Roman House With Bacchic Murals At Dover:

The Roman House with Bacchic Murals at Dover Brian Philp, 1989 The discovery excavation preservation and detailed analysis of a substantially complete Roman house popularly known as the Painted House containing large areas of in situ and fallen painted wall plaster together with related structures and finds forming part of the extra mural settlement of the Classis Britannica forts at Dover

The Roman House in Britain Dominic Perring, 2002-09-11 This authoritative and original work sets the results of recent archaeological research in the context of classical scholarship as it explores three main aspects of Romano British buildings general characteristics of form and structure the ways in which they were built and decorated the range of activities for which they were designed This evidence is then used to discuss the social practices and domestic arrangements that characterised Romano British elite society Fully illustrated this volume is the essential guide to how houses were built used and understood in Roman Britain

The Art of Roman Britain Martin Henig, 2002-11-01 With the help of over 100 illustrations many of them little known Martin Henig shows that the art produced in Britannia particularly in the golden age of Late Antiquity rivals that of other provinces and deserves comparison with the art of metropolitan Rome The originality and breadth of Henig s study is shown by its systematic coverage embracing both the major arts stone and bronze statuary wall painting and mosaics and such applied arts as jewelery making silversmithing furniture design figure pottery figurines and appliques The author explains how the various workshops were organized the part played by patronage and the changes that occurred in the fourth century

Sea Eagles of Empire Simon Elliott, Andrew Lambert, 2016-08-03 Winner of Military History Monthly s 2017 Book of the Year Award The Classis Britannica was the Roman regional fleet controlling and protecting the waters around the British Isles in other words Britain s first ever navy For over 200 years it played a key role in the northern frontiers of the Roman Empire it helped to establish the province of Britannia and assisted in Roman military campaigns as well as controlling the continental coast through to the Rhine Delta Outside of war the Classis Britannica also offered vital support for the civilian infrastructure of Roman Britain assisting in administration carrying out major building and engineering projects and running industry Later its mysterious disappearance in the mid third century ad would contribute to Britain finally leaving the Empire 150 years later In *Sea Eagles of Empire* acclaimed historian Simon Elliott tells its story for the very first time

An Imperial Possession David Mattingly, 2008-05-27 Part of the Penguin History of Britain series *An Imperial Possession* is the first major narrative history of Roman Britain for a generation David Mattingly draws on a wealth of new findings and knowledge to cut through the myths and misunderstandings that so commonly surround our beliefs about this period From the rebellious chiefs and druids who led native British resistance to the experiences of the Roman military leaders in this remote dangerous outpost of Europe this book explores the reality of life in occupied Britain within the context of the shifting fortunes of the Roman Empire

[The Roman Villa Site at Keston, Kent](#) Brian Philp, 1999

Empire State Simon Elliott, 2017-08-31 The armed forces of Rome

particularly those of the later Republic and Principate are rightly regarded as some of the finest military formations ever to engage in warfare. Less well known however is their use by the State as tools for such nonmilitary activities in political, economic and social contexts. In this capacity they were central instruments for the Emperor to ensure the smooth running of the Empire. In this book the use of the military for such non conflict related duties is considered in detail for the first time. The first and best known is running the great construction projects of the Empire in their capacity as engineers. Next the role of the Roman military in the running of industry across the Roman Empire is examined particularly the mining and quarrying industries but also others. They also took part in agriculture administered and policed the Empire provided a firefighting resource and organized games in the arena. The soldiers of Rome really were the foundations on which the Roman Empire was constructed they literally built an empire. Simon Elliott lifts the lid on this less well known side to the Roman army in an accessible narrative designed for a wide readership. *British and Irish Archaeology*, 1994. *A Prestigious Roman Building Complex on the Southwark Waterfront* Brian Yule, 2005. Excavations upstream of Roman London bridge in north Southwark uncovered evidence for mid 1st century AD land reclamation and the establishment of a road and buildings. The waterfront was extended northwards in c AD 80 and new buildings including rectangular and circular masonry buildings associated with grain storage were constructed around a newly aligned yard or roadway. In the early 2nd century a prestigious new building complex established on a different alignment may have had a military or administrative purpose. Ranges of rooms some plastered and elaborately painted enclosed a courtyard bath suite. Some of these buildings continued in use until the late 4th century. *The Roman Occupation of Britain and its Legacy* Rupert Jackson, 2020-09-03. This book tells the fascinating story of Roman Britain beginning with the late pre Roman Iron Age and ending with the province's independence from Roman rule in AD 409. Incorporating for the first time the most recent archaeological discoveries from Hadrian's Wall, London and other sites across the country and richly illustrated throughout with photographs and maps, this reliable and up to date new account is essential reading for students, non specialists and general readers alike. Writing in a clear, readable and lively style with a satirical eye to strange features of past times, Rupert Jackson draws on current research and new findings to deepen our understanding of the role played by Britain in the Roman Empire, deftly integrating the ancient texts with new archaeological material. A key theme of the book is that Rome's annexation of Britain was an imprudent venture motivated more by political prestige than economic gain, such that Britain became a trophy province unable to pay its own way. However, the impact that Rome and its provinces had on this distant island was nevertheless profound. Huge infrastructure projects transformed the countryside and means of travel; capital and principal cities emerged and the Roman way of life was inseparably absorbed into local traditions. Many of those transformations continue to resonate to this day as we encounter their traces in both physical remains and in civic life. *Late Roman Handmade Grog-Tempered Ware Producing Industries in South East Britain* Malcolm Lyne, 2016-01-22. This publication deals with the Late Roman

handmade grog tempered ware industries of East Sussex the Hampshire basin East Kent and West Kent presenting corpora for these various wares

A Cultural History of Money in Antiquity Stefan Krmnicek, 2021-03-11 The origins of the modern Western concept of money can be traced back to the earliest electrum coins that were produced in Asia Minor in the seventh century BCE While other forms of currency shells jewelry silver ingots were in widespread use long before this the introduction of coinage aided and accelerated momentous economic political and social developments such as long distance trade wealth creation and the social differentiation that followed from that and the financing of military and political power Coinage though adopted inconsistently across different ancient societies became a significant marker of identity and became embedded in practices of religion and superstition And this period also witnessed the emergence of the problems of money inflation monetary instability and the breakup of monetary unions which have surfaced repeatedly in succeeding centuries Drawing upon a wealth of visual and textual sources *A Cultural History of Money in Antiquity* presents essays that examine key cultural case studies of the period on the themes of technologies ideas ritual and religion the everyday art and representation interpretation and the issues of the age

The Archaeology of Kent to AD 800 John H. Williams, 2007 Kent's proximity to the European mainland has meant that it has always had a special relationship with its continental neighbours At times this has been a positive force with Kent a conduit for trade and new ideas but on other occasions the white cliffs of Dover have symbolised defiance with Kent being in the front line in the defence of England The result has been an extremely rich archaeological heritage from Palaeolithic times onwards The opening up of the Channel Tunnel and the construction of the associated high speed railway line linking England and France together with major development activity associated with an agenda for regeneration and economic growth has resulted in unprecedented archaeological activity which has revolutionised our understanding of Kent's earlier past The contributors to this volume all of whom have specialist research interests in Kent have combined established wisdom with the fresh information from recent work to create a new and exciting story Contributors TIMOTHY CHAMPION MARTIN MILLETT MARTIN WELCH AND FRANCIS WENBAN SMITH
