*Named in Stone and Sky* Gregory McNamee,1993 An anthology of literature celebrating the beauty of Arizona with selections from native songs and myths along with modern authors      **Arizona** Thomas E. Sheridan,2012-02-01 Hailed as a model state history thanks to Thomas E Sheridan s thoughtful analysis and lively interpretation of the people and events shaping the Grand Canyon State Arizona has become a standard in the field Now just in time for Arizona s centennial Sheridan has revised and expanded this already top tier state history to incorporate events and changes that have taken place in recent years Addressing contemporary issues like land use water rights dramatic population increases suburban sprawl and the US Mexico border the new material makes the book more essential than ever It successfully places the forty eighth state s history within the context of national and global events No other book on Arizona history is as integrative or comprehensive From stone spear points more than 10 000 years old to the boom and bust of the housing market in the first decade of this century *Arizona A History* explores the ways in which Native Americans Hispanics African Americans Asians and Anglos have inhabited and exploited Arizona Sheridan a life long resident of the state puts forth new ideas about what a history should be embracing a holistic view of the region and shattering the artificial line between prehistory and history Other works on Arizona s history focus on government business or natural resources but this is the only book to meld the ethnic and cultural complexities of the state s history into the main flow of the story A must read for anyone interested in Arizona s past or present this extensive revision of the classic work will appeal to students scholars and general readers alike

**Reading the West** Michael Kowalewski,1996-02-23 The American West of myth and legend has always exerted a strong hold on the popular imagination and the essays in *Reading the West* examine some of the basis of that fascination *Reading the West* first published in 1996 is a collection of critical essays by writers independent scholars and critics on the literature of the American West in the last two centuries It showcases new ways of reading and understanding western writing Arguing for the importance of place in literature these essays explore what makes representative literary works western They also explore the multicultural and ecological dimensions of western writing This volume helps enrich our understanding of a distinguished body of literary work which has sometimes been unjustly ignored It deals not only with literature but with the changing conception of the West in the American imagination      **A Desert Bestiary** Gregory McNamee,1996 Essays on desert animals

**Regionalism and the Reading Class** Wendy Griswold,2008-09-15 Globalization and the Internet are smothering cultural regionalism that sense of place that flourished in simpler times These two villains are also prime suspects in the death of reading Or so alarming reports about our homogenous and dumbed down culture would have it but

as Regionalism and the Reading Class shows neither of these claims stands up under scrutiny quite the contrary Wendy Griswold draws on cases from Italy Norway and the United States to show that fans of books form their own reading class with a distinctive demographic profile separate from the general public This reading class is modest in size but intense in its literary practices Paradoxically these educated and mobile elites work hard to put down local roots by among other strategies exploring regional writing Ultimately due to the technological economic and political advantages they wield cosmopolitan readers are able to celebrate perpetuate and reinvigorate local culture Griswold s study will appeal to students of cultural sociology and the history of the book and her findings will be welcome news to anyone worried about the future of reading or the eclipse of place

*Getting Over the Color Green* Scott Slovic,2001 Desert vistas are often deemed vacant inhospitable wastelands Don t suggest that to Joy Harjo Pat Mora or other contemporary southwestern writers In these arid stretches often devoid of green today s southwestern writers see pyrotechnic colors and Gothic shapes that excite and often overwhelm the imagination And they capture this excitement in words that fix these desert images in the minds of readers who may too often look at the world through green colored glasses This anthology of contemporary nature writing from the Greater Southwest brings together a host of writers including peers of Edward Abbey such as Charles Bowden and Ann Zwinger and representatives of a new generation of writers such as Rick Bass and Terry Tempest Williams The book is an eclectic blend of nonfiction and fiction field notes and poetry through which artists of diverse backgrounds both celebrate and illuminate the unique vitality and complexity of southwestern literature proving that green is only one of many colors on their palette The selections included here range all across the southwestern landscape and explore adventures in the wild topics in natural history living close to the land and efforts at conservation and restoration They clearly demonstrate that there is grace and beauty in this often maligned part of the world both in the human traditions that have developed in the region and in the natural features of the desert itself

at twenty five year intervals Writing Arizona 1912 2012 shows us how the state was created through the writings of both its inhabitants and its visitors from pioneer reminiscences of settling the desert to modern stories of homelessness and from early twentieth century Native American as told to autobiographies to those written in Natives own words in the 1970s and 1980s Weaving together these written accounts Engel Pearson demonstrates how government leaders and boosters promotion of tourism often at the expense of minority groups and the environment was swiftly complicated by concerns about ethics representation and conservation Word by word story by story Engel Pearson depicts an Arizona whose narratives reflect celebrations of diversity and calls for conservation yet at the same time a state whose constitution declares only English words official She reveals Arizona to be constructed understood and inhabited through narratives a state of words as changeable as it is timeless
