The Life of Comedy after the Death of Plautus and Terence Mathias Hanses, 2020-12-10 The Life of Comedy after the Death of Plautus and Terence documents the ongoing popularity of Roman comedies and shows that they continued to be performed in the late Republic and early Imperial periods of Rome Playwrights Plautus and Terence impressed audiences with stock characters as the young man in love the trickster slave the greedy pimp the prostitute and many others A wide range of spectators visited Roman theaters including even the most privileged members of Roman society orators like Cicero satirists like Horace and Juvenal and love poets like Catullus and Ovid They all put comedy's varied characters to new and

creative uses in their own works as they tried to make sense of their own lives and those of the people around them by suggesting comparisons to the standard personality types of Roman comedy. Scholars have commonly believed that the plays fell out of favor with theatrical audiences by the end of the first century BCE but *The Life of Comedy* demonstrates that performances of these comedies continued at least until the turn of the second century CE. Mathias Hanses traces the plays' reception in Latin literature from the late first century BCE to the early second century CE and shines a bright light on the relationships between comic texts and the works of contemporary and later Latin writers. *The Cambridge World History of Sexualities: Volume 3, Sites of Knowledge and Practice* Merry E. Wiesner-Hanks, Mathew Kuefler, 2024-04-30. Robert Graves and the Classical Tradition A. G. G. Gibson, 2015-07-09. The poet Robert Graves' use of material from classical sources has been contentious to scholars for many years, with a number of classicists baulking at his interpretation of myth and his novelization of history and questioning its academic value. This collection of essays provides the latest scholarship on Graves' historical fiction, for example in *I Claudius* and *Count Belisarius*, and his use of mythical figures in his poetry, as well as an examination of his controversial retelling of the Greek Myths. The essays explore Graves' unique perspective and expand our understanding of his works within their original context while, at the same time, considering their relevance in how we comprehend the ancient world.

Trade and Taboo Sarah Bond, 2016-10-25. *Trade and Taboo* addresses the legal, literary, social, and institutional creation of disrepute in ancient Roman society. Tracking the shifting application of stigmas of disrepute between the Republic and Late Antiquity, it follows particular groups of professionals: funeral workers, criers, tanners, mint workers, and even bakers, asking how they coped with stigmatization. In this book, Sarah E. Bond reveals the construction and motivations for these attitudes and to show how they created inequalities, informed institutions, and changed over time. Additionally, she shows how political and cultural shifts mutated these taboos, reshaping economic markets and altering the status of professionals at work within these markets. Bond investigates legal stigmas in the form of infamia and other marks of legal disrepute. She expands on anthropological theories of pollution, closely studying individuals who regularly came into contact with corpses and other polluting materials and considering communication and network formation through the disrepute attached to town criers or *praecones*. Ideas of disgust and the

language of invective are brought forward looking at tanners The book closes with an exploration of caste like systems created in the later Roman Empire Collectively these professionals are eloquent about economies and changes experienced within Roman society between 45 BCE and 565 CE Trade and Taboo will interest those studying Roman society issues of historiographical method and the topic of taboo in preindustrial cultures [British & Irish Archaeological Bibliography](#),2000 *Essays on Propertian and Ovidian Elegy* T. E. Franklins,Jennifer Ingleheart,2024-01-17 This volume brings together eleven chapters on the genre of Latin elegy by leading scholars in the field Latin elegy is typically thought to have flourished for a brief period at Rome between c 40 BC and the early decades of the first century AD it was the pre eminent vehicle for writing about amatory matters in this period and among its principal exponents were Propertius and Ovid whose works constitute the focus of this volume Their poems and poetic collections were however by no means restricted to the themes of love even if amatory concerns often surface at unexpected moments in texts that are not ostensibly concerned with love Both poets were alive to their precursors writings in elegiacs and so aetiological themes and reflection on contemporary political circumstances form an integral part of their poetry Such concerns are explored in some of the chapters on Propertius on Ovid s Fasti and exile poetry and also in a Renaissance elegy that looks closely to its literary heritage as it comments on the concerns of its day Some contributions to this volume also shed new light on the typically elegiac conceit of separation notably in amatory and exilic texts while others look to conceptions of Roman identity and the relationship between the natural world and the cultural political and literary spheres All of the chapters share an interest in the close reading of texts as the basis for drawing broader conclusions about these fascinating authors their poetry and their worlds
