Longman Dictionary And Handbook Of Poetry:

Longman Dictionary and Handbook of Poetry Jack Myers, Michael Simms, 1985 *The Concise Oxford Dictionary of Literary Terms*, 1996 The Longman Dictionary of Poetic Terms Jack Myers, Michael Simms, 1989 **Learning the Secrets of English Verse** David J. Rothman, Susan Delaney Spear, 2022-08-09 This textbook teaches the writing of poetry by examining all the major verse forms and repeating stanza forms in English. It provides students with the tools to compose successful lines of poetry and focuses on meter including free verse, rhythm, rhyme, and the many other tools a poet needs to create both music and meaningfulness in an artful poem. Presenting copious examples from strong poets of the past and present along with many recent student examples, all of which are scanned, each chapter offers lessons in poetic history and the practice of writing verse along with giving students a structured opportunity to experiment writing in all the forms discussed. In Part 1, Rothman and Spear begin at the beginning with Anglo-Saxon Strong Stress Alliterative Meter and examine every major meter in English up to and including the free verse forms of modern and contemporary poetry. Part 2 presents a close examination of stanza forms that moves from the simple to the complex, beginning with couplets and ending with the 14-line Eugene Onegin stanza. The goal of the book is to give students the essential skills to understand how any line of poetry in English may have been composed, the better to enjoy them and then also write their own: the keys to the treasure chest. Rothman and Spear present a rigorous curriculum that teaches the craft of poetry through a systematic examination and practice of the major English meters and verse forms. Under their guidance, students hone their craft while studying the rich traditions and innovations of poets writing in English. Suitable for high school students and beyond, I studied with Rothman in graduate school and went through this course with additional scholarly material. This book will help students develop a keen ear for the music of the English language. Teow Lim Goh, author of *Islanders*. **The Oxford Dictionary of Literary Terms** Chris Baldick, 2008-03-20 The best-selling Oxford Dictionary of Literary Terms, formerly the Concise dictionary, provides clear, concise, and often witty definitions of the most troublesome literary terms, from abjection to zeugma. It is an essential reference tool for students of literature in any language. It is now available in a new and expanded edition and includes increased coverage of new terms from modern critical and theoretical movements such as feminism and schools of American poetry, Spanish verse forms, life writing, and crime fiction. It includes extensive coverage of traditional drama, versification, rhetoric, and literary history, as well as updated and extended advice on recommended further reading and a pronunciation guide to more than 200 terms. New to this edition are recommended entry-level web links updated via the Dictionary of Literary Terms companion website. **The Book of Forms** Lewis Turco, 2020-09-01 Now in its fifth edition, *The Book of Forms: A Handbook of Poetics* continues to be the go-to reference and guide for students, teachers, and critics. A companion for poets from novice to master, *The Book of Forms* has been called the poet's bible for more than fifty years. Filled with both common and rarely heard of forms and prosodies, Turco's engaging style and apt examples invite writers to try

their hands at exploring forms in ways that challenge and enrich their work Revised for today's poet the fifth edition includes the classic rules of scansion and the useful Form Finder Index alongside new examples of terms and prose that are essential to the study of all forms of poetry and verse As Turco writes in the introduction It should go without saying that the more one knows how to do the more one can do

Nilene's chosen guardians of nature. Thousands of years later, Windkeep is still burdened with the curse, and Queen Tessia is having to defend her kingdom from repeated assaults by the weather witches and their allies. She turns to her friends and advisors: Norbert the Green Mage and Tyrmiss the Last Dragon to accompany her, and a band of heroes in a quest to travel to the far land of Sheonad in order to parley with the witches and, if they refuse to negotiate, then to destroy their city. Tessia urges Norbert to use his powers to fight the witches and protect Windkeep, but Norbert is reluctant to do so because he understands that the world exists in delicate balance and grave and unforeseen consequences result if the balance is disrupted. After fighting a number of battles and suffering bizarre magical transformations, Tessia and Norbert at last come to understand the kingdom of Windkeep can be saved only through the ancient wisdom of dragons.

Windkeep is book two in a YA fantasy series about Tessia the Dragon Queen and her loyal advisor and friend Norbert Oldfoot, a gentle mage who has no desire to wield the powerful magics he probably could use if he were not such a good person. Norbert is the self-deprecating narrator of the story as he was for book 1. The Green Mage.

Windkeep opens with a bored Queen Tessia seven years after the events of book 1. The kingdom is suffering a devastating drought, and when a traveler comes to town, he tells tales of the kingdoms and peoples to the north, including weather witches who could bring rain. Tessia and her ministers believe him. Tessia, Tyrmiss the dragon, and Norbert set off with a few others to set the kingdom to rights through diplomacy, and it all goes terribly wrong when they run afoul of a magic that turns all but Norbert into magically mismatched creatures. Can Norbert return his friends to their own shapes? And beyond that, will he and his magically transformed friends be able to save the kingdom?
