

## Romance

Romance, who loves to nod and sing,  
With drowsy head and folded wing,  
Among the green leaves as they shake  
Far down within some shadowy lake,  
To me a painted paroquet  
Hath been- a most familiar bird-  
Taught me my alphabet to say-  
To lisp my very earliest word  
While in the wild wood I did lie,

A child- with a most knowing eye.

Of late, eternal Condor years  
So shake the very Heaven on high  
With tumult as they thunder by,  
I have no time for idle cares  
Through gazing on the unquiet sky.  
And when an hour with calmer wings  
Its down upon my spirit flings-  
That little time with lyre and rhyme  
To while away- forbidden things!

My heart would feel to be a crime  
Unless it trembled with the strings.

**The Cambridge Companion to British Romantic Poetry** Maureen N. McLane, 2008-09-04 More than any other period of British literature Romanticism is strongly identified with a single genre Romantic poetry has been one of the most enduring best loved most widely read and most frequently studied genres for two centuries and remains no less so today This Companion offers a comprehensive overview and interpretation of the poetry of the period in its literary and historical contexts The essays consider its metrical formal and linguistic features its relation to history its influence on other genres its reflections of empire and nationalism both within and outside the British Isles and the various implications of oral transmission and the rapid expansion of print culture and mass readership Attention is given to the work of less well known or recently rediscovered authors alongside the achievements of some of the greatest poets in the English language Wordsworth Coleridge Blake Scott Burns Keats Shelley Byron and Clare

**Romantic Prose Fiction** Gerald Ernest Paul Gillespie, Manfred Engel, Bernard Dieterle, 2008 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives The work treats the appearance of major themes in characteristically Romantic versions the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World Through its combination of chapters on thematic generic and discursive features Romantic Prose Fiction achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization

**SPECIAL OFFER 30% discount for a complete set order 5 vols** The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in

coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self-commentary in theoretical statements on the arts, society, life, the sciences, and more. Nor are the discursive dimensions of imaginative literature neglected in the closing volume *Romantic Prose Fiction*, where the basic Romantic themes and story types, the romance novel, novella, short story, and other narrative forms, are considered throughout Europe and the New World. This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations. As an aid to readers, the introduction to *Romantic Prose Fiction* explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix. No other series exists comparable to these volumes, which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries, a heritage still very close to our age.

**The Encyclopedia of Romantic Literature, 3 Volume Set** Frederick Burwick, Nancy Moore Goslee, Diane Long Hoeveler, 2012-01-30. The *Encyclopedia of Romantic Literature* is an authoritative three-volume reference work that covers British artistic, literary, and intellectual movements between 1780 and 1830 within the context of European transatlantic and colonial historical and cultural interaction. Comprises over 275 entries ranging from 1,000 to 6,500 words arranged in A-Z format across three fully cross-referenced volumes. Written by an international cast of leading and emerging scholars. Entries explore genre development in prose, poetry, and drama of the Romantic period; key authors and their works; and key themes. Also available online as part of the Wiley-Blackwell *Encyclopedia of Literature*, providing 24/7 access and powerful searching, browsing, and cross-referencing capabilities.

*Romance* Walter Raleigh, 2018-05-15. Reproduction of the original *Romance* by Walter Raleigh.

**The Oxford Handbook of British Romantic Prose** Robert Morrison, 2024. The *Oxford Handbook of British Romantic Prose* is a full-length essay collection devoted entirely to British Romantic nonfiction prose. Organized into eight parts, each containing between five and nine chapters arranged alphabetically, the Handbook weaves together familiar and unfamiliar texts, events, and authors and invites readers to draw comparisons, reimagine connections and disconnections, and confront frequently stark contradictions within British Romantic nonfiction prose but also in its relationship to British Romanticism more generally and to the literary practices and cultural contexts of other periods and countries. The Handbook builds on previous scholarship in the field, considers emerging trends and evolving methodologies, and suggests future areas of study. Throughout, the emphasis is on lucid expression rather than gnomic declaration, and on chapters that offer not a dutiful survey but evaluative assessments that keep an eye on the bigger picture yet also dwell meaningfully on specific paradoxes and the most telling examples. Taken as a whole, the volume demonstrates the energy, originality, and diversity at the crux of British Romantic nonfiction prose. It vigorously challenges the traditional construction of the British Romantic movement as focused too exclusively on the accomplishments of its poets and it reveals the many ways in which scholars of the period are

steadily broadening out and opening up delineations of British Romanticism in order to encompass and thoroughly evaluate the achievements of its nonfiction prose writers      **Library of Congress Subject Headings** Library of Congress,1991
