Roman Corinth An Alternative Model For The Classical City:

Roman Corinth Donald W. Engels, 1990-05-29 In the second century A D Corinth was the largest city in Roman Greece A center of learning culture and commerce it served as the capital of the senatorial province of Achaëa and was the focus of apostle Paul s missionary activity Donald Engels s important revisionist study of this ancient urban area is at once a detailed history of the Roman colony and a provocative socioeconomic analysis With Corinth as an exemplar Engels challenges the widely held view that large classical cities were consumer cities innocent of the market forces that shape modern economies Instead he presents an alternative model the service city Examining a wealth of archaeological and literary evidence in light of central place theory and using sound statistical techniques Engels reconstructs the human geography of the Corinthia including an estimate of the population He shows that given the amount of cultivatable land rents and taxes levied on the countryside could not have supported a highly populated city like Corinth Neither could its inhabitants have supported themselves directly by farming Rather the city constituted a thriving market for domestic regional and overseas raw materials agricultural products and manufactured goods at the same time satisfying the needs of those who plied the various land and sea routes that converged there Corinth provided key governmental and judicial services to the province of Achaëa and its religious festivals temples and monuments attracted numerous visitors from all corners of the Roman world In accounting for the large portion of residents who participated in these various areas outside of the traditional consumer model Engels reveals the depth and sophistication of the economics of ancient cities Roman Corinth is a much needed critique of the currently dominant approach of ancient urbanism It will be of crucial interest to scholars and students in classics ancient history and urban studies

Pauline Baptism among the Mysteries Donghyun Jeong, 2023-07-04 This monograph provides an alternative model for looking at the old question about Paul and the mysteries in a new light Specifically this study compares rituals baptism in the Pauline communities and the initiation rituals of the mysteries through the lens of cultural anthropology and the sociology of religion Three research questions lead the project What benefits does each initiation ritual promise its participants What are the underlying messages or structures that guarantee the efficacy of those rituals How and to what extent is the initiation ritual connected to the participants cognition and ethics beyond initiation itself Taking those questions as the analytical framework this study substantiates two points first in terms of ritual messages baptism in the Pauline communities is a ritual analogous to mystery initiation and second Paul is an innovative interpreter of ritual who recalibrates the messages of preexisting rituals for his theological and ethical program seeking to radically extend the implications of initiation to the embodied life of every Christ believer Students and scholars of New Testament early Christianity classics and ritual studies will benefit from engaging this volume

The Busy Periphery: Urban Systems of the Balkan and Danube Provinces (2nd - 3rd c. AD) Damjan Donev, 2019-12-19 This book reconstructs the urban

