Romanesque Art And Architecture:

Romanesque Art Victoria Charles, Klaus Carl, 2016-03-09 In art history the term Romanesque art distinguishes the period between the beginning of the 11th and the end of the 12th century This era showed a great diversity of regional schools each with their own unique style In architecture as well as in sculpture Romanesque art is marked by raw forms Through its rich iconography and captivating text this work reclaims the importance of this art which is today often overshadowed by the later Gothic style [A Handbook of Romanesque Art](#) J. J. M. Timmers, 1976 *Archaeology and the Pan-European Romanesque* T. O'Keefe, 2015-03-02 Romanesque is the style name given to the art and architecture of Europe in the eleventh and twelfth centuries First used in the early nineteenth century to express the perceived indebtedness of the visual artistic and architectural cultures of this period to their Classical antecedents the term has survived two centuries of increasingly sophisticated readings of the relevant medieval buildings and objet d art The study of Romanesque as a stylistic phenomenon is now almost exclusively the preserve of art historians particularly in the English speaking world Here the Romanesque is subjected to a long overdue theoretically informed archaeological inquiry The ideological foundations and epistemological boundaries of Romanesque scholarship are critiqued and the constructs of Romanesque and Europe are deconstructed and alternative strategies for interpreting Romanesque s constituent material are mapped out This book should at the very least illuminate the need for debate

Romanesque Patrons and Processes Jordi Camps, Manuel Castiñeiras, John McNeill, Richard Plant, 2018-03-09 The twenty five papers in this volume arise from a conference jointly organised by the British Archaeological Association and the Museu Nacional d Art de Catalunya in Barcelona They explore the making of art and architecture in Latin Europe and the Mediterranean between c 1000 and c 1250 with a particular focus on questions of patronage design and instrumentality No previous studies of patterns of artistic production during the Romanesque period rival the breadth of coverage encompassed by this volume both in terms of geographical origin and media and in terms of historical approach Topics range from case studies on Santiago de Compostela the Armenian Cathedral in Jerusalem and the Winchester Bible to reflections on textuality and donor literacy the culture of abbatial patronage at Saint Michel de Cuxa and the re invention of slab relief sculpture around 1100 The volume also includes papers that attempt to recover the procedures that coloured interaction between artists and patrons a serious theme in a collection that opens with Function condition and process in eleventh century Anglo Norman church architecture and ends with a consideration of The death of the patron

the correct age of a certain building was known buildings from c 800 1200 were sometimes regarded as Antique architecture since the concept of Antiquity was far more stretched than our modern periodisation allows This was a Europe wide phenomenon The results are rather diverse in style but they all share an intellectual and artistic strategy a conscious revival of an ancient architecture whatever the date and origin of these models Contributors Barbara Arciszewska Lex Bosman Ian Campbell Eliana Carrara Bianca de Divitiis Krista De Jonge Emanuela Ferretti Emanuela Garofalo Stefaan Grieten Hubertus G nther Stephan Hoppe Sanne Maekelberg Kristoffer Neville Marco Rosario Nobile Konrad Ottenheim Stefano Piazza and Richard Schofield **Romanesque Art and Architecture** Ana Martín,1993 Discusses the artistic style that developed in Europe between the eleventh and thirteenth centuries blending Roman art with Germanic and Byzantine elements

O’Keeffe,2024-02-28 This book presents a fresh perspective on eleventh and twelfth century Irish architecture and a critical assessment of the value of describing it and indeed contemporary European architecture in general as Romanesque Medieval Irish Architecture and the Concept of Romanesque is a new and original study of medieval architectural culture in Ireland The book s central premise is that the concept of a Romanesque style in eleventh and twelfth century architecture across Western Europe including Ireland is problematic and that the analysis of building traditions of that period is not well served by the assumption that there was a common style Detailed discussion of important buildings in Ireland a place marginalised within the Romanesque model reveals the Irish evidence to be intrinsically interesting to students of medieval European architecture for it is evidence which illuminates how architectural traditions of the Middle Ages were shaped by balancing native and imported needs and aesthetics often without reference to Romanitas This book is for specialists and students in the fields of Romanesque medieval archaeology medieval architectural history and medieval Irish studies **Romanesque**
