1944 Jay Winik, 2015-09-22 Chronicles the events of 1944 to reveal how nearly the Allies lost World War II citing the pivotal contributions of FDR Churchill and Stalin Novelist **Talking American History** Ron Briley, 2020-07-02 Offering an alternative to encyclopedic textbooks that confirm Henry Ford's complaint that the study of history is just one damned thing after another it provides an informal and conversational narrative history of the American experience from the Colonial period to the present day Above all history is a story and the story of America is a complicated and contested tale Rather than simply the exceptionalism of a shining city upon a hill the American saga includes a dark stain of prejudice and nativism still

present within the national fabric Beginning with the assault upon Native lands and culture along with the introduction of racial slavery patterns of exploitation and greed fostering gender racial and class inequality are an essential part of America's story Themes of prejudice and inequality however are offset by the promise of social justice and an egalitarian America outlined by Thomas Jefferson's Declaration of Independence Elizabeth Cady Stanton's Seneca Falls Declaration of Principles Abraham Lincoln's Gettysburg Address Franklin D Roosevelt's The Four Freedoms and Martin Luther King Jr's I Have a Dream oratory While considering topics such as Presidential leadership Talking American History emphasizes the efforts of American reformers dreamers freedom fighters dissenters radicals and workers to move the nation toward the democratic promise laid out in its founding documents The framework is a traditional political history narrative told from a progressive perspective This is an interpretation with which not all readers will agree but the intention is to facilitate dialogue and debate that are imperative for the survival of American democracy

Hitler and America Klaus P. Fischer, 2011-05-26 In February 1942 barely two months after he had declared war on the United States Adolf Hitler praised America's great industrial achievements and admitted that Germany would need some time to catch up The Americans he said had shown the way in developing the most efficient methods of production especially in iron and coal which formed the basis of modern industrial civilization He also touted America's superiority in the field of transportation particularly the automobile He loved automobiles and saw in Henry Ford a great hero of the industrial age Hitler's personal train was even code named Amerika In Hitler and America historian Klaus P Fischer seeks to understand more deeply how Hitler viewed America the nation that was central to Germany's defeat He reveals Hitler's split minded image of America America and Amerika Hitler would loudly call the United States a feeble country while at the same time referring to it as an industrial colossus worthy of imitation Or he would belittle America in the vilest terms while at the same time looking at the latest photos from the United States watching American films and amusing himself with Mickey Mouse cartoons America was a place that Hitler admired for the can do spirit of the American people which he attributed to their Nordic blood and envied for its enormous territorial size abundant resources and political power Amerika however was to Hitler a mongrel nation grown too rich too soon and governed by a capitalist elite with strong ties to the Jews Across the Atlantic President Franklin Delano Roosevelt had his own far more realistically grounded views of Hitler Fischer contrasts these with the misconceptions and misunderstandings that caused Hitler in the end to see only Amerika not America and led to his defeat

The Hidden Campaign Hugh E. Evans, 2016-07-08 In early 1944 with the outcome of World War II by no means certain many in the United States felt that FDR as wartime Commander in Chief was an indispensable part of prosecuting the war to a victorious conclusion Yet although only 62 Roosevelt was mortally ill with congestive heart disease a fact that was carefully shielded from the American public prior to the election of 1944 In a media environment where we get more details about politicians' health than we sometimes prefer it is hard to imagine how a paper as authoritative as The New York Times could describe FDR's death as

sudden and unexpected on its front page Dr Hugh Evans looks at the issue of Roosevelt s health not only from a medical ethics perspective but also with a keen eye for the political and media considerations that led to the decision to run and not disclose the extent of Roosevelt s illness

A World Destroyed Martin J. Sherwin, 2003-08-19 Continuously in demand since its first prize winning edition was published in 1975 this is the classic history of the development of the American atomic bomb the decision to use it against Japan and the origins of U S atomic diplomacy toward the Soviet Union In his Preface to this new edition the author describes and evaluates the lengthening trail of new evidence that has come to light concerning these often emotionally debated subjects The author also invokes his experience as a historical advisor to the controversial aborted 1995 Enola Gay exhibit at the National Air and Space Museum of the Smithsonian Institution This leads him to analyze the impact on American democracy of one of the most insidious of the legacies of Hiroshima the political control of historical interpretation Reviews of Previous Editions The quality of Sherwin s research and the strength of his argument are far superior to previous accounts New York Times Book Review Probably the definitive account for a long time to come Sherwin has tackled some of the critical questions of the Cold War s origins and has settled them in my opinion Walter LaFeber Cornell University One of those rare achievements of conscientious scholarship a book at once graceful and luminous yet loyal to its documentation and restrained in its speculations Boston Globe
