Greek and Roman Classics in the British Struggle for Social Reform Henry Stead, Edith Hall, 2015-06-18 Greek and Roman Classics in the British Struggle for Social Reform presents an original and carefully argued case for the importance of classical ideas education and self education in the personal development and activities of British social reformers in the 19th and first six decades of the 20th century Usually drawn from the lower echelons of the middle class and the most aspirational artisanal and working class circles the prominent reformers revolutionaries feminists and educationalists of this era far from regarding education in Latin and Greek as the preserve of the upper classes and inherently reactionary were consistently inspired by the Mediterranean Classics and contested the monopoly on access to them often claimed by the wealthy and aristocratic elite The essays several of which draw on previously neglected and unpublished sources cover literary figures Coleridge the Cockney Classicist poets including Keats and Dickens different cultural media burlesque theatre body building banner art poetry journalism and fiction topics in social reform the desirability of revolution suffrage poverty social exclusion women s rights healthcare eugenics town planning race relations and workers education as well as political affiliations and agencies Chartists Trade Unions the WEA political parties including the Fabians the Communist Party of Great Britain and the Labour Party The sixteen essays in this volume restore to the history of British Classics some of the subject s ideological complexity and instrumentality in social progress a past which is badly needed in the current debates over the future of the discipline Contributors include specialists in English Literature History Classics and Art

A View of the Various Editions of the Greek and Roman Classics ... 2. Ed. Corr. and Enl Edward Harwood,1778 **Cicero, Greek Learning,**

and the Making of a Roman Classic Caroline Bishop,2018-11-29 The Roman statesman orator and author Marcus Tullius Cicero is the embodiment of a classic his works have been read continuously from antiquity to the present his style is considered the model for classical Latin and his influence on Western ideas about the value of humanistic pursuits is both

deep and profound However despite the significance of subsequent reception in ensuring his canonical status Cicero Greek Learning and the Making of a Roman Classic demonstrates that no one is more responsible for Cicero s transformation into a classic than Cicero himself and that in his literary works he laid the groundwork for the ways in which he is still remembered today The volume presents a new way of understanding Cicero s career as an author by situating his textual production within the context of the growth of Greek classicism the movement had begun to flourish shortly before his lifetime and he clearly grasped its benefits both for himself and for Roman literature more broadly By strategically adapting classic texts from the Greek world and incorporating into his adaptations the interpretations of the Hellenistic philosophers poets rhetoricians and scientists who had helped enshrine those works as classics he could envision and create texts with classical authority for a parallel Roman canon Ranging across a variety of genres including philosophy rhetoric oratory poetry and letters this close study of Cicero s literary works moves from his early translation of Aratus poetry and its later reappearance through self quotation to Platonizing philosophy Aristotelian rhetoric Demosthenic oratory and even a planned Greek style letter collection Juxtaposing incisive analysis of how Cicero consciously adopted classical Greek writers as models and predecessors with detailed accounts of the reception of those figures by Greek scholars of the Hellenistic period the volume not only offers ground breaking new insights into Cicero s ascension to canonical status but also a salutary new account of Greek intellectual life and its effect on Roman literature

Tony Harrison and the Classics Sandie Byrne,2022 This volume presents fifteen chapters focusing on different aspects of the work of Tony Harrison showing how his adaptations and translations explored themes of language class access to art and the causes and effects of war *Classics in Extremis* Edmund Richardson,2018-12-13 *Classics in Extremis* reimagines classical reception Its contributors explore some of the most remarkable hard fought and unsettling claims ever made on the ancient world from the coal mines of England to the paradoxes of Borges from Victorian sexuality to the trenches of the First World War from American public school classrooms to contemporary right wing politics How does the reception of the ancient world change under impossible strain Its protagonists are marginal figures who resisted that definition in the strongest terms Contributors argue for a decentered model of classical reception where the marginal shapes the central as much as vice versa and where the most unlikely appropriations of antiquity often have the greatest impact What kind of distortions does the model of centre and margins produce How can marginal receptions be recovered most effectively Bringing together some of the leading scholars in the field *Classics in Extremis* moves beyond individual case studies to develop fresh methodologies and perspectives on the study of classical reception

