Suggestions for Discussion or Writing

Model 1

Paraphrase

Original Passage

Language is the main means of communication between people. But in many different languages have developed that language has often been a barrier rather than an aid to understanding among people. For many years, people have dreamed of setting up an international universal language which all people could speak and understand. The arguments in favor of a universal language are strong and obvious. If all people spoke the same tongue, cultural and economic ties might be much closer, and good will might increase between countries (Kuper).

Paraphrase

Humans communicate through language. Because there are so many different languages, however, people around the world have a difficult time understanding one another. Some people have wished for a universal international language that everyone all over the world could understand. Their reasons are straightforward and clear. A common language could build cultural and economic bonds. It would also create better feelings among countries (Kuper).

Writing Techniques/Questions

- How many sentences are there in the original passage? In the paraphrase?
- Compare the original passage and the paraphrase sentence by sentence. Analyze how the sentence structure and words differ by answering the following questions:
 - What is the first word of the first sentence in the original passage? What does this word replace in first sentence of the paraphrase?
 - What is the first word of the second sentence in the original passage? What word replaces it in the second sentence of the paraphrase?
 - What word replaces *arguments* in line 11 of the third sentence? What word replaces *economic* in line 11 of the third sentence?
 - Which sentence in the original becomes two sentences in the paraphrase?

It is important to learn how to use information from outside sources without copying plagiarisms. Plagiarism is simply using someone else's words or ideas, and it is a serious offense. Students who plagiarize may find a class or even be expelled from school.

There are two kinds of plagiarism.

- When you use information from an outside source without citing the source (telling where you got the information), you are guilty of plagiarism.
- Even when you cite your source, if your paraphrase is too similar to the original, you are guilty of plagiarism.

Shiraga Forest

Academic writing actually means that you express your ideas and opinions with facts, statistics, quotations, and similar kinds of information. There are four ways to use information from outside sources. You can quote it directly or indirectly, state it, or paraphrase it. Chapter 5, "You are the paraphrase or summarize it," tells that you will practice in this chapter. Writing paraphrases and summaries are important skills in academic writing.

Paraphrasing

When you paraphrase, you write information from an outside source in your own words without changing the meaning. However, you include in your meaning all or nearly all of the content of the original passage. A paraphrase is almost as long as the original. A summary, by contrast, is much shorter than the original.)

Read the following paraphrases and decide which kind of plagiarism each is guilty of.

Unacceptable Paraphrase 1

Humans communicate through language. However, because there are so many languages in the world, language acts as an obstacle instead of an aid to understanding. People have long wished for a universal international language that everyone all over the world could understand. A universal language would certainly build cultural and economic bonds. It would also create better feelings among countries.

Unacceptable Paraphrase 2

Language is the principal means of communication between people. However, because there are numerous languages, language itself has frequently been a barrier rather than an aid to understanding among the world population. For many years, people have wished for a common universal language that everyone in the world could communicate in. The reasons for having a universal language are clearly understandable. If the same tongue were spoken by all countries, they would undoubtedly become closer culturally and economically. It would probably also create good will among nations (Kuper).

Paraphrase 1 is plagiarism because the source is not cited. Paraphrase 2 is plagiarism because it is too similar to the original passage. For example, in the first sentence, only one word has been changed: *main* replaces *principal*. In the second sentence, only a few words have been changed. You can avoid the first kind of plagiarism by always citing your sources. You can avoid the second kind of plagiarism by learning to paraphrase correctly.

See Appendix B, Research and Documentation of Sources, pages 103-111, for information on how to cite sources.

How to Write a Good Paraphrase

There are three steps to writing a good paraphrase:

- Use your own words and your own sentence structure.
- Make your paraphrase approximately the same length as the original.
- Do not change the meaning of the original.
