**Ancient Mediterranean Religions** John C. Stephens, 2016-06-22 This book offers a clear and concise historical overview of the major religious movements of the ancient Mediterranean world existing from the time of the second millennium BCE up until the fourth century CE including both the Judeo Christian and pagan religious traditions Recognizing the significant role of religious institutions in human history and acknowledging the diversity of religious ideas and practices in the ancient Mediterranean world religion is defined as a collection of myths beliefs rituals ethical practices social institutions and experiences related to the realm of the sacred cosmos Without focusing

too much attention on technicalities and complex vocabulary the book provides an introductory road map for exploring the vast array of religious data permeating the ancient Mediterranean world Through an examination of literary and archeological evidence the book summarizes the fundamental religious beliefs and practices of the ancient Near Eastern world including the religious traditions of ancient Mesopotamia Egypt and Israel Turning westward the fascinating world of ancient Greek and Roman religion is considered next The discussion begins with a description of Minoan Mycenaean religion followed by a consideration of classical Roman and Greek religion Next the numerous religious movements that blossomed during Hellenistic Roman times are discussed In addition the fundamental theological contributions of various Greco Roman philosophical schools of thought including Orphism Stoicism Pythagoreanism Platonism and Neo Platonism are described Greco Roman philosophy functioned as a quasi religious outlook for many and played a decisive role in the evolution of religion in the classical and Hellenistic period The theological speculations of the philosophers regarding the nature of God and the soul made a huge impact in religious circles during the classical and Hellenistic era Moving forward in history from archaic and classical times to the later Hellenistic Roman period the old religious order of the past falls by the wayside and a new updated religious paradigm begins to develop throughout the Mediterranean world with a greater emphasis being placed upon the religious individual and the expression of personal religious feelings There are several important social and historical reasons for this shift in perspective and these factors are explained in the chapter focusing upon personal religion in Hellenistic times Since the entire religious topography of the ancient Mediterranean world is rarely outlined in a single volume this book will be a welcome addition to anyone s library

*Understanding Self and Others in the Postmodern World* Richard E. Bailey Ph. D.,2013 *Understanding Self and Others in the Postmodern World* is unlike most books directed at giving people insight into themselves in that it is addressed to those who want to think about their lives relationships with others and how Western culture has arrived at the Postmodern World This book examines seven different worldviews that have become dominant for periods of time in the history of Western culture The author explains that although all worldviews share the same structure and characteristics they vary markedly in their contents Further a worldview molds those entering it after its own image Those readers 1 who identify their own assumptions about the nature of reality what it means to be a human being and the truth will gain insight into themselves And identifying the assumptions held by others on these matters will give the reader insight into them The problem in the Postmodern World is that we live and work with people who live in these different worlds That situation has invited disagreement and conflict which unresolved has led to the chaos that is characteristic of our time The solution before the nations of the West is that each citizen must grant to all others the same rights to life liberty and the pursuit of happiness he or she claims for him or herself
