Positivism

Social phenomena can be explained using scientific methods

Constructivism

The individual mind creates meaning and reality

Post-structuralism

Meaning is coded in discourses and languages

Post-positivism

Social phenomena can be predicted only by using multiple methods

Interpretivism

The social world is too multifaceted to be explained by natural science methods

Post-modernism

Truth claims and methods are equally distrusted

Critical theory

Research is used to change situations (e.g., empower the subjects of social inquiry)

Pragmatism

The end justifies the means; all methods are equally good if they contribute to the understanding of the research problem
