Romanian Agriculture And Transition Toward The Eu:

Romanian Agriculture and Transition Toward the EU Kenneth J. Thomson, 2003-01-01 Of the ten Central and Eastern European countries that have applied for membership in the European Union Romania ranks among the largest and most impoverished Romania represents the final challenge in the European Union's enlargement to the east largely due to its major but underdeveloped agriculture and food sectors The agriculture industry which is a major component of the national economy extends its pervasive influence to both Romanian social life and environment Consequently the transition towards a market oriented economic system will pose new obstacles for the country's farmers processors traders and policymakers While identifying the impediments that surround Romanian agriculture and its inevitable progression towards transition is a simple task the challenges lie in recommending solutions Through careful analysis of numerous recent studies on reform policies in the Romanian agri food sector during its economic transition this comprehensive examination offers perspicacious suggestions and insights on the following topics in particular international trade credit for agricultural development price policies and rural development The conclusions reached are not only of domestic importance and application they are also of immediate relevance for many post socialist countries for which the agri food sector is a principal vehicle for rural development

The Common Agricultural Policy after the Fischler Reform Alessandro Sorrentino, Roberto Henke, 2016-03-23 Providing an updated state of the art report on the effects of the 2003 Common Agricultural Policy CAP reform this volume has a particular emphasis on the governance of institutional changes and national regional implementation Written from an agricultural economist's point of view and enriched by the contribution of political scientists and policy makers this book offers an updated report of the European debate on agricultural and rural policies an in depth analysis of the decoupling process of the agricultural financial support in Europe an analysis of the CAP implementation in the old and new Europe Member States a discussion on the future scenarios for the European Agricultural Policies Based on a selection of papers from the 109th Seminar of the European Association of the Agricultural Economists EAAE this book with a foreword by Franz Fischler also includes four commissioned contributions from leaders in the field including Sofia Davidova Roberto Esposti Tassos Haniotis and Johan Swinnen

The Common Agricultural Policy and Romanian Agriculture Jean Vasile Andrei, Mihaela Cristina Dragoi, 2019-08-27 The current evolution of the European economy suggests that in the near future research in agri food economy and agri food production and agricultural production systems and structures must be redesigned adapted and developed to respond to the lack of sustainability of agri food production systems and the current global food crisis This book analyses the agricultural paradigm transformations that occur as countries converge on the European agricultural model and what their impact is for sectoral development while emphasizing their contribution to the redefinition of rural agricultural communities and economy This book helps develop a theoretical framework by analysing the specialized empirical literature and techniques used in the field of agricultural economy research with a focus on the

transformation of Romanian agriculture in order to become integrated and respond to the globalization of markets **Rural Transition in Azerbaijan** Zvi Lerman, David Sedik, 2010-02-15 In 1995-96 the President of Azerbaijan Heydar Aliyev launched a program of agrarian reforms that caused a sweeping and irreversible shift from Soviet style collective agriculture to individual farming in his country. These reforms led to an impressive recovery and substantial productivity improvements in agriculture. The agrarian transition in Azerbaijan contrasts with that in Russia, Ukraine and Kazakhstan where land privatization has been accompanied by policies encouraging the persistence of large corporate farms and where agricultural recovery has been much less impressive. For this reason Azerbaijan is today viewed as one of the few examples of successful land reform in the former Soviet Union. The impact of the Aliyev agrarian reforms went far beyond the recovery of agricultural production. The new policies had a significant impact on rural poverty and they were instrumental in increasing the incomes of Azerbaijan's large rural population which relies on agriculture for a substantial part of the family budget. To understand the successes and limitations of land reform *Rural Transition in Azerbaijan* evaluates the record of rural reforms focusing on policy change, farm level performance and the impact of reforms on rural incomes and rural family well-being issues that today are at the core of the agenda in many international organizations **OECD Review of Agricultural Policies: Romania 2000** OECD, 2000-09-29 This study of Romania's agricultural policies analyses developments from the dramatic events of December 1989 to the present day preparations for accession to the European Union *Reinventing the Cuban Sugar Agroindustry* Jorge F. Pérez-López, Jose Alvarez, 2005-01-01 The demise of the international socialist community led to a loss in preferential markets for Cuban sugar industry. In response to the current crisis this volume gathers over a dozen recognized world experts on Cuban agroindustry to analyze specific topics and make recommendations that would reinvent the industry for effective transition to a free market environment **Measuring Social and Economic Change in Rural Russia** David J. O'Brien, V. V. Patsiorkovskiĭ, 2006-01-01 *Measuring Social and Economic Change in Rural Russia* is based upon nine household surveys in seven rural regions of Russia from 1991 to 2003 including a four wave panel study over an eight year period. The findings that O'Brien and Patsiorkovsky share in this important work are the only long term indicators of how ordinary people have learned to adapt to an economic system that was thrust upon them when the Soviet Union collapsed. Three main themes are explored: the relationship between formal and informal institutional change; regional responses to reforms; and the impact of household labor, social networks and community involvement and physical capital on inequality in material, social and psychological conditions. This comprehensive study's conceptual and interdisciplinary approach will appeal to anyone interested in the transition of countries from socialist to market economies **Russia's Food Policies and Globalization** Stephen K. Wegren, 2005-01-01 The post-Soviet period has witnessed Russia's increasing interdependence with other nations in its food trade as in the economy as a whole. President Putin has repeatedly identified international integration as an economic necessity if Russia is to share in the benefits of globalization. In Russia's Food

