A Companion to Roman Britain Malcolm Todd, 2008-04-15 This major survey of the history and culture of Roman Britain spans the period from the first century BC to the fifth century AD Major survey of the history and culture of Roman Britain Brings together specialists to provide an overview of recent debates about this period Exceptionally broad coverage embracing political economic cultural and religious life Focuses on changes in Roman Britain from the first century BC to the fifth century AD Includes pioneering studies of the human population and animal resources of the island *From Constantine to Charlemagne* Neil Christie, 2016-12-05 This book offers an overview of the archaeological and structural evidence for one of the most vital periods of Italian history spanning the late Roman and early medieval periods The chronological scope covers the adoption of Christianity and the emergence of Rome as the seat of Western Christendom the break up of the Roman west in the face of internal decay and the settlement of non Romans and Germanic groups the impact of Germanic and Byzantine rule on Italy until the rise of Charlemagne and of a Papal State in the later eighth century Presenting a detailed review and analysis of recent discoveries by archaeologists historians art historians numismatists and architectural historians Neil Christie identifies the changes brought about by the Church in town and country the level of change within Italy under Rome before and after occupation by Ostrogoths Byzantines and Lombards and reviews wider changes in urbanism rural exploitation and defence The emphasis is on human settlement on its varied levels town country fort refuge and the assessment of how these evolved and the changes that impacted on them Too long neglected as a Dark Age this book helps to further illuminate this fascinating and dynamic period of European history [Landscapes of Change](#) Neil Christie, 2017-03-02 Only in recent years has archaeology begun to examine in a coherent manner the transformation of the landscape from classical through to medieval times In *Landscapes of Change* leading scholars in the archaeology of the late antique and early medieval periods address the key results and directions of Roman rural fieldwork In so doing they highlight problems of analysis and interpretation whilst also identifying the variety of transformations that rural Europe experienced during and following the decline of Roman hegemony Whilst documents and standing buildings predominate in the urban context to provide a coherent and tangible guide to the evolving urban form and its society since Roman times the countryside in many ages remains rather shadowy a context for the cultivation gathering and movement of food and other resources inhabited by farmers villagers and miners Whilst the Roman period is adequately served through occasional extant remains and through the survey and excavation of villas and farmsteads as well as the writings of agronomists the medieval one is generally well marked by the presence of still extant villages across Europe often dependent on castles and manors which symbolise the so called feudal centuries But the intervening period the fourth to tenth centuries is that with the least documentation and with the fewest survivals What happened to the settlement units that made up the Roman rural world When and why do new settlement forms emerge *Landscapes of Change* is essential reading for anyone wanting an up to date

summary of the results of archaeological and historical investigations into the changing countryside of the late Roman late antique and early medieval world between the fourth and tenth centuries AD It questions numerous aspects of change and continuity assessing the levels of impact of military and economic decay the spread and influence of Christianity and the role of Germanic Slav and Arab settlements in disrupting and redefining the ancient rural landscapes

Pearce,2003 South Western Britain in the Early Middle Ages looks at the southwestern peninsula of Great Britain including the present counties of Cornwall Devon Dorset and Somerset during the late Roman and post Roman periods It considers the exploitation of lowland and upland landscapes and how the social organization this involved changed over time Ceremonial activity including burial and its relationship to Christian practice is discussed in detail The use of monastic foundation exchange connections with the Mediterranean and the development of centers of power are analyzed The book considers ideas of SBritishness and SGermanness and the way in which what became the West Saxon kingdom was created Above all it is concerned to stress the cultural similarities between South Western Britain and the wider Antique world as this gradually changed into the world of the early Middle Ages **Archaeologia Cambrensis** ,1994 *The Landscape of Roman Britain* Ken R. Dark,Petra Dark,1997 The Landscape of Roman Britain is the first book to combine the latest advances in the archaeology of the period with new scientific approaches to environmental reconstruction It brings together information from excavated sites and archaeological survey data with that provided by the study of ancient plant and animal remains in order to produce a fuller picture of the society economy and natural environment of the Romano British countryside than has until recently been possible Throughout recent discoveries and established interpretations are discussed and new analyses and reinterpretations are outlined making this a fascinating and timely book Written in an accessible style and clearly explaining each stage of the arguments employed this book will be essential reading for both amateur and professional archaeologists of Roman and medieval Britain and for students of British archaeology and landscape history **Yorkshire Archaeological Journal** ,1997 **The Yorkshire Archaeological Journal** ,1997 A review of history antiquities and topography in the county **Journal of the Derbyshire Archaeological and Natural History Society** ,2001 *Yorkshire Archaeological and Topographical Journal* ,2003 **The Evolution and Role of Burial Practice in Roman Wales** K. J. Pollock,2006 The established view of burials in Wales during the Roman period has been that with a few exceptions they would conform to Roman types Dr Pollock s detailed examination of the available evidence shows that on the contrary native burial types and influences can be found during the Roman period even in heavily Romanized areas An analysis of the data is provided chronologically geographically and in terms of the function of the surrounding settlement urban rural military etc *The Archaeological Journal* ,2004 **Discovering a Welsh Landscape** Ian Brown,2004 In the far north east corner of Wales a line of hills looks east across the plain into England guarding the way towards Snowdonia Designated an Area of Outstanding Natural Beauty the Clwydian Range has a very rich archaeology This beautifully illustrated book tells the story of this landscape a history of Wales in microcosm At the northern end of the Welsh March the Clwydian Range is a crossroads a place where outside influences have always been profound The book

consequently places the Range's archaeology in the context of the broader themes in Welsh and British history. We learn of the mammoth bones left in the area's caves by Paleolithic hunters, the great chain of Iron Age hillforts that crown the Range, the bronze brooches in Romano-British burials from the medieval period, motte and bailey castles and Gothic churches, the watercourses, mines and engine houses of the industrial era, the Range's links with the great poet Gerard Manley Hopkins. Throughout, the photographs capture the spirit of Hopkins' original landscape, plotted and pieced. The Clwydian Range is perhaps typical of Britain, where places have a great depth of historical connections. This book shows how much there is to be discovered. Ian Brown, formerly County Heritage Officer for Clwyd, managed the Clwydian Range Area of Outstanding Natural Beauty. Mick Sharp and Jean Williamson are two of Britain's leading archaeological and landscape photographers.

The Severn Estuary Stephen Rippon, 1997. The area that borders the Severn estuary is known as the levels and forms one of the most distinctive types of landscape in the UK. Stephen Rippon examines the ways in which this area has evolved.
