Sexuality, Human Rights, and Public Policy Chima J. Korie, Elizabeth O. Onogwu, 2019-11-12 *Sexuality Human Rights and Public Policy* explores the intersection of public policy, human rights and sexuality as they relate to inclusion and exclusion across diverse cultural settings. It examines how knowledge is formed and experienced at the intersections of culture, sexuality, race and other axes of identity. This volume engages an array of questions including how public policy shapes the conceptualization of sexuality and rights and by extension the phenomena of inclusion and exclusion in contemporary society across the world. By evaluating how public discourse is employed to reinscribe differences of gender, sexuality and rights of citizens, this book provides a comparative analysis of how these processes and dynamics resemble each other or differ cross culturally. This book demonstrates that in the realm of sexualities approached from the ideal of human rights as a predominantly Western notion is increasingly challenged by diverse views and new interpretations of human rights in non-Western societies such as Africa and the Middle East.

Sexual Violence and Armed Conflict Janie L. Leatherman, 2013-04-26 Every year hundreds of thousands of women become victims of sexual violence in conflict zones around the world. In the Democratic Republic of Congo alone approximately 1,100 rapes are reported each month. This book offers a comprehensive analysis of the causes, consequences and responses to sexual violence in contemporary armed conflict. It explores the function and effect of wartime sexual violence and examines the conditions that make women and girls most vulnerable to these acts both before, during and after conflict. To understand the motivations of the men and occasionally women who perpetrate this violence, the book analyzes the role played by systemic and situational factors such as patriarchy and militarized masculinity. Difficult questions of accountability are tackled in particular the case of child soldiers who often suffer a double victimization when forced to commit sexual atrocities. The book concludes by looking at strategies of prevention and protection as well as new programs being set up on the ground to support the rehabilitation of survivors and their communities. Sexual violence in war has long been a taboo subject but as this book shows new and courageous steps are at last being taken at both local and international level to end what has been called the greatest silence in history.

Discrimination from the mainstream society is one of the main issues faced by the LGBTQ community. At present

only 29 countries around the world have recognized the right to marriage of sexual minorities and Asian countries like India has not recognized this right Individuals should be given right to self determination of their gender identity Same as discrimination on the basis of race and color discrimination on the basis of sexuality is also a human right violation which is recognized by the international community Law is not a panacea for the entire issues faced by the LGBTQ community the attitude of the society should be changed to accommodate the discriminated peoples like transgenders and other LGBTQ
