Romanticism Children's Literature In:

Romanticism and Children's Literature in Nineteenth-Century England James Holt McGavran, 2009-10 These essays document and examine the transformation of children's literature during the Romantic period and trace Romanticism's influence on Victorian children's literature using a variety of critical approaches including neo-historicist, feminist, mythic, reader response and formalist.

Literature and the Child James Holt McGavran, James Holt McGavran, 1998-04 The Romantic myth of childhood as a transhistorical holy time of innocence and spirituality uncorrupted by the adult world has been subjected in recent years to increasingly serious interrogation. Was there ever really a time when mythic ideals were simple, pure and uncomplicated? The contributors to this book contend, although in widely differing ways and not always approvingly, that our culture is indeed still pervaded in this postmodern moment of the very late twentieth century by the Romantic conception of childhood which first emerged two hundred years ago. In the wake of the French Revolution and the Industrial Revolution, western Europe experienced another *fin de siècle* characterized by overwhelming material and institutional change and instability. By historicizing the specific political, social and economic conflicts at work within the notion of Romantic childhood, the essayists in *Literature and the Child* show us how little these forces have changed over time and how enriching and empowering they can still be for children and their parents. In the first section, *Romanticism Continued and Contested*, Alan Richardson and Mitzi Myers question the origins and ends of Romantic childhood. In *Romantic Ironies: Postmodern Texts*, Dieter Petzold, Richard Flynn and James McGavran argue that postmodern texts for both children and adults perpetuate the Romantic complexities of childhood. Next, in *The Commerce of Children's Books*, Anne Lundin and Paula Connolly study the production and marketing of children's classics. Finally, in *Romantic Ideas in Cultural Confrontations*, William Scheick and Teya Rosenberg investigate interactions of Romantic myths with those of other cultural systems.

Introducing Children's Literature Deborah Cogan Thacker, 2002

The Gothic in Children's Literature Anna Jackson, Roderick McGillis, Karen Coats, 2013-10-11 From creepy picture books to Harry Potter, Lemony Snicket, the *Spiderwick Chronicles* and countless vampire series for young adult readers, fear has become a dominant mode of entertainment for young readers. The last two decades have seen an enormous growth in the critical study of two very different genres: the Gothic and children's literature. The Gothic, concerned with the perverse and the forbidden, with adult sexuality and religious or metaphysical doubts and heresies, seems to represent everything that children's literature as a genre was designed to keep out. Indeed, this does seem to be very much the way that children's literature was marketed in the late eighteenth century at exactly the same time that the Gothic was really taking off, written by the same women novelists who were responsible for the promotion of a safe and segregated children's literature. This collection examines the early intersection of the Gothic and children's literature and the contemporary manifestations of the gothic impulse, revealing that Gothic elements can in fact be traced in children's literature for as long as children have been reading.
