gave was that men's complaint that if they offer solutions to problems that women bring up in conversation the women are not necessarily interested in solving those problems but mainly want to discuss about them. The book avers each sex can be understood in terms of their unique ways they respond to stress and stressful situations. In the book the author wrote: When a man can listen to a woman's feelings without getting angry and frustrated he gives her a wonderful gift. He makes it safe for her to express herself. The more she is able to express herself the more she feels heard and understood and the more she is able to give a man the loving trust acceptance appreciation admiration approval and encouragement that he needs. This explains that when a man genuinely listens to the emotions of a woman by not being upset he is showing her she is safe with him and understood as well. And she reciprocates this gesture with love trust and encouragement a man needs. Likewise when he stated that Men are motivated when they feel needed while women are motivated when they feel cherished. This is just the basic fact of a successful relationship or marriage by the author. In the world of many self-help books we are there are very few titles that can be compared with the popularity of John Gray's *Men Are From Mars Women Are From Venus*. Interestingly when this title was first published in 1992 it not only helped educate countless men and women from around the globe but it managed to nestle its way into popular culture and become an instant classic. In spite of the fun metaphoric and catchy title this book essentially tackles a very serious relationship issues in many male or female relationships we have today which can be said to be a lack of effective communication. In lieu of focusing blame on one person or one gender this book dives into some of the inherent differences between the way males and females communicate. As it is a well known fact that communication is one of the most central factors in finding the right balance genuine love and loyalty in a long term relationship. Well based on the concept that men and women are living on different planets this book helps to not only identify these differences for the opposing gender but to offer solutions on how both men and women can meet in the middle to have better more productive communication strategies. The author deliberately lays big emphasis placed on love since it is a relationship advice book. One of the biggest takeaways about love from the book actually has nothing to do with talking it is all about showing. This is one of the biggest keys to keeping the love alive in long term relationships. This is a very important lesson to note throughout the book *Men Are From Mars Women Are From Venus* as communication isn't always about talking or telling someone something it is often about showing them or using non verbal communication in order to get your message across. According to *Men Are From Mars Women Are From Venus* men will give and give until they are pleased with what they have done. This can be with emotions money effort work or physical objects. However women will typically give with the hope that the man will return the gesture. This is where a lot of disconnect can happen. Now let's take a vivid look at where communication falls short. Where communication falls short. Both man and woman may feel as though they are doing everything they can to show their love and that they are giving love the way they want to receive it. But the opposing party may not recognize this and may actually think that their partner is not showing love at all. This is one tip that both men and

women should keep in the back of their minds as they continue to take John Gray's relationship advice as many communication disconnects or crumbles it may actually stem from this one major issue. If both parties can understand that the other partner simply has a different interpretation of what it means to show and give love they can move forward. To cap it all everyone has a different love language.

How To Improve Communication In A Relationship

There are so many little things that men and women can both do in order to improve their communication lines yet one of the classic disconnects between these two genders often comes when women are not as direct with men while communicating. There is an old story about men and women communicating that perfectly depicts how this lack of directness can cause misunderstandings. A man and a woman are driving down the street. The woman points at the ice cream store and says look. The ice cream store is open. The man says Yes it is and keeps driving. Later that evening the woman is upset and asks Why didn't you stop for ice cream when I asked? The man is confused and says I never heard you ask to stop for ice cream. It may be either small or inconsequential example but it is one that many people in male or female relationships can relate to. What went wrong? Both parties thought they said and heard different things in the same conversation. This is one of the reasons why communication tends to be more effective when women are more direct.

According to John Gray if a woman wants to go do something with a man she shouldn't just ask him what he wants to do. She should instead tell him what she wants to do and then ask him to join. This is an instance of direct communication that doesn't blur the lines and allows both parties to communicate more clearly.

How to make communication work

The following scenario was suggested by The woman gives the man three options of what she wants to do on a date a week in advance. The man gets to decide but doesn't tell the woman until the date happens. This allows the woman to anticipate the date all week while the man gets to feel as though he made a decision while still receiving clear communication on what types of dates the woman wanted to go on. It may sound like a lot of work but the key is to start with direct communication on the woman's part. It can open up new doorways to successful interaction that both parties may have never thought were possible.

In addition emotions have great impact as regards how we communicate. They can entice us to say certain things hold different things in or even respond in ways we may have never thought we would. Emotions can also alter our body language and the way we give off signals to one another even when we don't realize we are doing it. Yes it can be safe to state that women's emotions go up and down and have really high highs and really low lows. In general women's emotions tend to fluctuate more than men's do. Men tend to be a bit steadier with their emotions which can be both positive and negative. While they may not have as deep of a dive into depression they may also not experience as high of a high when they are happy. All this now depends on how each sex processes alone time. As well men are much more prone to want alone time when they feel scared or uncomfortable. Men need to be left alone where they feel safe. It scientifically helps them to build up their testosterone and think more clearly. If given the time to retreat to his safe space a man will come out of this alone time once he has handled the problem internally and finally. On the other hand a woman may feel better by talking it

out She may not understand why her male partner wants to spend time alone processing the issue Allowing women and men to process emotions in a way that is comfortable and natural to them is an essential component to keeping communications lines free and open You Should Learn To Show Appreciation So much of Men Are From Mars Women Are From Venus is about the differences between men and women but there is one big similarity between men and women in relationships showing understanding is key Men and women are different They are different physically biologically emotionally almost in every way Yet the reason so many of these relationships can work out in the end is because these differences provide a balance You just need to find that balance Get to know your partner more intimately If you sincerely take the time to really get to understand your partner it can go a long way in helping them feel loved valued and appreciated Men and women are different and it is important to accept and understand this You may be speaking different languages but if you take the time to really talk to your partner and attempt to understand the place they are coming from it can speak volumes For instance take the time to do things like ask questions put yourself in the other person s shoes or even read relationship advice books like Men Are From Mars Women Are From Venus to show the other person that you want to understand them better because you appreciate who they are and that you want to communicate more clearly and effectively Mind you this can help restore energy in your romantic relationship so that you and your partner can continue to keep your relationship as healthy as possible
