Collins, S. J., 2019-03-20 Inspired by the work of eminent scholar Richard Kieckhefer The Sacred and the Sinister explores the ambiguities that made and make medieval religion and magic so difficult to differentiate The essays in this collection investigate how the holy and unholy were distinguished in medieval Europe where their characteristics diverged and the implications of that deviation In the Middle Ages the natural world was understood as divinely created and infused with mysterious power This world was accessible to human knowledge and susceptible to human manipulation through three modes of engagement religion magic and science How these ways of understanding developed in light of modern notions of rationality is an important element of ongoing scholarly conversation As Kieckhefer has emphasized ambiguity and ambivalence characterize medieval understandings of the divine and demonic powers at work in the world The ten chapters in this volume focus on four main aspects of this assertion the cult of the saints contested devotional relationships and practices unsettled judgments between magic and religion and inconclusive distinctions between magic and science Freshly insightful this study of ambiguity between magic and religion will be of special interest to scholars in the fields of medieval studies religious studies European history and the history of science In addition to the editor the contributors to this volume are Michael D Bailey Kristi Woodward Bain Maeve B Callan Elizabeth Casteen Claire Fanger Sean L Field Anne M Koenig Katelyn Mesler and Sophie Page **The Lives of a Roman Neighborhood** Paul W. Jacobs, II, 2022-12-01 In this book Paul Jacobs traces the history of a neighborhood situated in the heart of Rome over twenty five centuries Here he considers how topography and location influenced its long urban development During antiquity the forty plus acre flood prone site on the Tiber s edge was transformed from a meadow near a crossroads into the imperial Circus Flaminius with its temples colonnades and a massive theater Later it evolved into a bustling medieval and early modern residential and commercial district known as the Sant Angelo rione Subsequently the neighborhood enclosed Rome s Ghetto Today it features an archaeological park and tourist venues and it is still the heart of Rome s Jewish community Jacobs study explores the impact of physical alterations on the memory of lost topographical

features He also posits how earlier development may be imprinted upon the landscape or preserved to influence future changes

Religious Poverty and the Profit Economy in Medieval Europe Lester K. Little, 1983 In this stimulating and important book Lester Little advances the original thesis that paradoxically it was the leading practitioners of voluntary poverty Franciscan and Dominican friars who finally formulated a Christian ethic which justified the activities of merchants moneylenders and other urban professionals and created a Christian spirituality suitable for townsmen Little has synthesized a vast body of specialized literature in Italian German French and English to write an interpretive essay which provides a new perspective on the interaction between economic and social forces and the religious movements advocating the apostolic ideal of voluntary poverty Little's book is a major contribution not only to the history of the religious movement of voluntary poverty but also to the interdisciplinary study of the middle ages

A Thing Done Tinney Sue Heath, 2019-12-14 Juggling is easy until you're juggling two sides of a lethal vendetta Florence 1216 Corrado the Fool's prank for hire began it but where is it going to end

Florence's noble families are up in arms and Corrado is pressed into service by both sides against his will. A peacemaking marriage could still quiet the outraged factions but that fragile alliance may crumble under pressure from an interfering woman, a scorned bride, and a demand for revenge. And only Corrado, the reluctant messenger, is in a position to see it all taking shape. He doesn't care who comes out on top but he does care a lot about surviving and about protecting those he loves, and he'll do whatever he must to prevent the enraged nobles from destroying his city. Will his famous wit and ingenuity be enough? Will anything? Inspired by real events, *A Thing Done* tells of a hapless David caught between warring Goliaths. Corrado's story makes it clear that the rich and powerful aren't the only ones who can make history: a wonderful job of demonstrating how minor, insignificant acts can have far-reaching consequences while weaving a great tale grounded in historical events. This is a must-read for medievalists. net *Lady of the Seven Suns* Tinney Sue Heath, 2019-09-01. A powerful noblewoman or a humble follower of the holy man from Assisi, Giacoma cannot possibly be both. Or can she? Rome, 1210. After tragedy shatters Giacoma's world, Francesco intervenes to save her sanity, her life, and her soul. She owes him everything. Her gratitude is boundless, but now she must thread her way between duty and faith, always striving to be worthy of Francesco's affectionate name for her, Brother Giacoma. She's no longer locked into the power struggle among Rome's noble families, but she can't turn her back on her sons, her household, and Rome's poorest citizens who depend on her charity. The brother's life of sacred poverty, begging for their daily bread, is not for her. But neither is she destined for Clare's cloister. A new path, as yet unexplored and unsigned, lies ahead for Giacoma dei Settesoli, and she will have to invent it as she goes. Based on the life of a real woman, this is the story of a stubborn quest for grace. If you like strong women of the past who insist on making their own way in a patriarchal society, you'll love *Lady of the Seven Suns*.

