Looking Backward and Looking Forward Harvey J. Understanding Literacy in Its Historical Contexts Harvey J. Graff, Alison Mackinnon, Bengt Sandin, Ian Winchester, 2009-01-10 In this detailed study of the history of universal literacy in Sweden a group of renowned scholars review and explore the possibilities for the wider circulation and broader application of central dimensions of the early literacy studies expounding upon the work of the Swedish Lutheran pastor and pioneering social historian Egil Johansson Working initially with parish registers especially examination registers from northern Sweden Johansson discovered the extraordinary usefulness of these documents to determine how literacy in Sweden occurred well before any other European nation despite the fact that Sweden was industrialized about 100 years later than the European norm Egil Johansson also developed imaginative data analysis techniques that help historians around the world to better picture the complete human cast of the past With the help of numerous contributors Johansson founded a giant database of church records and other information which now can help the understanding of preindustrial society Johansson s work spans over many aspects of literacy and social history and their respective relation to religion and gender **Literacy Myths, Legacies, and Lessons**

Harvey J. Graff, 2017-07-05 In his latest writings on the history of literacy and its importance for present understanding and future rethinking historian Harvey J Graff continues his critical revisions of many commonly held ideas about literacy The book speaks to central concerns about the place of literacy in modern and late modern culture and society and its complicated historical foundations Drawing on other aspects of his research Graff places the chapters that follow in the context of current thinking and major concerns about literacy and the development of both historical and interdisciplinary studies Special emphasis falls upon the usefulness of the literacy myth as an important subject for interdisciplinary study and understanding Critical stock taking of the field includes reflections on Graff s own research and writings of the last three decades and the relationships that connect interdisciplinary rethinking and the literacy myth The collection is noteworthy for its attention to Graff s reflections on his identification of the literacy myth and in developing LiteracyStudies OSU Ohio State University as a model for university wide interdisciplinary programs It also deals with ordinary concerns about literacy or illiteracy that are shared by academics and concerned citizens These nontechnical essays will speak to both academic and nonacademic audiences across disciplines and cultural orientations *Development and Social Change* Philip

Looking Forward, Looking Back: Interactive Digital Storytelling and Hybrid Art Approaches Rebecca Rouse, Mara Dionisio, 2018-11-30 This volume collects documentation of the 2017 International Conference on Interactive Digital Storytelling Art Exhibition and new scholarly texts from the artists involved The work traces themes of Time Tempo across Digital Poetics and Literature Digital Heritage and Urban Space and Politics **New Masses** , 1926 **Resources in Education** , 1999-10 Irrigation in Early States Stephanie Rost, 2022-06-30 Irrigation has long been of interest in the study of the past Many early civilizations were located in river valleys and irrigation was of great economic importance for many early states because of the key role it played in producing an agricultural surplus which was the main source of wealth and the basis of political power for the elites who controlled it Agricultural surplus was also necessary to maintain the very features of statehood such as urbanism full time labor specialization state institutions and status hierarchy Yet the presence of large scale or complex irrigation systems does not necessarily mean that they were under centralized control While some

early states organized the construction operation and maintenance of irrigation works and resolved conflicts related to water distribution other early governments left most of the management to local farmers and controlled only the surplus The cross cultural studies in this volume reexamine the role of irrigation in early states Ranging geographically from South America and the southwestern United States to North Africa the Middle East and Asia they describe the physical attributes and environments of early irrigation systems various methods for empirical investigation of ancient irrigation and irrigation s economic sociopolitical and cosmological dimensions Through their interdisciplinary perspectives the authors all experts in the field of irrigation studies advance both methodological and theoretical approaches to understanding irrigation in early civilizations

Luke/Acts and the End of History Kylie Crabbe,2019-11-18 Luke Acts and the End of History investigates how understandings of history in diverse texts of the Graeco Roman period illuminate Lukan eschatology In addition to Luke Acts it considers ten comparison texts as detailed case studies throughout the monograph Polybius s Histories Diodorus Siculus s Library of History Virgil s Aeneid Valerius Maximus s Memorable Doings and Sayings Tacitus s Histories 2 Maccabees the Qumran War Scroll Josephus s Jewish War 4 Ezra and 2 Baruch The study makes a contribution both in its method and in the questions it asks By placing Luke Acts alongside a broad range of texts from Luke s wider cultural setting it overcomes two methodological shortfalls frequently evident in recent research limiting comparisons of key themes to texts of similar genre and separating non Jewish from Jewish parallels Further by posing fresh questions designed to reveal writers underlying conceptions of history such as beliefs about the shape and end of history or divine and human agency in history this monograph challenges the enduring tendency to underestimate the centrality of eschatology for Luke s account Influential post war scholarship reflected powerful concerns about salvation history arising from its particular historical setting and criticised Luke for focusing on history instead of eschatology due to the parousia s delay Though some elements of this thesis have been challenged Luke continues to be associated with concerns about the delayed parousia affecting contemporary interpretation By contrast this study suggests that viewing Luke Acts within a broader range of texts from Luke s literary context highlights his underlying teleological conception of history It demonstrates not only that Luke retains a sense of eschatological urgency seen in other New Testament texts but a structuring of history more akin to the literature of late Second Temple Judaism than the non Jewish Graeco Roman historiographies with which Luke Acts is more commonly compared The results clarify not only Lukan eschatology but related concerns or effects of his eschatology such as Luke s politics and approach to suffering This monograph thereby offers an important corrective to readings of Luke Acts based on established exegetical habits and will help to inform interpretation for scholars and students of Luke Acts as well as classicists and theologians interested in these key questions **Shtetl** Jeffrey Shandler,2014-01-15 In Yiddish shtetl simply

means town How does such an unassuming word come to loom so large in modern Jewish culture with a proliferation of uses and connotations By examining the meaning of shtetl Jeffrey Shandler asks how Jewish life in provincial towns in Eastern Europe has become the subject of extensive creativity memory and scholarship from the early modern era in European history to the present In the post Holocaust era the shtetl looms large in public culture as the epitome of a bygone traditional Jewish communal life People now encounter the Jewish history of these towns through an array of cultural practices including fiction documentary photography film memoirs art heritage tourism and political activism At the same time the shtetl attracts growing scholarly interest as historians social scientists literary critics and others seek to understand both the complex reality of life in provincial towns and the nature of its wide ranging remembrance Shtetl A Vernacular Intellectual History traces the trajectory of writing about these towns by Jews and non Jews residents and visitors researchers novelists memoirists journalists and others to demonstrate how the Yiddish word for town emerged as a key word in Jewish culture and studies Shandler proposes that the intellectual history of the shtetl is best approached as an exemplar of engaging Jewish vernacularity and that the variable nature of this engagement far from being a drawback is central to the subject s enduring interest

The Non-Religious and the State Jeffrey Tyssens, Niels De Nutte, Stefan Schröder, 2024-11-04 As the number of the non affiliated and religiously indifferent is on the rise this book adds a hitherto absent historical dimension to the field of secular studies It shows a variety of ways in which the non religious at large be it organizations networks or even committed individuals impact upon the interface between the state and the religious or the non religious To what specific legal statuses have these processes led What elements were taken into consideration when making these decisions Who opted for a recognition of a non confessional lifestance and why Conversely who opted for a wall of separation and why Are things that clear cut Doesn t the variety of choices and frameworks offer a more varied spectrum What continuities and discontinuities are to be observed in the history of seculars and their organizations These patterns divergent and entangled are developed and explained within the broader conception of multiple secularisms
