Migration, Mobility and Place in Ancient Italy Elena Isayev, 2017-08-31

Migration Mobility and Place in Ancient Italy challenges prevailing conceptions of a natural tie to the land and a demographically settled world It argues that much human mobility in the last millennium BC was ongoing and cyclical In particular outside the military context the foreigner in our midst was not regarded as a problem Boundaries of status rather than of geopolitics were those difficult to cross The book discusses the stories of individuals and migrant groups traders refugees expulsions the founding and demolition of sites and the political processes that could both encourage and discourage the transfer of people from one place to another In so doing it highlights moments of change in the concepts of mobility and the definitions of those on the move By providing the long view from history it exposes how fleeting are the conventions that take shape here and now

Silcox, Graham Roebuck, 2008 The essays collected in this volume explore many of the most interesting and some of the more surprising reactions of English people in the early modern period to their encounters with the mysterious and the foreign In this period the small and peripheral nation of English speakers first explored the distant world from the Arctic to the tropics of the Americas to the exotic East and snowy wastes of Russia recording its impressions and adventures in an equally wide variety of literary genres Nearer home fresh encounters with the mysterious world of the Ottoman Empire and the lure of the Holy Land and of course with the evocative wonders of Italy provide equally rich accounts for the consumption of a reading and theatergoing public This growing public proved to be in some cases naive and gullible in others urbanely sophisticated in its reactions to otherness or frankly incredulous of travelers tales BOOK JACKET Revival: The Common People of Ancient Rome (1911) Frank Frost Abbott, 2018-01-16 This book like

the volume on Society and Politics in Ancient Rome deals with the life of the common people with their language and literature their occupations and amusements and with their social political and economic conditions We are interested in the common people of Rome because they made the Roman Empire what it was They carried the Roman standards to the Euphrates and the Atlantic they lived abroad as traders farmers and soldiers to hold and Romanize the provinces or they stayed at home working as carpenters masons or bakers to supply the daily needs of the capital The other side of the subject which has engaged the attention of the author in studying these topics has been the many points of similarity which arise between ancient and modern conditions and between the problems which the Roman faced and those which confront us
