Running Rome and its Empire Antonio Lopez Garcia, 2023-12-01 This volume explores the transformation of public space and administrative activities in republican and imperial Rome through an interdisciplinary examination of the topography of power Throughout the Roman world building projects created spaces for different civic purposes such as hosting assemblies holding senate meetings the administration of justice housing the public treasury and the management of the city through different magistracies offices and even archives These administrative spaces both open and closed characterised Roman life throughout the Republic and High Empire until the administrative and judicial transformations of the fourth century CE This volume explores urban development and the dynamics of administrative expansion linking them with some of the most recent archaeological discoveries In doing so it

examines several facets of the transformation of Roman administration over this period considering new approaches to and theories on the uses of public space and incorporating new work in Roman studies that focuses on the spatial needs of human users rather than architectural style and design This fascinating collection of essays is of interest to students and scholars working on Roman space and urbanism Roman governance and the running of the Roman Empire more broadly Ad Infinitum Nicholas Ostler,2009-05-26 The Latin language has been the one constant in the cultural history of the West for more than two millennia It has been the foundation of our education and has defined the way in which we express our thoughts our faith and our knowledge of how the world functions Indeed the language has proved far more enduring than its empire in Rome its use echoing on in the law codes of half the world in the terminologies of modern science and until forty years ago in the liturgy of the Catholic Church It is the unseen substance that makes us members of the Western world In his erudite and entertaining biography Nicholas Ostler shows how and why against the odds through conquest from within and without Latin survived and thrived even as its creators and other languages failed Originally the dialect of Rome and its surrounds Latin supplanted its neighbors to become by conquest and settlement the language of all Italy and then of Western Europe and North Africa Its cultural creep toward Greek in the East led it to copy and then ally with it in an unprecedented but invincible combination Greek theory and Roman practice delivered through Latin became the foundation of Western civilization Christianity a latecomer then joined the alliance and became vital to Latin s survival when the empire collapsed Spoken Latin re emerged as a host of new languages from Portuguese and Spanish in the west to Romanian in the east But a knowledge of Latin lived on as the common code of European thought and inspired the founders of Europe s New World in the Americas E pluribus unum Illuminating the extravaganza of its past Nicholas Ostler makes clear that in a thousand echoes Latin lives on ad infinitum The General History of the Christian Church from Her Birth to Her Final Triumphant State in Heaven: Chiefly Deduced from the Apocalypse of St. John ... explores the popular belief that the Age of Aquarius has already arrived when according to conventional astrology it is not due for many centuries to come He argues that the real Aquarian Age has indeed already arrived and did so in the 15th Century the same century historians claim as the beginning of modernity Continuing the journey he dives into our present and our future This fascinating book will appeal to astrologers archeo astronomers historians and everyone looking for a new perspective on the past the present and the future **Empires and Indigenous Peoples** Michael Maas,Fay A.

From the middle of the ninth to the close of the tenth century** Thomas Greenwood,1859 **Cathedra Petri**

Thomas Greenwood,1859 **The Tarragona Vortex** Lawrence J. McCrank,2024-04-01 Roman Tarraco was the foundation for what came afterward at the same site in Late Antiquity and the Islamic and Latin Christian periods but it was an overlay on an Iberian habitation Cissis a coastal trading post with the Phocaeen Greek partner Kesse a Punic counterpart on the other side of the River Tulsis and above them all a refuge fort on the summit of Mt Tarrakon This history traces the amalgamation of these and their Romanization during the Punic Wars I III and Rome s conversion of Tarraco into an imperial provincial capital It was a complex of the main army base a vast war industry the government for the Hispania Citerior that became the Tarraconensis a port and trade center for the Western Mediterranean It grew in population to become a major city with sophistication imitating everything Roman The Hispanic Romans converted this outpost into a walled fortress and magnificent hillside municipality whose city state encompassed the Camp de Tarragona as its territorium Its upper tier was built into a terraformed tri level monumental complex consisting of the temple ceremonial square a new forum and a circus

with an amphitheater below The hillside became its intramural residential district and old Cissis was overbuilt with a lower forum temple market and an entertainment area with a great theater baths gardens and the coastal shelf consisted of a warehouse row a manufacturing center fishing villages and an artificial port and waterworks for the Tulcis and harbor that demonstrated Roman advanced engineering just like the upper city showed off Roman architectural prowess and artistic tastes but also entertainment i e its love of racing and games bloodlust and violence and enjoyment of drama music and the brisque The province would have an extensive road system a proliferation of provincial towns wealthy villas and large scale farms The Tarraconensis was reduced in size during the re organizations of the Empire and the Roman Ulterior or Baetica became more urbanized as its population became more dense The powerful northeastern capital followed the history of Rome and decline of the Empire with its interminable wars barbarian invasions weakened civic religion and economic problems leading to the Visigohtic successor state in Late Antiquity Roman Tarraco was transformed into Tarracona but its monumental ruins and fabled history remained to be an inspiration to the medieval Restoration movement after the Islamic interlude These are the subjects of subsequent volumes in this series
