S. Committee on Energy and Commerce,2016-12-28 Excerpt from Safe Aboveground Storage Tanks Hearing Before the Subcommittee on Transportation and Hazardous Materials of the Committee on Energy and Commerce House of Representatives One Hundred Third Congress Second Session September 14 1994 American Petroleum Institute standards And whether you have a large tank or a small tank a marketing tank a refinery tank there is a possibility that there will be a leak It only makes sense that the tank owners prevent those leaks before they occur Senator Robb is the chief sponsor of the bill in the Senate The gao will be reporting to the Congress on the number and types of aboveground storage tanks across the country While the epa is working to ascertain this information it is important that we immediately find answers to these questions and develop policies to prevent these damaging leaks into the environment So in summary there is no question that aboveground tank leaks are clearly pervasive across the country and they are ongoing as we speak I am anxious to work with the committee and the epa and the regulated industries to address the current deficiencies in Federal law and hopefully to use hr 1360 to fill some of these gaps And so in so doing Congress can address one of the last remaining loopholes in Federal environmental law About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *CIS Annual* Congressional Information Service,1995