geography of the Balkan and Danube provinces during the Severan dynasty mapping the variable developments of the urban network between and within the sub regions of that part of the Roman Empire It examines the role of the town in Roman provincial society and the prerequisites for their emergence and prosperity *Secular and Christian Leadership in Corinth* Clarke,2018-12-10 This volume traces the influences of first century Corinthian secular leadership on local church leadership as reflected in 1 Corinthians 1 6 It then shows how Paul modifies the Corinthian understanding of church leadership By comparing secular leadership in first century Corinthian society with leadership in the Corinthian church it has been argued that one of Paul s major concerns with the church in Corinth is the extent to which significant members in the church were employing secular categories and perceptions of leadership in the Christian community This volume has adopted the method of assessing the New Testament evidence in the light of its social and historical background Both literary and non literary sources rather than modern sociological models were employed in making the comparison Secular and Christian Leadership in Corinth Andrew D. Clarke,2006-10-18 This volume traces the secular influences of first century Roman Corinth on the local church leadership It then shows how Paul modifies the Corinthian understanding of church leadership Using 1 Corinthians 1 6 together with other first century literary and non literary sources it is argued that one of Paul s major concerns with the church in Corinth is the extent to which significant members in the church were employing secular categories and perceptions of leadership in the Christian community this updated edition also seeks to reflect on recent developments in 1 Corinthians scholarship **Anti-Epicurean Polemics in the New Testament Writings** Stefan Szymik,2023-10-09 Stefan Szymik analyses New Testament texts in terms of polemic and anti Epicurean rhetoric To what extent and how did Epicurus and his philosophical thought influence the first Christian Churches How did Christians react to Epicureanism Although the New Testament only includes one account of an encounter between the Apostle Paul and the Epicureans Acts 17 18 the probability of their contacts was high given the popularity of Epicureanism in the Roman Empire in the first century CE As a vital component of Hellenistic Roman culture Epicureanism should be taken into account in research on the New Testament becoming a point of reference and part of the content of comparative analyses *Seek the Welfare of the City* Bruce W. Winter,1994 This is a print on demand book and is therefore non returnable The first Christians were members of households possibly associations and certainly cities in the first century Graeco Roman world before they embraced the preaching of the gospel This new six volume series which gathers contributors who are specialists in the intersection of the New Testament with the Graeco Roman world seeks for the first time to describe systematically the challenges difficulties and necessary adjustments involved in being a Christian to Graeco Roman society in the various spheres of life In this first volume *Seek the Welfare of the City* Bruce W Winter maps out the role of obligations of Christians as benefactors and citizens in their society Winter s scholarly insight is enhanced through the selective use of important ancient literary and nonliterary sources Contrary to the popular perception that early Christians withdrew from society and

sought to maintain a low profile this outstanding study explores the complexities of the positive commitments made by Christians in Gentile regions of the Roman Empire **Politics and Rhetoric in the Corinthian Epistles** L. L. Welborn,1997 The Transformation of African Christianity Sunday Jide Komolafe,2013-02-14 The explosion of the church in Nigeria is phenomenal with a forward momentum that is as remarkable as the missionary optimism of the first century Church The history reveals a tightly woven narrative of the process of beginnings growth and change 1-2 Corinthians Craig S. Keener,2005-06-13 This commentary explains 1 and 2 Corinthians passage by passage following Paul s argument It uses a variety of ancient sources to show how Paul s argument would have made sense to first century readers drawing from ancient letter writing speaking and social conventions The commentary will be of interest to pastors teachers and others who read Paul s letters because of its readability firm grasp of the background and scholarship on the Corinthian correspondence and its sensitivity to the sorts of questions asked by those wishing to apply Paul s letters today It will also be of interest to scholars because of its exploration of ancient sources often providing sources not previously cited in commentaries *The Social Ethos of the Corinthian Correspondence* David G. Horrell,1996-01-01 An exemplary study focussing on the Corinthian correspondence of the social ethos of early Christian teaching and its development **Conversion at Corinth** Stephen J. Chester,2005-11-17 Paul s conversion and its impact on his theology has been studied extensively Yet little has been done to relate this to Paul s attitude towards the conversion of others or to perspectives on conversion held by converts in the churches Paul founded Soteriology is often considered in isolation from the practical issues of how conversion was expected to take place and the nature of its expected consequences This book addresses these issues taking account of recent developments in conversion studies in the social sciences and other disciplines Stephen Chester first reviews these developments and assesses the potential value of sociologist Anthony Giddens s general social theory of structuration He then utilizes this to explore Paul s perspectives on conversion in relation to both Gentile and Jewish converts He also explores the Corinthians perspectives on conversion in the context of Graeco Roman religious and social life Here emerges a fascinating account of perspectives on conversion in the crucial formative years of early Christianity **A Student Commentary on Pausanias Book 2** Patrick Hogan,2018-08-03 In the ten books of his *Periegesis* or *Description of Greece* the ancient Greek traveler Pausanias second century CE describes the central regions of ancient Greece giving his readers a wealth of information about religious rites indigenous myths historical events sculptural and artistic works temples local customs and much more In *A Student Commentary on Pausanias Book 2* Patrick Paul Hogan provides intermediate level students of Classical Greek the necessary linguistic historical mythographical archaeological and geographical information to read and comprehend Book 2 of Pausanias *Periegesis* Book 2 of Pausanias work covers several major cities of the northeast Peloponnesus principally Corinth but also Argos Epidauros and Troezen as well as the prominent island of Aegina In *A Student Commentary on Pausanias Book 1* Hogan reintroduced students to Pausanias after nearly a century In this new

