**Cold Rolling Precision Forming of Shaft Parts** Jianli Song, Zhiqi Liu, Yongtang Li, 2017-06-14 This book presents in detail the theory processes and equipment involved in cold rolling precision forming technologies focusing on spline and thread shaft parts The main topics discussed include the status quo of research on these technologies the design and calculation of process parameters the numerical simulation of cold rolling forming processes and the equipment used The mechanism of cold rolling forming is extremely complex and research on the processes theory and mechanical analysis of spline cold rolling forming has remained very limited to date In practice the forming processes and production methods used are mainly chosen on the basis of individual experience As such there is a marked lack of both systematic theory based guidelines and of specialized books covering theoretical analysis numerical simulation experiments and equipment used in spline cold rolling forming processes Illustrated using tables 3D photographs and formula derivations this book fills that gap in the literature

*Autonomous Robot Vehicles* Ingemar J. Cox, Gordon T. Wilfong, 2012-12-06

Autonomous robot vehicles are vehicles capable of intelligent motion and action without requiring either a guide or teleoperator control. The recent surge of interest in this subject will grow even further as their potential applications increase. Autonomous vehicles are currently being studied for use as reconnaissance, exploratory vehicles for planetary exploration, undersea land and air environments, remote repair and maintenance, material handling systems for offices and factories, and even intelligent wheelchairs for the disabled. This reference is the first to deal directly with the unique and fundamental problems and recent progress associated with autonomous vehicles. The editors have assembled and combined significant material from a multitude of sources and in effect now conveniently provide a coherent organization to a previously scattered and ill-defined field.
