Textbook of Pediatric Neurology Gerald J. Golden, 2012-12-06 Neurological signs or symptoms are present in approximately 20% of all children admitted to the hospital These may be the reason for admission or may be part of preexisting and often unrelated problems In ambulatory practice acute neurological disease is not seen as frequently but issues relating to normal and abnormal development are constantly being faced For these reasons familiarity with the progress of normal development and factors interfering with it as well as knowledge of the major acute and chronic disorders of the nervous and neuromuscular systems is important for any practitioner specialist or generalist who cares for children The pathophysiology of neurological disorders in childhood is based on the same principles of the organization structure and function of the nervous system as apply to adults Two pitfalls are present for the student however First the abnormalities are superimposed on a changing developing brain not a rather static mature organ The manifestations of the disease may vary therefore in seemingly unpredictable fashion depending on the rate of progression of the disorder and the rate and adequacy of the ongoing developmental changes in the nervous system The second problem is the large number of unfamiliar conditions many of which have no counterpart in adult neurology or medicine These include developmental malformations disorders specific to the neonatal period and many hereditary and metabolic diseases

Coach "Catfish" Smith and His Boys Glen Onley, 2004 Milburn Catfish Smith rose from the humblest of beginnings in rural East Texas to lead the Carey Cardinals and the Mount Vernon Tigers to numerous football and basketball championships including Texas State Schoolboy titles In doing so he defied the sports gurus of his day many of whom subsequently credited him with three of the greatest coaching feats of his century How did he do it Here for the first time the secret behind this most unusual and colorful man's success is revealed unknown until now even by many of his former players His Boys No slow climb to the top was acceptable for this firebrand coach In his first year he took his Carey Cardinals a school with less than one hundred enrollment and no basketball court to a fourth place finish in the Texas Schoolboy state basketball tournament including a twenty six game winning streak The twenty three year old coach followed that with a 50-2 season and the state championship back when the smallest schools competed against the largest for the coveted title World War II soon interrupted his career as it did that of many of his

contemporaries but the experience was to change Catfish deeply and in ways even his closest friends did not understand Called to Mount Vernon Texas in September 1943 to temporarily fill a coaching vacancy Catfish exceeded all expectations Seven years later with two hundred fourteen victories and over twenty titles including district bi district regional and state crowns he was one of the most recognized high school coaches in the state of Texas A New History of English Metre Martin J. Duffell,2008 In the hundred years since the last major history of English metre was published dramatic changes have occurred in both the way that poets versify in English and the way that scholars analyze verse Free verse is now firmly established alongside regular metre and linguistics statistics and cognitive theory have contributed to the analysis of both This new study covers the history of English metre up to the twenty first century and compares a variety of modern theories to explain it The result is a concise and up to date guide to metre for all students and teachers of English poetry Book Jacket

Performing Human Consciousness Vanessa Dodd,2024-09-30 Is the mind like a theatrical performance This comparison has often been used as a conceptual tool by neuroscientists philosophers and psychologists in trying to understand what constitutes the human mind and in particular how the comings and goings and the character transformations on the stage and in the scripted text give us visible access to the hidden workings of the human mind Performing Human Consciousness makes use of this metaphor to explore the variety of ways in which the private thoughts and feelings we all have bring into play many aspects of persistent philosophical questions over how the essentially private world of personal experiences can relate to and communicate with the common public world To investigate this generalisation in more detail the author brings into play her own conscious experiences by making use of an auto inscribed play Being Me Through this dramatic medium she seeks to show in detail how phenomenal consciousness is captured through the dramatic play text and thereby made known to others through performance of that text Broadening out her argument further the author then embarks on an enquiry into a selection of play texts from an historical variety of perspectives from the early Greek and Mediaeval dramas through to the Symbolist period and onwards to the present day demonstrating the variety of ways in which they illustrate her argument This book will be of great interest to students and scholars of theatre performance and scriptwriting **Four Latin Plays of St. Nicholas** Otto E. Albrecht,2016-11-15
