**The Rolls and Register of Bishop Oliver Sutton, 1280-1299** Rosalind M. T. Hill,1970-02 This is the sixth of eight volumes containing the record of the institutions performed in the archdeaconry of Lincoln by Oliver Sutton bishop of Lincoln from 1280 to 1299 As a scholar he appears to have been competent rather than distinguished but he was a thoroughly good man a trained canonist who was determined to uphold the law and an administrator at once efficient and humane For nearly twenty years he devoted himself almost completely to his diocese ruling it with unending patience and a determined sense of justice Among other fascinating details his register describes incidents in the course of which clerks were maltreated and sometimes killed rights of sanctuary violated and churches desecrated by bloodshed      *The Medieval English Universities* Alan B. Cobban,2017-07-05 First published in 1988 this book traces the complex evolution of Oxford and Cambridge from the twelfth through the early sixteenth centuries In the process the author incorporates new research on Cambridge University that has become available only recently Alan B Cobban is able to give an overall view of the functioning of the English universities touching on the development of the academic hierarchy the various features of the curriculum and the teaching offered by these institutions The author also addresses the social and economic circumstances of students and the relations between the universities and their respective town and ecclesiastical authorities Cobban draws on much recent work to supply new details and altered perspectives in this single volume reappraisal of the history of these two distinguished educational institutions      **Power, Politics and Episcopal Authority** Angelo Silvestri,2014-11-24 It is impossible to completely understand the history of the medieval church without understanding how bishops control was exercised in the diocese and in the city This book assesses the differences shifts and changes in the power of the bishop in the cities and the dioceses of Lincoln and Cremona from the middle of the 11th century to the mid 14th century Lincoln with the biggest medieval diocese in England and with its unique series of bishops such as Hugh of Wells Hugh of Avalon Ro      **Brought Up Of Nought** Lynda J. Pidgeon ,2019-12-08 Described as greedy and grasping and raised from nothing the Woodvilles have had a bad press Brought Up of Nought investigates the family origins explains the rise and fall of the senior branch and how the junior branch rose to the highest levels of court society after struggling to establish itself in Northamptonshire The family originally rose to the status of baron but lost land over time as it descended to the gentry however the medieval wheel of fortune was to turn dramatically in favour of the junior branch in Northamptonshire Early in the 15th century Richard the son of Richard Woodville Esq was placed in the service of John Duke of Bedford at his court in Rouen which resulted in his secret marriage to the duke s young widow Jacquetta In 1464 their daughter Elizabeth made an extraordinary marriage to

Edward IV which attracted great criticism resulting in a period of slander that continues to this day This book argues that the Woodville s blackened reputation was the result of a campaign by Richard Earl of Warwick who was jealous and eager to retrieve his position as kingmaker

**Hertfordshire in History** Doris Jones-Baker,2004 This collection of essays offers a historical glimpse into the lives and happenings in Hertfordshire from the 13th century to the present Topics range from graffiti evidence of medieval music King James s connections with Hertfordshire settlements in the Connecticut Valley art traditions in the 19th century and the history of Christ s Hospital This compilation was designed to honor Lionel Munby one of Hertfordshire s leading 20th century historians

Christian Culture and Society in Later Catholic England ,2024-08-05 This book in memory of F Donald Logan explores different aspects of Christian culture and society in England from the twelfth to the sixteenth century Although this period has traditionally been interpreted in terms of decline and decay this excessively gloomy picture has slowly given way over the last eighty years or so to a more positive view of Christian civilization during these centuries The twenty two studies brought together here seek to build on this ongoing reassessment of Later Catholic England especially in those areas in which Professor Logan himself had done so much to deepen our understanding of Christian English society Contributors are Travis Baker Caroline Barron Nicholas Bennett Barbara Bombi Paul Brand Janet Burton James G Clark Karen Corsano Virginia Davis Charles Donahue Jr Anne J Duggan Joan Greatrex Diana Greenway Michael Haren R H Helmholz Philippa Hoskin Henry Ansgar Kelly Frederik Pedersen Seymour Phillips Michael J P Robson Jens R hrkasten Jane Sayers R N Swanson Daniel Williman and Patrick Zutshi

Rochester 1235-1318 Philippa Mary Hoskin,2022-12-15 A new volume in the English Episcopal Acta series editing the surviving records of the bishops of Rochester 1235 1318 with appendices including full itineraries of the bishops and a full contextual introduction The volume allows us to access the work of the bishops lives of ordinary individuals in one part of medieval England

*The Dependent Priories of Medieval English Monasteries* Martin Heale,2004 This study charts for the first time the history of the 140 or so daughter houses of English monasteries which have always been overshadowed by the French cells in England the so called alien priories The first part of the book examines the reasons for the foundation of these monasteries and the relations between dependent priories and their mother houses bishops and patrons The second part investigates everyday life in cells the priories interaction with their neighbours and their economic viability The unusual pattern of dissolution of these houses is also revealed Because of the tremendous bulk of material to survive for English dependencies this is the most detailed account of a group of small monasteries yet written Although daughter houses are in many ways unrepresentative of other lesser monasteries their experience sheds a great deal of light on the world of the small religious house and suggests that these shadowy institutions were far more central to medieval religion and society than has been appreciated

