Beyond Self-Realization Paul Breer,2018-06-21 Beyond Self Realization In his previous book on philosophy The Spontaneous Self the author argued that the concept of free will is an illusion while detailing what it might imply for our thoughts feelings and behavior to dispel that belief The present volume takes the argument further With equal emphasis on theory and practice it illustrates how giving up one s identity as a free willing inner I can serve as a stepping stone to the state of enlightenment To experience enlightenment we have to go beyond self realization and that can happen only if we change the way we define ourselves Given the ubiquitous value placed on the self in our Western culture that is not an easy task If the path to enlightenment can be envisioned as a trail leading to the top of a mountain the self can be seen as a large rock blocking the way To get to the top we have to either blast our way through the rock or go around it Most spiritual traditions opt for the latter In Beyond Self Realization the author lays out a plan for blasting our way through The plan consists of two steps first a gradual shrinking of the self illusion and second a total uprooting of the self tree The techniques used include meditation contemplation linguistic exercises and group work in which members look for signs that the self illusion is present in their behavior Once a sign is detected the other techniques are brought to bear on removing the rock When applied with persistence the practice is designed to release one from the cage of quiet desperation in which most of us are trapped Once released we are free to discover who we really are **Lovebliss** Jan Esmann,2016-04-02 This is the third edition of this now classic book Lovebliss clearly explains what the state of enlightenment called Self realization is It also places this state of enlightenment in the context of the various states of enlightenment one may progress through on the spiritual journey The part Kundalini plays in this progress is clearly explained as well as how to work with kundalini in simple

but powerful kriya meditations The nature of kundalini and how it will eventually return to its source The absolute Self is also clarified Furthermore the classic yogic text Patanjali's Yoga Sutras is translated and commented upon Also the three tantric classics Pratyabhijnahridayam Spanda Karikas and Vijnanabhairava are translated and commented upon Jan Esmann shortly describes his own amazing journey and how he became a siddha capable of giving the rare shaktipat initiation which places the receiver of shaktipat on a spontaneous and automatic path towards enlightenment Thus he teaches from experience only
