitimization can be constructed by people groups or institutions under the contemporary pressures and possibilities of modern world society Drawing on cosmopolitan theory postcolonial sociology systems theory and historical sociology it engages with questions of human rights processes of individualization and the constitution of transnational spaces in its examination of the challenges to legitimization As such it will be of interest to scholars of sociology political science and social and legal theory concerned with questions of globalization and the problems of social cohesion and legitimacy Nongovernmental Organizations in International Society V. Heins, 2008-04-14 Based on a wealth of original information and research this book offers both a critical introduction to NGOs and a discussion of recent theoretical approaches which have either dismissed or wildly exaggerated their political significance
