Ernest Hemingway's A Farewell to Arms P.G. Rama Rao, 2007. This book studies Hemingway's *A Farewell to Arms* in the light of his aesthetic principles and major themes. It scrutinizes its symbolic dimensions and stylistic excellence while keeping an undeviating focus on the poignant classic of love in the time of war. This study further demonstrates how the novel appeals at different levels like the other works of Hemingway: as a story of war, a story of love, a story of the growth of the hero's soul, a story of memorable characters, and a work of artistic excellence. The present book will definitely prove useful to students, researchers as well as teachers of English literature interested in the study of Hemingway and his works.

The Critics and Hemingway, 1924-2014 Laurence W. Mazzeno, 2015. Traces Hemingway's critical fortunes over the ninety years of his prominence, telling us something about what we value in literature and why scholarly reputations rise and fall. Hemingway burst on the literary scene in the 1920s with spare, penetrating short stories and brilliant novels. Soon he was held as a standard for modern writers. Meanwhile he used his celebrity to create a persona like the stoic macho heroes of his fiction. After a decline during the 1930s and 1940s, he came roaring back with *The Old Man and the Sea* in 1952. Two years later he received the Nobel Prize. While his popularity waxed and waned during his lifetime, Hemingway's reputation among scholars remained strong as long as traditional scholarship dominated. New approaches beginning in the 1960s brought a sea change, however, finding grave fault with his work and making him a figure ripe for vilification. Yet during this time scholarship on him continued to appear. His works still sell well and several are staples on high school and college syllabi. A new scholarly edition of his letters is drawing prominent attention, and there is a resurgence in scholarly attention to and approbation for his work. Tracing Hemingway's critical fortunes tells us something about what we value in literature and why reputations rise and fall as scholars find new ways to examine and interpret creative work. Laurence W. Mazzeno is President Emeritus of Alvernia University. Among other books, he has written volumes on Austen, Dickens, Tennyson, Updike, and Matthew Arnold for Camden House's *Literary Criticism in Perspective* series.

Student Companion to Ernest Hemingway Lisa Tyler, 2001-09-30. The fully lived yet tragically ended life of Ernest Hemingway has attracted nearly as much attention as his extensive canon of writings. This critical study introduces students to both the man and his fiction, exploring how Hemingway confronted in his own life the same moral issues that would later create thematic conflicts for the characters in his novels. In addition to the biographical chapter which focuses on the pivotal events in Hemingway's personal life, a literary heritage chapter overviews his professional developments, relating his distinctive style to his early years as a journalist. With clear, concise analysis, students are guided through all of Hemingway's major works, including *The Sun Also Rises* (1926), *A Farewell to Arms* (1929), *For Whom the Bell Tolls* (1940), and *The Old Man and the Sea* (1952). Full chapters are also devoted to examining his collections of short fiction, the

African Stories and the posthumous works Each chapter carefully examines the major literary components of Hemingway's fiction with plot synopsis analysis of character development themes settings historical context and stylistic features Alternate critical readings are also given for each of the full length works An extensive bibliography citing all of Hemingway's writings as well as biographical sources general criticism and contemporary reviews will help students understand the scope of Hemingway's contributions to American Literature Ernest Hemingway in Context Debra A. Modellmog, Suzanne del Gizzo, 2013 This book Provides the fullest introduction to Hemingway and his world found in a single volume Offers contextual essays written on a range of topics by experts in Hemingway studies Provides a highly useful reference work for scholarship as well as teaching excellent for classes on Hemingway modernism and American literature Publisher's website

Cinematic Fictions David Seed, 2012-01-01 The phrase cinematic fiction has now been generally accepted into critical discourse but is usually applied to post war novels This book asks a simple question given their fascination with the new medium of film did American novelists attempt to apply cinematic methods in their own writings From its very beginnings the cinema has played a special role in defining American culture Covering the period from the 1910s up to the Second World War Cinematic Fictions offers new insights into classics like *The Great Gatsby* and *The Grapes of Wrath* discussing major writers critical writings on film and active participation in film making Cinematic Fictions is also careful not to portray cinema as a single or stable entity Some novelists drew on silent film others looked to the Russian theorists for inspiration and yet others turned to continental film makers rather than to Hollywood Film itself was constantly evolving during the first decades of the twentieth century and the writers discussed here engaged in a kind of dialogue with the new medium selectively pursuing strategies of montage limited point of view and scenic composition towards their different ends Contrasting a diverse range of cinematic and literary movements this will be compulsory reading for scholars of American literature and film *True to the Spirit* Colin MacCabe, Rick Warner, Kathleen Murray, 2011 Fifty percent of Hollywood productions each year are adaptations films that use an already published book dramatic work or comic as their source material If the original is well known then for most spectators the question of whether these adaptations are true to the spirit of the original is central The recent wave of adaptation studies dismisses the question of fidelity as irrelevant mistaken or an affront to the unstable nature of meaning itself The essays gathered here mixing the field's top authorities Andrew Gunning Jameson Mulvey and Naremore with fresh new voices take the question of correspondence between source and adaptation as seriously as do producers and audiences Spanning examples from Shakespeare to *Ghost World* and addressing such notable directors as Welles Kubrick Hawks Tarkovsky and Ophüls the contributors write against the grain of recent adaption studies by investigating the question of what fidelity might mean in its broadest and truest sense what it might reveal of the adaptive process and why it is still one of the richest veins of investigation in the study of cinema **Different Dispatches** David T. Humphries, 2006 This volume is a collection of all new original essays covering everything from feminist to postcolonial