Policies and Globalization author Stephen K Wegren analyzes the primary questions affecting Russia and globalization How do Russia s domestic and external food policies affect its efforts at international integration How prepared is Russia for global economic integration for instance entrance into the World Trade Organization What are the structural economic and political obstacles that exist in Russia s food policies which in turn hinder closer integration In short will Russia integrate or fall behind and what is the role of food policy in deciding this crucial issue Through an analysis of Russia s contemporary food policies and strategies Wegren places Russia s economic development in a new international context Political scientists economists policymakers and scholars of the Soviet and post Soviet period as well as those interested in rural studies must read this book Greening Industrialization in Asian Transitional Economies A. P. J. Mol,Joost C. L. van Buuren,2003-01-01

Studying transition economies is one of the most challenging tasks faced by those who wish to understand the political social and economic changes that the world has undergone since the end of the Cold War Greening Industrialization in Asian Transitional Economies is a collection of essays which examine environmental performance and the transition to market economies particularly in China and Vietnam A comprehensive assessment of the state of industrial environmental management this informative volume looks at the movement for cleaner production from many perspectives analyzing its historical roots its political influences its implementation and its economic and technological feasibility Readers of these excellent essays will be left with an in depth understanding of both the necessity for environmental improvements in rapidly industrializing economies and the difficulties and challenges which this goal entails An ambitious and important project Greening Industrialization in Asian Transitional Economies provides a wide ranging analysis of a vital topic **Dragons**

with Clay Feet Max Spoor,Nico Heerink,Futian Qu,2007-01-01 Dragons with Clay Feet presents state of the art research on the impact of ongoing and anticipated economic policy and institutional reforms on agricultural development and sustainable rural resource in two East Asian transition and developing economies China and Vietnam The contributions to this volume focus on the regional and sectoral impact of transformational policies farm household decision making under a changing economic and institutional environment and potential trade offs between agricultural growth and sustainable land management in the two countries The analysis of household responses to economic policies and changing institution and their implications for agricultural production and sustainable resource use in East Asian transition economies is a relatively new research field This collection by a group of Chinese Vietnamese and international researchers reflect the rapid progress that is being made in this important research field **Making Romania Fit and Resilient for the Net-Zero Transition**

Augustus J Panton,2023-12-13 Romania is on track to become fit for 55 reducing its absolute emissions by 55 percent relative to 1990 by 2030 consistent with the European Green Deal However becoming carbon neutral by 2050 in an economically resilient and competitive manner would require an accelerated decarbonization path especially in the transport and building sectors two emission intensive sectors that are projected to raise Romania s carbon footprint over time The analysis

presented in this paper shows that complementing the existing decarbonization measures with further national carbon pricing instruments in these sectors could put Romania on track to carbon neutrality Crucially these complementary measures would incentivize green private investment and boost energy security while enhancing Romania's resilience and unlocking its potential in the global green value chains Agricultural Outlook, 1992
