Roots Of Isolationism Congressional Voting And Presidential Leadershi

Robert Higgs, Carl P. Close

Roots Of Isolationism Congressional Voting And Presidential Leadership:

The Roots of Isolationism Leroy N. Rieselbach, 1966 **John William McCormack** Garrison Nelson, 2017-03-23 In the first biography of U S House Speaker John W McCormack author Garrison Nelson uncovers previously forgotten FBI files birth and death records and correspondence long thought lost or buried For such an influential figure McCormack tried to dismiss the past almost erasing his legacy from the public s mind John William McCormack A Political Biography sheds light on the behind the curtain machinations of American politics and the origins of the modern day Democratic party facilitated through McCormack s triumphs McCormack overcame desperate poverty and family tragedy in the Irish ghetto of South Boston to hold the second most powerful position in the nation By reinventing his family history to elude Irish Boston s powerful political gatekeepers McCormack embarked on a 1928 1971 House career and from 1939 71 the longest house leadership career Working with every president from Coolidge to Nixon McCormack s social welfare agenda which included Social Security Medicare and Medicaid immigration reform and civil rights legislation helped commit the nation to the welfare of its most vulnerable citizens By helping create the Austin Boston Connection McCormack reshaped the Democratic Party from a regional southern white Protestant party to one that embraced urban religiously and racially diverse ethnics A man free of prejudice John McCormack was the Boston Brahmin s favorite Irishman the South s favorite northerner and known in Boston as Rabbi John the Jews favorite Catholic American Writers and the Approach of World War II, 1930-1941 Ichiro Takayoshi, 2015 Ichiro Takayoshi s book argues that World War II transformed American literary culture From the mid 1930s to the American entry into World War II in 1941 pre eminent figures from Ernest Hemingway to Reinhold Neibuhr responded to the turn of the public s interest from the economic depression at home to the menace of totalitarian systems abroad by producing novels short stories plays poems and cultural criticism in which they prophesied the coming of a second world war and explored how America could prepare for it The variety of competing answers offered a rich legacy of idioms symbols and standard arguments that were destined to license America s promotion of its values and interests around the world for the rest of the twentieth century Ambitious in scope and addressing an enormous range of writers thinkers and artists this book is the first to establish the outlines of American culture during this pivotal period Provided by publisher Isolationist States in an Interdependent World Helga Turku, 2016-05-06 States that withdraw from the international system provide insight into an unexplored area of international relations in terms of rationality self interest power politics cooperation and alliances Indeed isolationism in an interdependent state system goes against the logic of modern society and state systems Using historical comparative and inductive analysis Helga Turku explains why states may choose to isolate themselves both domestically and internationally using comparative historical analysis to flesh out isolationism as a concept and in practice The book examines extreme forms of self imposed domestic and international isolation in an interdependent international system noting the effects on both the immediate interests of a ruling regime and

the long term national interests of the state and the populace

Ideologies and Institutions Richard J. Piper, 1997-05-08 In this important and original book J Richard Piper provides the most comprehensive examination to date of the profound impact of ideological prescriptions on twentieth century American politics Piper analyzes the institutional and constitutional developments associated with the American conservative liberal paradigm from the New Deal to the present focusing on constitutional jurisprudence presidential congressional relations the role of the judiciary federalism and the administrative state Concluding that America's competing constitutional philosophies frequently serve not as ends in themselves but as instruments for attaining power and policy goals Piper raises significant questions about the future of the conservative liberal dichotomy that has characterized American politics since the New Deal *Ideologies and Institutions* is unique in its focus on institutional prescriptions and its integration and synthesis of extensive history political science and sociology literature Anyone interested in constitutional issues political history and the distinctions between the liberal and conservative philosophies will find *Ideologies and Institutions* valuable

[The ^AOxford Handbook of the Political Economy of International Trade](#) Lisa L. Martin, 2015-04-23 The Oxford Handbook of the Political Economy of International Trade presents the most up to date review of scholarship in this field Building on an understanding of the economic interests that drive international trade political scientists integrate theories of domestic society domestic institutions and international organizations to further our understanding of this vital force of globalization This volume both surveys established theory and showcases cutting edge research

