## Rome Reunion:

**Catholic and Reformed** Anthony Milton, 2002-05-09 Religious controversy was central to political conflict in the years before the English Civil War Where earlier historians have focused more narrowly on the doctrine of predestination Dr Milton analyses the broader attitudes which underlay notions of religious orthodoxy Through the first comprehensive analysis of how contemporaries viewed the Roman and foreign Reformed churches in the early Stuart period Milton demonstrates the way in which an author's choice of a particular style of religious discourse could be used either to mediate or to provoke religious conflict This study challenges many current historical orthodoxies It identifies the theological novelty of Laudianism but also exposes areas of ideological tension within the Jacobean Church Its wide ranging conclusions will be of vital concern to students of early Stuart religion and the origins of the English Civil War **A Dictionary of English Church History**

1934 this book contains the second of three volumes on the origin and progress of the Christian faith from its origins in Judaism until the early twentieth century Volume two reviews the spread of Christianity during the Roman Empire as well as the Church's status in Western Europe during the Middle Ages and the English Reformation This book will be of value to anyone with an interest in the history of Christianity and its development *America*, 1911 *New Faith in Ancient Lands*

Heleen Murre-van den Berg, 2007-03-31 Over the centuries the Middle East has held an important place in the religious consciousness of many Christians in West and East In the nineteenth century these interests culminated in extensive missionary work of Protestant and Roman Catholic organisations among Eastern Christians Muslims and Jews The present volume in articles written by an international group of scholars discusses themes like the historical background of Christian geopiety among Roman Catholics and Protestants and the internal tensions and conflicting aims of missions and missionaries such as between nationalist and internationalist interests between various rival organisations and between conversionalist and civilizational aims of missions in the Ottoman Empire In a synthetic overview and a comprehensive bibliography an up to

**Purification of Memory** Ambrose Mong,2015-06-25 Although its various bodies boast a combined total of at least 300 million members the Eastern Orthodox Church is widely perceived among members of other denominations to be an exotic branch of the faith often shrouded in mysticism and misunderstanding that has been exacerbated by the longstanding Eastern Western split In *Purification of Memory* Ambrose Mong casts light on the true nature of Orthodox theology illuminating the thinking of eight distinguished modern Orthodox theologians who have made important contributions on topics as ecclesiology ecumenism Christology and Mariology Approaching the work of John Meyendorff Nicholas Afanasiev John Zizioulas Georges Florovsky Sergius Bulgakov Vladimir Lossky Nicolas Berdyaev and Jaroslav Pelikan from an ecumenical standpoint Mong deftly draws comparisons with the theology of their Roman Catholic counterparts to reveal points on which the two traditions have much more in common than either side will always admit The author interweaves these comparisons with a fascinating exposition of the history of the schism between the Eastern and Western Churches to demonstrate decisively that in spite of the bitter mistrust dividing them they share a common heritage which could and should serve as a basis for reunification Before old wounds can mend however a healing process of forgetting characterized by Pope John Paul II as a purification of memory must take place to clear the path towards a long awaited return to unity      **Leo XIII and Anglican Orders** Charles Lindley Wood Halifax, 2nd Viscount,1912      *The Intellectual Crisis in English Catholicism* William J. Schoenl,2017-09-08 This volume first published in 1982 examines the attempts of English liberal Catholics to reconcile their Church with secular culture and provides an account of the development of liberal Catholicism in England in the late nineteenth and early twentieth centuries This work was written not only for specialists in religious history but for all readers who might be interested in this seminal period of Catholicism It is a study in religious intellectual and cultural history      *Leo XIII and Anglican Orders* Charles Lindley Wood Halifax (Viscount),1912      *The Church in our Times* Rupert E. Davies,2017-04-25 During the last three quarters of a century the rate and character of change in all human affairs have been phenomenal How has the Christian church in its various forms reacted to this series of revolutions revolutions which have often vitally affected its own ways of thinking its styles of life and its worship In particular how has it responded to the idea of visible Christian unity which long lay dormant but now has taken fire in the lives of millions of its members This book seeks to answer these and similar questions It gives what is at many points an inside story of the significant events since the author has taken an active part and often a leading part in a great deal of what he describes
