Cincinnati Magazine ,1979-12 Cincinnati Magazine taps into the DNA of the city exploring shopping dining living and culture and giving readers a ringside seat on the issues shaping the region *Sufism and Zen in the West* Saeko Yazaki,Michael Conway,2025-02-20 Historically and culturally Sufism and Zen may not seem to have anything in common However in the West their spiritual messages are often perceived as strikingly similar In this book scholars analyse the ways in which Sufism and Zen were introduced to and developed in the West The collection shows that the popularity of these religions arose not because of the substantive shared elements within the two traditions but because their promoters in the West employed similar strategies to respond to the interests of a modern Western audience The first book to make a close comparison of Sufism and Zen this study is an important contribution to understanding Western religious life and processes of easternisation It sheds new light on how Sufism and Zen came to represent a spirituality that is both countercultural and in touch with modern sensitivities

**Understanding Interreligious Relations** David Cheetham,Douglas Pratt,David Thomas,2013-11-21 The ways in which religious communities interact with one another is an increasing focus of scholarly research and teaching Issues of interreligious engagement inclusive of dialogue more specifically and relations more generally attract widespread interest and concern In a religiously pluralist world how different communities get along with each other is not just an academic question it is very much a focus of socio political and wider community attention The study of religions and religion in the 21st century world must necessarily take account of relations within and between religions whether this is approached from a theological historical political or any other disciplinary point of view Understanding Interreligious Relations is a reference work of relevance to students and scholars as well as of interest to a wider informed public It comprises two main parts The first provides expositions and critical discussions of the ways in which the other has been construed and addressed from within the major religious traditions The second presents analyses and discussions of key

issues and topics in which interreligious relations are an integral constituent The editors have assembled an authoritative and scholarly work that discusses perspectives on the religious other and interreligious relations that are typical of the major religious traditions together with substantial original chapters from a cross section of emerging and established scholars on main debates and issues in the wider field of interreligious relations

**The Woman's Voice** Patsy Rodenburg, 2023-02-09 Why are so many women still not properly listened to Why do they sometimes feel that they are less interesting than they are Why do they often rush when they speak Why do some women feel the pressure to sound like little girls From one of the world's leading experts on the voice comes this call to arms for women to reclaim their voices Using elements of experience and practice from her prolific career Patsy Rodenburg examines these questions and many more to decipher what lies at the heart of female empowerment From the age of four Rodenburg knew that she found communication difficult Her struggle with her own voice set her on the journey that led her to discover her vocation She has spent her life re-finding and re-empowering voices particularly the lost voices of women Watching her highly intelligent working class mother and grandmother ignored and often silenced gave her the insight to investigate why that was and how to help women overcome this centuries old issue With warmth and humour Rodenburg interrogates Shakespeare's texts and his presentation of female characters develops the notion of rhetoric in relation to the female voice and applies concepts explored in her previous books including *The Three Circles of Energy* And perhaps most crucially through arguing that power and voice are directly linked to breath Rodenburg makes the case that Western society's oppression of women has diminished their natural ability to breathe Exploring the female voice through practical exercises and stories from the front line as well as profoundly personal and formative experiences from her own life Rodenburg defines the art of accessing the voice within and reclaiming the woman's right to speak *The Woman's Voice* is also available in audiobook format from audiobook retailers

Prebish, 1999-06-07 Since the 1960s Buddhism in America has been viewed through the lens of idealism generally associated with the spiritual quest of baby boomers This portrayal has been accurate only to a degree Charles Prebish's *Luminous Passage* is the first account in a new generation of commentary to demonstrate the complexity and variety of this tradition as it establishes roots in this country This book will surely stand as one of the most comprehensive assessments of Buddhism in the United States at the turn of the millennium Richard Seager Hamilton College

**Daoist Phenomenology** Jay Goulding, 2025-05-01 Jay Goulding's *Daoist Phenomenology* represents a lifelong project of interpolating the works of Martin Heidegger with the interweavings of Daoism and Zen Illustrating styles of reading complex texts from Europe and East Asia Goulding moves away from horizontal reading of simple comparisons on a single plain to vertical reading as a deep dive of ideas into ancient worlds Vertical Reading is hermeneutic strategy that captures the depth of connection between phenomenology and Daoism especially Heidegger and classical Daoists Laozi and Zhuangzi His method reveals Daoist implications of Dogen's Zen and draws on

writing and ideas from popular culture including Jules Verne H P Lovecraft Philip K Dick George Lucas Star Wars universe and martial artist Bruce Lee Original and wide ranging Goulding s interconnected approach to phenomenology and Daoism enhances and promotes further intercultural dialogues between two great traditions in world philosophies      **Deep Religious Pluralism** David Ray Griffin,2005-01-01 A groundbreaking scholarly work Deep Religious Pluralism is based on the conviction that the philosophy articulated by Alfred North Whitehead encourages not only religious diversity but deep religious pluralism Arising from a 2003 Center for Process Studies conference at Claremont Graduate University this book offers an alternative to the version of religious pluralism that has dominated the recent discussion especially among Christian thinkers in the West which has evoked a growing call to reject pluralism as such Renowned contributors of a diversity of faiths include Steve Odin John Shunji Yakota Sandra B Lubarsky Jeffery D Long Mustafa Ruzgar Christopher Ives Michael Lodahl Chung ying Cheng Wang Shik Jang and John B Cobb Jr      **Patterns** ,1979
