Jarvis,2024-03-01 In 1910 Isaiah Shembe was struggling He had left his family and quit his job as a sanitation worker to become a Baptist evangelist but he ended his first mission without much to show Little did he know that he would soon establish the Nazareth Church as he began to attract attention from people left behind by industrial capitalism in South Africa By his death in 1935 Shembe was an internationally known prophet and healer described by his peers as better off than all the Black people In A Prophet of the People Isaiah Shembe and the Making of a South African Church historian Lauren V Jarvis provides a fascinating and intimate portrait of one of South Africa s most famous religious figures and in turn the making of modern South Africa Following Shembe from his birth in the 1860s across many environments and contexts Jarvis illuminates the tight links between the spread of Christianity strategies of evasion and the capacious forms of community that continue to shape South Africa today **Africans and Britons in the Age of Empires, 1660-1980** Myles Osborne,Susan Kingsley Kent,2015-03-24 Africans and Britons in the Age of Empires 1660 1980 tells the stories of the intertwined lives of African and British peoples over more than three centuries In seven chapters and an epilogue Myles Osborne and Susan Kingsley Kent explore the characters that comprised the British presence in Africa the slave traders and slaves missionaries and explorers imperialists and miners farmers settlers lawyers chiefs prophets intellectuals politicians and soldiers of all colors The authors show that the oft told narrative of a monolithic imperial power ruling inexorably over passive African victims no longer stands scrutiny rather at every turn Africans and Britons interacted with one another in a complex set of relationships that involved as much cooperation and negotiation as resistance and force whether during the era of the slave trade the world wars or the period of decolonization The British presence provoked a wide range of responses reactions and transformations in various aspects of African life but at the same time the experience of empire in Africa and its ultimate collapse also compelled the British to view themselves and their empire in new ways Written by an

Sanchez,1995-03-23 Twentieth century Los Angeles has been the locus of one of the most profound and complex interactions between variant cultures in American history Yet this study is among the first to examine the relationship between ethnicity and identity among the largest immigrant group to that city By focusing on Mexican immigrants to Los Angeles from 1900 to 1945 George J S nchez explores the process by which temporary sojourners altered their orientation to that of permanent residents thereby laying the foundation for a new Mexican American culture Analyzing not only formal programs aimed at these newcomers by the United States and Mexico but also the world created by these immigrants through family networks religious practice musical entertainment and work and consumption patterns S nchez uncovers the creative ways Mexicans adapted their culture to life in the United States When a formal repatriation campaign pushed thousands to return to Mexico those remaining in Los Angeles launched new campaigns to gain civil rights as ethnic Americans through labor unions and New Deal politics The immigrant generation therefore laid the groundwork for the emerging Mexican American identity of their children