Search for the American Right Wing William B. Hixson Jr., 2015-03-08 This book is a creative synthesis of the published scholarly research on the contemporary American right wing from the rise of Senator Joseph McCarthy to the election of Ronald Reagan as President Unlike most other syntheses it directly engages that research by critically analyzing the major explanations emerging from it Emphasizing neither the lives and backgrounds of the scholars that he discusses nor paradigms within the social sciences as a whole William Hixson focuses on the way the concepts of individual researchers have interacted with accumulating evidence on the American right and how this evidence has led to new and more comprehensive theories Hixson first summarizes and evaluates the research on the major developments analyzed by scholars the social sources of McCarthyism the radical right of the early 1960s George Wallace's constituency in his Presidential campaigns and the emerging new right of the late 1970s He then compares the interpretations of the two most influential students of the right wing Seymour Martin Lipset and Michael Paul Rogin Finally he offers his own explanations suggesting that the right wing is both a mass and elite phenomenon that its durability comes from its appeal to the upwardly mobile especially in economically expanding regions and that far from being either traditionalist or reactive it represents a proactive defense of values associated with late nineteenth century modernization Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve

the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Democracy and Diplomacy** Melvin Small,1996 The book gives particular attention to the events of the twentieth century when the United States became a major power and then a superpower **Trust in International Cooperation** Brian C. Rathbun,2011-12-01 Trust in International Cooperation challenges conventional wisdoms concerning the part which trust plays in international cooperation and the origins of American multilateralism Brian C Rathbun questions rational institutionalist arguments demonstrating that trust precedes rather than follows the creation of international organizations Drawing on social psychology he shows that individuals placed in the same structural circumstances show markedly different propensities to cooperate based on their beliefs about the trustworthiness of others Linking this finding to political psychology Rathbun explains why liberals generally pursue a more multilateral foreign policy than conservatives evident in the Democratic Party's greater support for a genuinely multilateral League of Nations United Nations and North Atlantic Treaty Organization Rathbun argues that the post World War Two bipartisan consensus on multilateralism is a myth and differences between the parties are growing continually starker

The Heartland Kristin L. Hoganson,2019 In The Heartland Kristin L Hoganson drills deep into the centre of the country only to find a global story in the resulting core sample Deftly navigating the disconnect between history and myth she tracks both the backstory of this region and the evolution of the idea of an unalloyed heart at the centre of the land A provocative and highly original work of historical scholarship The Heartland speaks volumes about pressing preoccupations among them identity and community immigration and trade and security and global power [A History of American Foreign Policy: Global power, 1900 to the present](#) Alexander DeConde,1978 [American Studies](#) Jack Salzman,American Studies Association,1986-08-29 A major three volume bibliography including an additional supplement of an annotated listing of American Studies monographs published between 1900 and 1988 **Hard Line** Colin Dueck,2010-08-16 Republican foreign policy and the conservative leaders who shaped it Hard Line traces the history of Republican Party foreign policy since World War II by focusing on the conservative leaders who shaped it Colin Dueck closely examines the political careers and foreign policy legacies of Robert Taft Dwight Eisenhower Barry Goldwater Richard Nixon Henry Kissinger Ronald Reagan George H W Bush and George W Bush He shows how Republicans shifted away from isolationism in the years leading up to World War II and oscillated between realism and idealism during and after the cold war Yet despite these changes Dueck argues conservative foreign policy has been characterized by a hawkish and intense American nationalism and presidential leadership has been the driving force behind it What does the future hold for Republican foreign policy Hard Line demonstrates that the answer depends on who becomes the next Republican president Dueck challenges the popular notion that Republican foreign policy today is beholden to economic interests or neoconservative intellectuals He shows how

Republican presidents have been granted remarkably wide leeway to define their party's foreign policy in the past and how the future of conservative foreign policy will depend on whether the next Republican president exercises the prudence, pragmatism and care needed to implement hawkish foreign policies skillfully and successfully. **Hard Line** reveals how most Republican presidents since World War II have done just that and how their accomplishments can help guide future conservative presidents.

The Nafta Puzzle Charles Doran, Gregory P Marchildon, 2019-06-21 The editors would like to thank the Donner Foundation, the Draeger Foundation and the Government of Canada for their timely and generous support of this study. The study was initiated by the editors as part of the research program of the Center of Canadian Studies at the Paul H Nitze School of Advanced International Studies, The Johns Hopkins University, Washington D C and the emerging affiliated program in North American Studies. Particular appreciation goes to Dr Barbara G Doran for the final editing of the entire manuscript. In addition to the individuals acknowledged in each of the chapters, the editors thank those scholars who helped guide the project at various times with constructive criticism and discussion: Tom Barnes, Robert Bothwell, Reuven Brenner, David Calleo, Colin Campbell, Benjamin Ginsberg, Judith Goldstein, Peter Katzenstein, Allan Kornberg, Jonathan Lemco, Seymour Martin Lipset, Charles Lipson, Charles Pearson, Richard Rosecrance and Sidney Weintraub. *American Negotiating Behavior* Richard H. Solomon, Nigel Quinney, 2010 Informed by discussions and interviews with more than fifty seasoned foreign and American negotiators, this landmark study offers a rich and detailed portrait of the negotiating practices of American officials. Including contributions by eleven international experts, it assesses the multiple influences—cultural, institutional, historical and political—that shape how American policymakers and diplomats approach negotiations with foreign counterparts and highlights behavioral patterns that transcend the actions of individual negotiators and administrations.

