Romantic Readers The Evidence Of Marginalia:

Romantic Readers H. J. Jackson, 2008-10-01 When readers jot down notes in their books they reveal something of themselves what they believe what amuses or annoys them what they have read before But a close examination of marginalia also discloses diverse and fascinating details about the time in which they are written This book explores reading practices in the Romantic Age through an analysis of some 2 000 books annotated by British readers between 1790 and 1830 This period experienced a great increase in readership and a boom in publishing H J Jackson shows how readers used their books for work for socializing and for leaving messages to posterity She draws on the annotations of Blake Coleridge Keats and other celebrities as well as those of little known and unknown writers to discover how people were reading and what this can tell us about literature social history and the history of the book

Playing with the Book Hannah Field, 2019-07-02 A beautifully illustrated exploration of how Victorian novelty picture books reshape the ways children read and interact with texts The Victorian era saw an explosion of novelty picture books with flaps to lift and tabs to pull pages that could fold out pop up scenes and even mechanical toys mounted on pages Analyzing books for young children published between 1835 and 1914 Playing with the Book studies how these elaborately designed works raise questions not just about what books should look like but also about what reading is particularly in relation to children's literature and child readers Novelty books promised or threatened to make reading a physical as well as intellectual activity requiring the child to pull a tab or lift a flap to continue the story These books changed the relationship between pictures words and format in both productive and troubling ways Hannah Field considers these aspects of children's reading through case studies of different formats of novelty and movable books and intensive examination of editions that have survived from the nineteenth century She discovers that

children ripped tore and colored in their novelty books despite these books explicit instructions against such behaviors Richly illustrated with images of these ingenious constructions Playing with the Book argues that novelty books construct a process of reading that involves touch as well as sight thus reconfiguring our understanding of the phenomenology of reading

Explores how the idea of rare books was shaped by collectors traders and libraries from the sixteenth to the nineteenth centuries Using examples from across Europe David McKitterick looks at how rare books developed from being desirable objects of largely private interest to become public and even national concerns Subscription Theater Matthew Franks, 2020-08-28 Subscription Theater asks why turn of the century British and Irish citizens spent so much time money and effort adding their names to subscription lists Shining a spotlight on private play producing clubs public repertory theaters amateur drama groups and theatrical magazines Matthew Franks locates subscription theaters in a vast constellation of civic subscription initiatives ranging from voluntary schools and workers hospitals to soldiers memorials and Diamond Jubilee funds Across these enterprises Franks argues subscribers created their own spaces for performing social roles from which they had long been excluded Whether by undermining the authority of the Lord Chamberlain's Examiner of Plays and London's commercial theater producers or by extending rights to disenfranchised women and property less men a diverse cast of subscribers including typists plumbers and maids acted as political representatives for their fellow citizens both inside the theater and far beyond it Citizens prized a democratic or representative subscription list as an end in itself and such lists set the stage for the eventual public subsidy of subscription endeavors Subscription Theater points to the importance of printed ephemera such as programs tickets and prospectuses in questioning any assumption that theatrical collectivity is confined to the live performance event Drawing on new media as well as old Franks uses a database of over 23 000 stage productions to reveal that subscribers introduced nearly a third of the plays that were most frequently revived between 1890 and the mid twentieth century as well as nearly half of all new translations and they were instrumental in staging the work of such writers as Shaw and Ibsen whose plays featured subscription lists as a plot point or prop Although subscribers often are blamed for being a conservative force in theater Franks demonstrates that they have been responsible for how we value audience and repertoire today and their history offers a new account of the relationship between ephemera drama and democracy Literary History Writing, 1770-1820 April London, 2015-12-04 This investigation of literary history writing between 1770 and 1820 identifies the mode's distinction from canon formation as central to its cultural vitality Using

secret history memoir and the novel amongst other sources it invites a re thinking of literary history s place in late eighteenth and early nineteenth century print culture
