in the Roman world what were children's concerns, interests and beliefs and whether we can find traces of children's own cultures. By combining different theoretical approaches and source materials, the contributors explore the environments in which children lived, their experience of everyday life and what the limits were for their agency. The volume brings together scholars of archaeology and material culture, classicists, ancient historians, theologians and scholars of early Christianity and Judaism, all of whom have long been involved in the study of the social and cultural history of children. The topics discussed include children's living environments, clothing, childhood care, social relations, leisure and play, health and disability, upbringing and schooling, and children's experiences of death. While the main focus of the volume is on Late Antiquity, its coverage begins with the early Roman Empire and extends to the early ninth century CE. The result is the first book-length scrutiny of the agency and experience of pre-modern children. Marcus Agrippa Lindsay Powell, 2015-02-28

The authoritative biography of the ancient Roman general and loyal deputy to Emperor Augustus by the acclaimed historian and author of *Augustus at War*. When Gaius Octavius became the first emperor of Rome, Marcus Agrippa was by his side. As the emperor's loyal deputy, he waged wars, pacified provinces, beautified Rome and played a crucial role in establishing the Pax Romana, but he always served knowing that he would never rule in his own name. Why he did so and never grasped power for himself has perplexed historians for centuries. In this authoritative biography, historian Lindsay Powell offers a penetrating new assessment of Agrippa's life and achievements. Following Caesar's assassination, Agrippa was instrumental in asserting the rights of his friend Gaius Octavius as the dictator's heir, seeing him crowned Emperor Augustus. Agrippa then established a reputation as a bold admiral, defeating Marcus Antonius and Queen Cleopatra at the Battle of Actium and ending bloody rebellions in the Cimmerian, Bosphorus, Gaul, Hispania and Illyricum. Agrippa was also an influential statesman and architect. He established the vital road network that turned Julius Caesar's conquests into viable provinces, overhauled Rome's drains and aqueducts and built the original Pantheon. Marrying Augustus's daughter Julia the Elder, Agrippa became co-ruler of the Roman Empire until his death in 12 BC. His bloodline lived on in the imperial family through Agrippina the Elder, his grandson Caligula and great grandson Nero. Roman Urbanism Helen Parkins, 2005-08-18

The contributors to this volume provide an accessible and jargon-free insight into the notion of the Roman city, what shaped it and how it both structured and reflected Roman society. Roman Urbanism challenges the established economic model for the Roman city and instead offers original and diverse approaches for examining Roman urbanization, bringing the Roman city into the nineties. Roman Urbanism is a lively and informative volume, particularly valuable in an age dominated by urban development.
