Peace & Cooperation in ASEAN Kim Hourn Kao, Din Merican, 1997      Sustainable Peace Of The South China Sea: The 20th Anniversary Of Signing The Declaration On The Conduct Of Parties In The South China Sea Yanjun Guo, Sothirak Pou, 2024-11-28 The year 2022 marked the 20th Anniversary of Declaration on the Conduct of Parties in the South China Sea DOC China and the ASEAN Member States issued a Joint Statement on this occasion As another milestone consensus between ASEAN and China on the South China Sea the Joint Statement recognises the benefits of having the South China Sea as a sea of peace friendship and cooperation appreciates the progress in the negotiations of the Code of Conduct in the South China Sea COC and reaffirms that the future adoption of the COC would further promote peace and stability in the region In a collaboration between the Cambodian Institute for Cooperation Peace CICP and China Foreign Affairs University CFAU this book discusses respective and joint DOC and COC related experiences and practices for a sustainable peace of the South China Sea from the perspective of both Chinese as well as ASEAN scholars      **The East Asian Peace M.** Weissmann, 2012-06-12 Using a case study based approach Weissmann analyses the post Cold War East Asian security setting to demonstrate why there is a paradoxical inter state peace He points out processes that have been important for the creation of a continuing relative peace in East Asia as well as conflict prevention and peacebuilding mechanisms      Peace Operations Donald C. F. Daniel, Patricia Taft, Sharon Wiharta, 2008-07-30 Trends in the number and scope of peace operations since 2000 evidence heightened international appreciation for their value in crisis response and regional stabilization Peace Operations Trends Progress and Prospects addresses national and institutional capacities to undertake such operations by going beyond what is available in previously published literature Part one focuses on developments across regions and countries It builds on data gathering projects undertaken at Georgetown University s Center for Peace and Security Studies CPASS the Stockholm International Peace Research Institute SIPRI and the Folke Bernadotte Academy FBA that offer new information about national contributions to operations and about the organizations through which they make those contributions The information provides the bases for arriving at unique insights about the characteristics of contributors and about the division of labor between the United Nations and other international entities Part two looks to trends and prospects within regions and nations Unlike other studies that focus only on regions with well established track records specifically Europe and Africa this book also looks to the other major areas of the world and poses two questions concerning them If little or nothing has been done institutionally in a region why not What should be expected This groundbreaking volume will help policymakers and academics understand better the regional and national factors shaping the prospects for peace operations into the next decade      *Integrated Approaches to Peace and Sustainability* Ayyoob Sharifi, Dahlia Simangan, Shinji Kaneko, 2023-01-30 This book provides new insights into the development of integrated approaches to peace and sustainability in the era of global change Since the late 1980s and in order to regulate the increasingly detrimental impacts

of humans on the environment the transition towards sustainability has been high on the agenda of researchers and policymakers alike Meanwhile peace considerations have expanded in recent decades to include the varied types and sources of conflict from inter state to intra state conflicts due to various social political economic and environmental factors Through providing theoretical and empirical insights this book demonstrates that sustainability and peace as intrinsically interrelated The book elaborates on the multi dimensional and constantly evolving concepts of sustainability and peace In addition the book contributes to a better understanding of the complex and dynamic interlinkages between peace and sustainability by presenting examples of pathways where sustainability and peace interact considering the different factors and contexts that are constantly shaping and reshaping the conditions for sustainable and peaceful societies

*Shaping the Culture of Peace in a Multilateral World* Patrick Petit, 2017-07-05 As the world faces a multitude of complexly interwoven challenges new values and new worldviews are emerging to change the ways in which human beings relate to each other to our planet and to all life on Earth In today's globalized world humanity is becoming inescapably aware that coexistence cooperation and respect for diversity are fundamental values by which all of us must live These essential human values which apply in all individual and societal relationships are likewise intrinsic to a culture of peace a way of living that will allow a harmonious multifaceted global civilization to blossom Central to this volume is a belief that in an interdependent world collective decision making for the collective good is the most effective way to move forward In order to respect the balance among cultures and nations decisions that have a global impact must be taken multilaterally No culture can achieve and maintain its international objectives by acting unilaterally nor can any nation or cultural group claim to represent the whole of humanity *Shaping the Culture of Peace in a Multilateral World* compiles prominent visionary articles from United Nations institutions and regional and other intergovernmental organizations and highlights the contributions being made to the creation of a culture of peace It aims to strengthen multilateral cooperation among intergovernmental organizations worldwide and to facilitate the formation of a global network of multilateral mechanisms which will provide collective and holistic responses to the peace and security challenges of the 21st century *Shaping the Culture of Peace in a Multilateral World* is in itself a true example of multilateralism and a publication treasure for people who are active or interested in international diplomacy and international affairs

**Peace and Security in the Asia-Pacific** Sorpong Peou, 2010-04-15 Demonstrating that none of the various perspectives under review has emerged as the clear winner in the struggle for theoretical hegemony in security studies this book shows that eclectic perspectives like democratic realist institutionalism can better explain peace and security in the Asian Pacific The Asian Pacific has emerged as one of the most important regions in the world causing scholars to pay increased attention to the various challenges old and new to peace and security there *Peace and Security in the Asia Pacific Theory and Practice* is a comprehensive critical review of the established theoretical perspectives relevant to contemporary peace and security studies in the light of recent experiences Illuminating ongoing debates in the field the book

covers some 20 theoretical perspectives on peace and security in the Asian Pacific including realist liberal socialist peace and human security constructivist feminist and nontraditional security studies The first section of the book discusses perspectives in realist security studies the second part covers perspectives critical of realism The author's goal is to assess whether any of the perspectives found in nonrealist security studies are capable of undermining realism His conclusion is that each theoretical perspective has its strengths and weaknesses leaving eclecticism as the best way to understand the region's dynamics

**Peace and Security in Indo-Pacific Asia** Sorpong Peou, 2021-11-21 Peace and Security in Indo Pacific Asia is for the informed the interested and the engaged Sorpong Peou brings together the skills of the pedagogue with the knowledge of the scholar Dr David Dewitt University Professor Emeritus Senior Scholar York University Toronto Canada Peou's excellent book provides both the lay reader and the specialist with six important theoretical frameworks which should provide the basis for better appreciation of what a security community in Indo Pacific Asia means in our world today There are very few scholars who understand the region like Peou Dr W Andy Knight Professor of Political Science the University of Alberta Canada Sorpong Peou's extraordinary breadth of knowledge of both International Relations theory and the key trends in Indo Pacific Asia shines through in this authoritative analysis Dr Richard Stubbs Professor of Political Science McMaster University Canada A pedagogical approach of the textbook that is appreciated is how the author respectfully engages with the theories of IR and is not pushing an agenda of denouncing some theories and trying to persuade the reader of others We live in such polarizing times that it is truly refreshing to read scholarly work that avoids sensationalistic attacks on theories that have been debated for decades Each theory in this manuscript is explored on its own terms and the reader is encouraged to figure out where they stand on these enduring debates in the context of Indo Pacific security The approach will lead to compelling classroom discussions of the theories and the politics of the region This book is a must read for any student or observer of security trends in the region Dr Mark Williams Chair and Professor of Political Studies Vancouver Island University B C Canada