Excommunication in Thirteenth-Century England Felicity Hill,2022-05-12 Excommunication was the medieval churchs most severe sanction used

against people at all levels of society It was a spiritual social and legal penalty Excommunication in Thirteenth Century England offers a fresh perspective on medieval excommunication by taking a multi dimensional approach to discussion of the sanction Using England as a case study Felicity Hill analyzes the intentions behind excommunication how it was perceived and received at both national and local level the effects it had upon individuals and society The study is structured thematically to argue that our understanding of excommunication should be shaped by how it was received within the community as well as the intentions of canon law and clerics Challenging past assumptions about the inefficacy of excommunication Hill argues that the sanction remained a useful weapon for the clerical elite bringing into dialogue a wide range of source material allows effectiveness to be judged within a broader context The complexity of political communication and action are revealed through public conflicting accepted and rejected excommunications Excommunication could be manipulated to great effect in political conflicts and was an important means by which political events were communicated down the social strata of medieval society Through its exploration of excommunication the book reveals much about medieval cursing pastoral care fears about the afterlife social ostracism shame and reputation and mass communication *Bishops, Clerks, and Diocesan Governance in Thirteenth-Century England* Michael Burger, 2012-10-22 This book investigates how bishops deployed reward and punishment to control their administrative subordinates in thirteenth century England Bishops had few effective avenues available to them for disciplining their clerks and rarely pursued them preferring to secure their service and loyalty through rewards The chief reward was the benefice often granted for life Episcopal administrators security of tenure in these benefices however made them free agents allowing them to transfer from diocese to diocese or even leave administration altogether they did not constitute a standing episcopal civil service This tenuous bureaucratic relationship made the personal relationship between bishop and clerk more important Ultimately many bishops communicated in terms of friendship with their administrators who responded with expressions of devotion Michael Burger s study brings together ecclesiastical social legal and cultural history producing the first synoptic study of thirteenth century English diocesan administration in decades His research provides an ecclesiastical counterpoint to numerous studies of bastard feudalism in secular contexts *Peterborough Abbey 1086-1310* Edmund King, 1973-05-17 The operation of the land market is a topic of crucial importance to the student of economic and social history in the Middle Ages In this book Dr King uses a wide range of source material to examine the character of the land market on the estates of Peterborough Abbey in the twelfth and thirteenth centuries He suggests that some common pattern emerges in the behaviour of those concerned and offers an original interpretation of certain familiar types of medieval record *The Clergy in the Medieval World* Julia Barrow, 2015-01-15 The first broad ranging social history in English of the medieval secular clergy **On the Cessation of the Laws** Robert Grosseteste, 2012-04-23 Robert Grosseteste ca 1168 1253 was an unusual and exceptional man from the lowest social class yet greatly admired by kings and popes a scientist but also a philosopher

and theologian a talented administrator and a successful teacher a pastor doggedly devoted to the care of his flock but also a scholar dedicated to the translation of early Christian fathers and Aristotle loyal to the pope but fearless and bold in calling for the reform of the curia On the Cessation of the Laws directly reflects the profundity and originality of Grosseteste's theological work and indirectly reveals his pastoral concerns The work consists of four books In the first Grosseteste offers arguments mostly from Scripture against the position that he wishes to defend and then counters these arguments with a lengthy treatment of the whole economy of creation and salvation and the place of the Scriptures Old and New in it The second attempts to show from clear Old Testament texts that the crucified Jesus was the saviour promised in the Law The third is dominated by theological arguments for the incarnation of Christ even if humanity had not sinned and the fourth addresses a cluster of questions that follow upon the death of the Law

**The Nobility and Ecclesiastical Patronage in Thirteenth-century England** Elizabeth Gemmill, 2013 While there has been work on the nobility as patrons of monasteries this is the first real study of them as patrons of parish churches and is thus the first study to tackle the subject as a whole Illustrated with a wealth of detail it will become an indispensable work of reference for those interested in lay patronage and the Church more generally in the middle ages Professor David Carpenter Department of History King's College London This book provides the first full length integrated study of the ecclesiastical patronage rights of the nobility in medieval England It examines the nature and extent of these rights how they were used why and for whom they were valuable what challenges lay patrons faced and how they looked to the future in making gifts to the Church It takes as its focus the thirteenth century a critical period for the survival and development of these rights being a time of ambitious Church reform of great change in patterns of land ownership in the ranks of the higher nobility and of bold assertion by the English Crown of its claims to control Church property The thirteenth century also saw a proliferation of record keeping on the part of kings bishops and nobility and the author uses new evidence from a range of documentary sources to explore the nature of the relationships between the English nobility the Church and its clergy a relationship in which patronage was the essential feature Dr Elizabeth Gemmill is University Lecturer in Local History and Fellow of Kellogg College University of Oxford

*Transactions of the Royal Historical Society: Volume 8* Royal Historical Society, 1999-02-04 Volume 8 of The Royal Historical Society Transactions contains essays based around the theme identities and empires Bishop Robert Grosseteste and Lincoln Cathedral John Shannon Hendrix, 2017-07-05 Bishop Robert Grosseteste and Lincoln Cathedral is an in depth investigation of Grosseteste's relationship to the medieval cathedral at Lincoln and the surrounding city This book will contribute to the understanding of Gothic architecture in early thirteenth century England most specifically how forms and spaces were conceived in relation to the cultural religious and political life of the period The architecture and topography of Lincoln Cathedral are examined in their cultural contexts in relation to scholastic philosophy science and cosmology and medieval ideas about light and geometry as highlighted in the writings of Robert Grosseteste Bishop of

Lincoln Cathedral 1235 53 At the same time the architecture of the cathedral is considered in relation to the roles of the clergy and masons the policies of the bishop matters of governance worship and education ecclesiastical hierarchy church liturgy politics and processions The book explores Grosseteste s ideas in the broader context of medieval and Renaissance cosmologies optics perspective natural philosophy and experimental science and considers historical precedents in regard to religious political and symbolic influences on church building The contributors to this volume make an important contribution to our current understanding of the relation between architecture theology politics and society during the Middle Ages and how religious spaces were conceived and experienced      **Studies in the Art and Imagery of the Middle Ages** Richard Marks, 2013-12-31