Paths to Peace Elizabeth A. Stanley, 2009-07-28 *Paths to Peace* begins by developing a theory about the domestic obstacles to making peace and the role played by shifts in states governing coalitions in overcoming these obstacles. In particular, it explains how the longer the war, the harder it is to end, because domestic obstacles to peace become institutionalized over time. Next, it tests this theory with a mixed methods approach through historical case studies and quantitative statistical analysis. Finally, it applies the theory to an in-depth analysis of the ending of the Korean War. By analyzing the domestic politics of the war's major combatants—the Soviet Union, the United States, China and North and South Korea—it explains why the final armistice terms accepted in July 1953 were little different from those proposed at the start of negotiations in July 1951. Some 294,000 additional battle deaths later. **Paths Not Taken** Jonathan M. Nielson, 2000-02-28 In America's foreign affairs, there has been a delicate balance between often conflicting imperatives of interests, ideals and power. How these imperatives have intersected to shape the constellation of American foreign policy decisions throughout the nation's history and indeed how they have served to advance or subvert attainment of America's regional, hemispheric and global ambitions is the subject of this study. This collection of essays explores seminal decisions in American foreign policy.

and diplomatic history from the early National period to the Vietnam War each of which proved to be a turning point and then asks readers to consider alternative futures based upon different courses of action Nielson underscores how history could and perhaps should have been different U S foreign policy has in large measure been contingent upon decisions made by individuals in positions of power Their personalities characters and assumptions about duty and America s role in the world have uniquely shaped policy choices and thus the course of foreign affairs for better or worse This book hopes to show that history is ever fluid unpredictable and problematic It will complement traditional texts as a what if counterpoint which will stimulate interest in and speculation about leadership roles national interest and decision making in foreign policy

Can America Remain Committed? David G. Haglund, 2019-04-02 The twelve months that spanned the period between the early springtimes of 1991 and 1992 may well turn out to constitute the most important year for American foreign and security policy in half a century Encasing the dawning of a new and different security era like macabre parentheses were two columns of black smoke that of 1991 over the newly liberated Kuwait and that of 1992 over the embattled district of South Central Los Angeles Within these acrid temporal brackets unfolded a set of developments of utmost significance for American foreign and security policy and for the very meaning of the country s external commitments **Opposing the Crusader**

State Robert Higgs, Carl P. Close, 2007-09-01 *Opposing the Crusader State* Alternatives to Global Interventionism edited by Robert Higgs and Carl Close examines the history of American noninterventionism and its relevance in today s world For more than a century U S foreign policy whether conducted by Democrats or Republicans liberals or conservatives has been based on the assumption that Americans interests are served best by intervening abroad to secure open markets for U S exports fight potential enemies far from American shores or engage in democratic nation building Before the twentieth century however a foreign policy of nonintervention was widely considered more desirable and Washington s and Jefferson s advice that the republic avoid foreign entanglements was largely heeded Arguing that interventionism is not an appropriate default setting for U S foreign policy the book s contributors clarify widespread misunderstandings about noninterventionism question the wisdom of nation building debate the validity of democratic peace theory and make the case for pursuing a peace strategy based on private property rights and free trade Readers will come away from this book with a richer understanding of the noninterventionist movements in U S history write Higgs and Close in the book s introduction Most important perhaps they will have a firmer understanding of why many classical liberals embrace the strengthening of commercial ties between all countries as a means of avoiding war *American Narcissism* Wilber W. Caldwell, 2006

Nationalism is unique in America Our notions of superiority spring from visions of chosen ness mission and high destiny frontier self sufficiency and the triumph of the immigrant experience Where is the line between benign patriotism and malignant nationalism individual liberty and mass tyranny

Thank you unquestionably much for downloading **Roots Of Isolationism Congressional Voting And Presidential Leadershi**. Maybe you have knowledge that, people have seen numerous periods for their favorite books behind this Roots Of Isolationism Congressional Voting And Presidential Leadershi, but end happening in harmful downloads.

Rather than enjoying a good book similar to a cup of coffee in the afternoon, then again they juggled in the manner of some harmful virus inside their computer. **Roots Of Isolationism Congressional Voting And Presidential Leadershi** is friendly in our digital library; an online entrance to it is set as public, consequently you can download it instantly. Our digital library saves in multipart countries, allowing you to acquire the most less latency period to download any of our books next to this one.