An Archæological Dictionary; or, Classical Antiquities of the Jews, Greeks, and Romans alphabetically arranged Rev. Thomas WILSON (of Clitheroe.),1793 *The Routledge Handbook of Classics, Colonialism, and Postcolonial Theory* Katherine Blouin,Ben Akrigg,2024-07-29 This handbook explores the ways in which histories of colonialism and postcolonial thought and theory cast light on our understanding of the ancient Mediterranean world and the

discipline of Classics utilizing a wide body of case studies and providing avenues for future research and discussion. It brings together chapters by a wide international and intersectional range of scholars coming from a variety of backgrounds and sub-disciplinary perspectives and from across the chronological and geographical scope of Classics. Chapters cover the state of current research into ancient Mediterranean and South Central and West Asian histories. They provide case studies to illustrate both how postcolonial thought has already illuminated our understanding of the ancient Mediterranean world and beyond as well as its potential for the future. Chapters also provide opportunities for reflection on the current state of the discipline. An introduction by the volume editors offers a survey of the development of postcolonial theory, its relationship to other bodies of theory and its connections to Classics. Toward the end of the book, three scholars with different career and disciplinary perspectives provide short reflections on the themes of the volume and the directions of future research. The Routledge Handbook of Classics Colonialism and Postcolonial Theory offers an impressive collection of current research and thought on the subject for students and scholars in classical studies understood in its larger sense as well as in related disciplines such as Archaeology, Ancient History, Imperial History and the History of Colonialism, Reception Studies and Museum Studies. For anyone interested in classical antiquity, it provides an engaging introduction to a potentially bewildering but ultimately vital and enriching body of thought and theory.

Classics Transformed in Jewish, Israeli, and Palestinian Receptions, 2025-02-19. *Classics Transformed in Jewish Israeli and Palestinian Receptions* invites the reader to view classical antiquity through the writings of poets, translators and scholars emerging from modern Jewish diasporas, Mandatory Palestine and the State of Israel who engaged with Greek and Roman literary precedents. Whereas these voices have up to now been mostly studied independently of one another as separate fields of research, this volume brings some of these distinct voices who nevertheless share a connection to Greco-Roman antiquity into conversation with one another. Taking its cue from the crisis of humanism following the Holocaust, the chapters take as their themes the destruction of home, displacement and different forms of wandering and homecomings, drawing connections to acts of translation and transmission of the classics to form a picture of cultural and textual states of alterity. The volume shows that Jewish Israeli and Palestinian responses to the classics are entangled and even complementary despite their different trajectories. The chapters included here focus particularly on critical moments in Jewish and Palestinian existence when the reception of classical humanism is closely linked to issues of survival. On offer here is a historically grounded investigation into the ways Jews, Israelis and Palestinians have used classical antiquity and classical philology to validate their identity in a rapidly changing society.

Classical Rhetoric in the Middle Ages, John O. Ward, 2018-12-24. *Classical Rhetoric in the Middle Ages: The Medieval Rhetors and Their Art 400-1300* with Manuscript Survey to 1500 CE is a completely updated version of John Ward's much-used doctoral thesis of 1972 and is the definitive treatment of this fundamental aspect of medieval and rhetorical culture. It is commonly believed that medieval writers were interested only in Christian truth, not in Graeco-Roman

methods of persuasion to whatever viewpoint the speaker writer wanted Dr Ward however investigates the content of well over one thousand medieval manuscripts and shows that medieval writers were fully conscious of and much dependent upon Graeco Roman rhetorical methods of persuasion The volume then demonstrates why and to what purpose this use of classical rhetoric took place

Afro-Greeks Emily Greenwood, 2010-01-28 Afro Greeks examines the reception of Classics in the English speaking Caribbean from about 1920 to the beginning of the 21st century Emily Greenwood focuses on the ways in which Greco Roman antiquity has been put to creative use in Anglophone Caribbean literature and relates this regional classical tradition to the educational context specifically the way in which Classics was taught in the colonial school curriculum Discussions of Caribbean literature tend to assume an antagonistic relationship between Classics which is treated as a legacy of empire and Caribbean literature While acknowledging the importance of this imperial context Greenwood argues that Caribbean appropriations of Classics played an important role in formulating original anti colonial and anti imperial criticism in Anglophone Caribbean fiction Afro Greeks reveals how in the twentieth century two generations of Caribbean writers including Kamau Brathwaite Austin Clarke John Figueroa C L R James V S Naipaul Derek Walcott and Eric Williams created a distinctive regional counter tradition of reading Greco Roman Classics

Framing Classical Reception Studies, 2020-07-13 Framing Classical Reception Studies contains a representative number of analytic and synthetic contributions by scholars from diverse parts of the field of Classical Reception Studies Together they afford a synoptic view and typology of an extremely large and continuously diversifying discipline Attentive to questions such as what by whom in what contexts and to what ends Classics have functioned and are functioning in our culture all contributors ask themselves from what conceptual or disciplinary frame they approach the reception of the cultures of

classical Greek and Roman antiquity Within this questioning format the book also contains suggestions for future agendas of research and forcefully argues for the political cultural and cognitive relevance of classical receptions in the Academy **A Catalogue of the Library of the London Institution: The general library** London Institution.
