Issues, Insights and Lessons Learnt** Radu Vacareanu, Constantin Ionescu, 2016-03-02 These proceedings include most of the available information on this major seismic event and its consequences With an estimated moment magnitude of 7.7 and a heavy toll in terms of human and economic losses it ranks as the largest intermediate depth earthquake in Europe in the twentieth century Nevertheless because of the difficult conditions in the 1940s the lessons learnt after the Vrancea earthquake were not extensively shared with the international scientific community and thus this book fills a gap in the literature discussing the knowledge acquired after major disasters Past experience together with current

understanding of the 1940 Vrancea earthquake are presented along with the latest information on Romanian seismicity seismic hazard and risk assessment and seismic evaluation and rehabilitation of buildings and structures Moreover it includes excerpts from Romanian post disaster reports and textbooks concerning the earthquake World Directory of Crystallographers Allan L. Bednowitz, Armin P. Segmüller, 2013-04-17 A brief historical account of the background leading to the publication of the first four editions of the World Directory of Crystallographers was presented by G Boom in his preface to the Fourth Edition published late in 1971 That edition was produced by traditional typesetting methods from compilations of biographical data prepared by national Sub Editors The major effort required to produce a directory by manual methods provided the impetus to use computer techniques for the Fifth Edition The account of the production of the first computer assisted Directory was described by S C Abrahams in the preface of the Fifth Edition Computer composition which required a machine readable data base offered several major advantages The choice of typeface and range of characters was flexible Corrections and additions to the data base were rapid and once established it was hoped updating for future editions would be simple and inexpensive The data base was put to other Union uses such as preparation of mailing labels and formulation of lists of crystallographers with specified common fields of interest The Fifth Edition of the World Directory of Crystallographers was published in June of 1977 the Sixth in May of 1981 The Subject Indexes for the Fifth and Sixth Editions were printed in 1978 and 1981 respectively both having a limited distribution **UNIVERSITATEA DIN BUCUREȘTI**, 2025-01-01 Parcurșul instituției noastre istoria de 160 de ani a Universității din București care continuă istoria mai veche de 330 de ani a instituțiilor precursore în principal a Academiei Domnești se regăsește în capitolele acestui volum Primilor 150 de ani de istorie modernă prezentați în ediția anterioară a volumului li s-au adăugat între timp alți zece ani cîrora le au fost alocate paginile cuvenite **Romanian: An Essential Grammar** Ramona Gönczöl, 2007-09-12 This book is suitable for independent and classroom learners ideal for the beginner to intermediate student and takes the reader through the essentials of the language explaining each concept clearly and providing many examples of contemporary Romanian usage The book contains a chapter on each of the most common grammatical areas with Romanian and English examples extensive examples of the more difficult areas of the grammar an appendix listing relevant websites for further information on the Romanian language Vertebrates and Invertebrates of European Cities: Selected Non-Avian Fauna John G. Kelcey, 2015-10-19 Vertebrates and Invertebrates of European Cities Selected Non Avian Fauna is the first known account of the vertebrate and invertebrate fauna of several cities in Europe and throughout the rest of the world It excludes birds which are described in a companion volume The book contains eleven chapters about nine cities distributed throughout Europe The chapters start with the history of the cities which is followed by a description of the abiotic features such as geology climate air and water quality and then a brief account of the habitats The vertebrate chapters describe the fish amphibians reptiles and mammals that are known to occur in each city together with their status and the habitats in which they occur for

example housing industrial areas parks transport routes and rivers The invertebrate chapters contain an account of the presence status and habitats occupied by 6 8 of the major invertebrate groups including butterflies dragonflies and damselflies crickets and grasshoppers beetles molluscs spiders mites and springtails This volume has been written and edited to be accessible to a wide range of interests and expertise including academic biologists urban ecologists landscape architects planners urban designers undergraduates other students and people with a general interest in natural history especially cities not only in Europe but throughout the world Theory of the Earth's Shape V.C. Dragomir,D.N. Ghitau,M.S. Mihailescu,M.G. Rotaru,2017-01-31 Theory of the Earth s Shape considers the physical mathematical problems raised by the determination of the form of the planet thereby making a significant contribution to the technological scientific literature in this field This book is organized into six parts encompassing 29 chapters The first part entitled Physical Geodesy presents the theory of the determination of the gravitational field in the definition of which preference was given to the method of expansion in spherical harmonics recommended by the International Union of Geodesy and Geophysics in establishing the international Geodetic Reference System 1967 Part II deals with the principal aspects of Ellipsoidal Geodesy such as the methods of solving the geodetic problems on the reference ellipsoid Part III considers the main problems associated with Astro geodetic Triangulation particularly with the conception of materialization and the necessary measurements as the required adjustment procedures This part also provides approaches regarding the controlled analysis of angular measurements and the description of some original calculation and measurement methods Part IV concerns one of the methods of determining the spatial coordinates of the geodetic points in a unitary system such as the three dimensional geodesy which has had more concrete applications since the launching of the Earth s first artificial satellites Part V describes the methods for determining the terrestrial ellipsoid and the geoid as well as the conventional methods and the methods of Dynamical Geodesy Part VI discusses the geodetic methods for the determination of the movements of the Earth s crust along with an overall examination of the theoretical and practical aspects which in principle constitute the object of such activities