Widowhood and Visual Culture in Early Modern Europe Allison Levy, 2017-07-28. Whereas recent studies of early modern widowhood by social, economic, and cultural historians have called attention to the often ambiguous yet also often empowering experience and position of widows within society, *Widowhood and Visual Culture in Early Modern Europe* is the first book to consider the distinct and important relationship between ritual and representation. The fifteen new interdisciplinary essays assembled here read widowhood as a catalyst for the production of a significant body of visual material: representations of, for, and by widows, whether through traditional media such as painting, sculpture, and architecture, or through the so-called minor arts, including popular print, culture, medals, religious and secular furnishings, and ornament, costume, and gift objects in early modern Austria, England, France, Germany, Italy, and Spain. Arranged thematically, this unique collection allows the reader to recognize and appreciate the complexity and contradiction, iconicity and mutability, and timelessness and timeliness of widowhood and representation.

Between Orders and Heresy Jennifer Kolpacoff Deane, Anne E. Lester, 2022-04-27. *Between Orders and Heresy* foregrounds the dynamic, creative, and diverse late medieval religious landscapes that flourished within the spaces of social and ecclesiastical structures. This collection reconsiders the arguments put forward in Herbert Grundmann's monumental

book *Religious Movements in the Middle Ages* and challenges his traditional interpretive binary recognized as the shared origins of many medieval religious movements. The contributors explore the social relationships fostered between secular clergy members including parish priests, local canons and aristocratic confessors and examine the ways in which laypeople inspired and engaged in devotion beyond religious orders. Each essay in the volume considers a major theme in medieval religious history such as the implementation of apostolic ideals, pastoral relationships, crusade connections, vernacular traditions and reform. Organized to historicize and challenge the deeply embedded historiographical tendencies that have long distorted the complex dynamics of the late medieval world, *Between Orders and Heresy* is a major assessment of medieval religious belief and activity beyond and between the binary of orders and heresies. **The Mountains of Saint**

Francis: Discovering the Geologic Events That Shaped Our Earth Walter Alvarez, 2008-12-17 One of the world's leading geologists takes readers into Italy's Apennine Mountain Range, the Mountains of Saint Francis, on a journey to discover the fascinating secrets of the Earth's deep history. Modern geologists, among them, showed in the last decades of the twentieth century that the history of our planet has witnessed events profoundly more dramatic than even the most spectacular chapters in human history. More violent than wars, more life-altering than revolutions, understanding the geologic events that have shaped the Earth's surface is the quest and the passion of geologists. In the knowledgeable and graceful prose of Alvarez, general readers are led to explore the many mysteries that our planet guards. The author has chosen Italy as a microcosm in which to explore this amazing past for several reasons. First, it is the land where the earliest geologists learned how to read the history of the Earth written in nature's rock archives. Second, it is where Alvarez and his Italian geological friends have continued to decipher the rock record, uncovering more historical episodes from the Earth's past. And third, the lovely land of Italy is unusually rich in geological treasures and offers examples of the key processes that have created the landscapes of the entire world. *The Mountains of Saint Francis* begins in Rome. We discover that the landscape of Rome was built by violent volcanic eruptions in the very recent past, almost certainly witnessed by our human ancestors. Next, we travel to Siena and come face to face with a fundamental discovery of the geologists: that much of the dry land that we currently inhabit was once underwater, beneath ancient seas or oceans. Then we stop in the small medieval city of Gubbio and contemplate the amazing secret that the limestone rocks kept hidden for 65 million years: that a huge asteroid smashed into the Earth, disrupting the environment so severely that the dinosaurs and perhaps half of the other forms of life inhabiting the Earth at the time disappeared forever, opening the way for the rise of the mammals and eventually of humans. The impact theory that came from those Italian limestones at Gubbio was one of the great geological discoveries of the twentieth century. Just as important to the field of geology was the theory of plate tectonics, the understanding that the outer layer of the Earth is divided into crustal plates that move around, sometimes carrying continents into collisions with one another, like the great collision between Italy and Europe that built the Alps. And yet to explain the Mountains of Saint Francis requires something

more than a collision between continents These are mountains that are still jealously guarding the secret of their past and in this book we go along with the geological detectives as they try to uncover that secret It is a journey that has seen the land of Italy lifted out of the sea squashed and folded torn apart left high and dry when the Mediterranean Sea evaporated away and then flooded when the Atlantic waters poured back in The story of the Earth s history is fascinating in its own right but with Alvarez as the tour guide the journey takes on a human dimension full of stories about the landscape and history of Italy and about the great geologists who uncovered the deep past of this land It is a journey recounted in warm tones and subtle colors reflecting the transcendent beauty of Italy itself
