Department of Justice, 1910 **Women and the Making of Built Space in England, 1870-1950** Elizabeth Darling, Lesley Whitworth, 2017-03-02 This interdisciplinary collection explores the relationships between women and built space in England between the 1870s and the 1940s Historians working in cultural literary architectural urban design labour and social history approach the topic through case studies of often neglected organisations individuals practices and initiatives Included are East End rent collectors tenants diarists and correspondents the All Europe House the Women's Co-operative Guild the Housewives Committee of the Council of Industrial Design provincial and metropolitan exhibitors and activists of varying kinds Moving beyond the study of buildings and their designers the volume considers the making of space in its broadest sense from the production of discourses to the consumption of domestic appliances and the performance of roles as diverse as social reformers committee members and homemakers It thereby demonstrates that women made a significant contribution to the creation of modern built environments in both public and private spheres Keith's Beautiful Homes Magazine, 1912 **Keith's Magazine on Home Building**, 1904 **Laws Respecting Landlords, Tenants, and Lodgers** LAWS., 1812 An Anthropology of Futures and Technologies Débora Lanzeni, Karen Waltorp, Sarah Pink, Rachel C. Smith, 2022-12-30 This book examines emerging automated technologies and systems and the increasingly prominent roles that each plays in our lives and our imagined futures It asks how technological futures are being constituted and the roles anthropologists can play in their making how anthropologists engage with emerging technologies within their fieldwork contexts in research which seeks to influence future design how to create critical and interventional approaches to technology design and innovation and how a critical anthropology of the way that emerging technologies are experienced in everyday life circumstances offers new insights for future making practices In pursuing these questions this book responds to a call for new anthropologies that respond to the current and emerging technological environments in which we live environments for which thinking critically about the possible plausible and impossible futures are no longer sufficient Taking the next step this book asserts that anthropology must now propose alternative ways rooted in ethnography to approach and engage with what is coming and to contest dominant narratives of industry policy and government and to respond to our contemporary context through a public vocal and interventional approach Cha-No-Yu A. L.
