The Roman Poetry of Love Efrossini Spentzou, 2013-10-24 The Roman Poetry of Love explores the formation of a key literary genre in a troubled historical and political setting The short lived genre of Latin love elegy produced spectacular multi faceted and often difficult poetry Its proponents Catullus Tibullus Propertius and Ovid remain to this day some of the most influential poetic voices of Western civilisation This accessible introduction combines aesthetic analysis with socio political context to provide a concise but comprehensive portrait of the Roman elegy its main participants and its cultural and political milieu Focusing on a series of specific poems the title portrays the development of the genre in the context of the Emperor Augustus ascent to power following recognizable threads through the texts to build an understanding of the relationship between this poetry and the

increasingly totalising regime Highlighting and examining the intense affectation of love in these poems The Roman Poetry of Love explores the works not simply as an expression of a troubled male psychology but also as a reflection of the overwhelming changes that swept through Rome and Italy in the transition from the late Republic to the Augustan Age

explore fictive spaces which are at once familiar and otherworldly realms of the imagination which are nevertheless firmly rooted in the lived reality of the poets and their contemporaries We too when we read these poems may feel simultaneously a sense of being transported to a world apart and of being seized upon by the poem's address in the here and now of reading The fiction of occasion is proposed as a new conceptual tool for understanding how these poems produce such problematic presences and what varieties of experience they make possible for their readers The fiction of occasion is defined as a phenomenon whereby a poem is fictionally framed as part of a material event or occasion with which the reader is invited to engage through the medium of the senses The book explores this concept through close readings of key authors from the corpus of first person poetry written in Greek and Latin between the 3rd century BCE and the 1st century CE with a focus on Callimachus Bion Catullus Propertius and Horace The ultimate purpose of these readings is to move towards developing a new vocabulary for conceptualising ancient poetry as an embodied experience

Exemplary Traits J. Mira Seo, 2013-07-04 Exemplary Traits examines how Roman poets used models dynamically to create character and how their referential approach to character reveals them mobilizing the literary tradition **The Roman Poets of the Republic** William Young Sellar, 1905 The Poems of Exile Ovid, 2005-01-18 This is no small achievement For the language lover the translation provides elegant flowing English verse for the classicist it conveys close approximation to the Latin meaning coupled with a sense of the movement and rhythmic variety of Ovid's language Geraldine Herbert Brown editor of Ovid's Fasti Historical Readings at its Bimillennium This book fills a gap There is no similar annotated English translation of Ovid's exile poetry Thoroughly grounded in Ovidian scholarship Green's introduction and notes are helpful and informative The translation is accurate idiomatic and lively closely imitating the Latin elegiac couplet and capturing Ovid's changing moods Karl Galinsky author of Ovid's Metamorphoses An Introduction to the Basic Aspects The lays of ancient Rome, and other poems, ed. by J.H. Flather Thomas Babington Macaulay Baron Macaulay, 1899
