background and contextual information with detailed readings of Romantic texts *The Oxford Handbook of European Romanticism* Paul Hamilton, 2016-01-14 TThe Oxford Handbook to European Romanticism brings together leading scholars in the field to examine the intellectual literary philosophical and political elements of European Romanticism The book focuses on the cultural history of the period extending from the French Revolution to the uprisings of 1848 It begins with a series of chapters examining key texts written by major writers in languages including French German Italian Spanish Russian Hungarian Greek and Polish amongst others A second section then explores the naturally inter disciplinary quality of Romanticism exemplified by the different discourses with which writers of the time set up an internal comparative dynamic

These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of self understanding of the time Discourses typically advance their own claims to resume European culture collaborating with and at the same time trying to assimilate each other in the process The main examples featured here are history geography drama theology language philosophy political theory the sciences and the media Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and provocative overview of European Romanticism

“Romanticism” - and Byron Peter Cochran, 2009-03-26 Romanticism and Byron is a book in two parts In the first part Dr Cochran examines Romanticism and shows that it is a word meaning anything and therefore nothing It is an academic construct created by academics and has no basis in the writings of the early nineteenth century Its continued use argues Dr Cochran is a modern marketing phenomenon solely In the second part Dr Cochran examines the life and work of Byron in the non romantic context of his contemporaries He shows how Byron s antithetical nature created problems when he was forced into compromising situations with friends who were close to parts of his mind yet irreconcilable with one another This mobility argues Cochran was often an embarrassment for Byron s social life but of great benefit to his creativity This part of the book features chapters on Shelley Scott Blake Keats Coleridge and Wordsworth and is notable for the amount of original archive documentation with which Cochran illustrates his theme

Lacework or Mirror? Diary Poetics of Frances Burney, Dorothy Wordsworth and Mary Shelley Magdalena Ożarska, 2014-01-08 Lacework or Mirror Diary Poetics of Frances Burney Dorothy Wordsworth and Mary Shelley sets out to determine whether each of the diaries by three female writers namely Frances Burney Dorothy Wordsworth and Mary Shelley approximates the Philippe Lejeunean concept of the diary as lacework or the more sweeping view typical of the broadly conceived autobiography which Georges Gusdorf famously likened to the mirror The author explores Burney's Wordsworth's and Shelley's attempts at concealing the gaps between their narrating and narrated I's as well as examining their diary lacunae especially helpful for illustrating the gradual emergence of the diarists' individual selves Broader issues connected with diary poetics such as the use of metaphors and symbols the degree of reliance on dialogue and ensuing narrativity down to handling the past by means of anachronous eccentricities are also subject to examination The study is based on the assumption that the journal is a literary genre which can be investigated with tools routinely used for the examination of literary texts Yet beyond the issues of literariness in accordance with Philippe Lejeune's dictum the three journals reveal the writers' diaristic practices In fact it seems that issues of the journal genre and the journal practice cannot be divorced and neither can their lacework and mirror aspects