Terracotta Lamps II Birgitta Lindros Wohl, 2017-07-01 This volume discusses more than 400 lamps and lamp fragments dating from the Late Archaic to the Byzantine period found over several decades at the Sanctuary of Poseidon at Isthmia These come from excavations undertaken by UCLA from 1967 to 1987 under the direction of Paul Clement and since then by OSU under the direction of Timothy Gregory In addition to a detailed catalogue the volume presents a commentary on the types of lamps used at the sanctuary that enriches our knowledge of their manufacture use and artistic evolution over time The lamps also contribute to a better understanding of the site as they reflect the various historical political and religious vicissitudes at Isthmia and in the Corinthia in general over the centuries **Paul, Apostle to the Nations** Walter F.

Taylor, 2012 Who was Paul what did he do what did he write Walter F Taylor sets out to bring together a wealth of contemporary perspectives in a clear and accessible synthesis bringing to bear on his subject the best of recent social scientific and cultural anthropological thinking on Paul An appendix presents a clear summary of issues related to Pauls thought on gender and sexuality **Divine Honours for the Caesars** Bruce W. Winter, 2015-10-21 Though the first century a d saw the striking rise and expansion of Christianity throughout the vast Roman Empire ancient historians have shown that an even stronger imperial cult spread far more rapidly at the same time How did the early Jesus followers cope with the all pervasive culture of emperor worship This authoritative study by Bruce Winter explores the varied responses of first century Christians to imperial requirements to render divine honours to the Caesars Winter first examines the significant primary evidence of emperor worship particularly analysing numerous inscriptions in public places and temples that attributed divine titles to the emperors and he then looks at specific New Testament evidence in light of his findings **Christ's**

Associations John S. Kloppenborg, 2019-11-26 A groundbreaking investigation of early Christ groups in the ancient Mediterranean As an urban movement the early groups of Christ followers came into contact with the many small groups in Greek and Roman antiquity Organized around the workplace a deity a diasporic identity or a neighborhood these associations gathered in small face to face meetings and provided the principal context for cultic and social interactions for their members Unlike most other groups however about which we have data on their rules of membership financial management and organizational hierarchy we have very little information about early Christ groups Drawing on data about associative

practices throughout the ancient world this innovative study offers new insight into the structure and mission of the early Christ groups John S Kloppenborg situates the Christ associations within the broader historical context of the ancient Mediterranean and reveals that they were probably smaller than previously believed and did not have a uniform system of governance and that the attraction of Christ groups was based more on practice than theological belief *Trade, Traders and the Ancient City* Helen Parkins, Christopher Smith, 2005-06-20 Trade exchange and commerce touched the lives of everyone in antiquity especially those who lived in urban areas Trade Traders and the Ancient City addresses the nature of exchange and commerce and the effects it had in cities throughout the ancient world from the Bronze Age Near East to late Roman northern Italy Trade Traders and the Ancient City employs the most recent archaeological papyrological epigraphic and literary evidence to present an innovative and timely analysis of the importance and influence of trade in the ancient world The Writings of the New Testament Luke Timothy Johnson, 2010-03-01 Luke Timothy Johnson offers a compelling interpretation of the New Testament as a witness to the rise of early faith in Jesus Critically judicious and theologically attuned to the role of the New Testament in the life of the church Johnson deftly guides his reader through a wealth of historical and literary description and invites critical reflection on the meaning of these ancient writings for today The third edition is carefully updated and includes new student friendly format and features including a new design and study and reflection questions
